SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC-550 "Oil Pipeline Rates: Tariff Filings" (OMB No. 1902-0089) is used by the Commission to implement the statutory provisions of Part 1, 6 and 15 of the Interstate Commerce Act (ICA) (Pub. L. 337, 34 Stat. 584). Jurisdiction over oil pipelines as it relates to the establishment of valuations for pipelines was transferred from the Interstate Commerce

Commission (ICC) to FERC, pursuant to sections 306 and 402 of the Department of Energy Organization Act (DOE Act), 42 U.S.C. 7155 and 7172 and Executive Order No. 12009, 42 FR 46267 (September 17, 1977).

The filing requirements for proposed oil pipeline rates are specified in 18 CFR 341-348. The data that oil pipelines file is the basis for Commission analyses of the amounts they plan to charge to transport crude oil and petroleum products. The Commission uses its analyses to (1) determine if the proposed charges result in just and reasonable rates for the oil pipeline's transportation services and (2) help the Commission decide whether it should suspend, accept or reject the proposed rates.

Action: The Commission is now requesting a three-year extension of the current expiration date, with no changes to the existing collection. The information filed with the Commission is mandatory.

Burden Statement: Public Reporting Burden for this information collection is estimated as:

Number of respondents annually	Number of responses per respondent	Average burden hours per response	Total annual burden hours
(1)	(2)	(3)	(4)
200	3	11	6,600

6,600 hours/2080 hours¹ × \$124,384² equals \$401,026. The cost of filing FERC-550 per respondent is \$2005.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose or provide the information including:

- (1) Reviewing instructions; (2) developing, acquiring, installing, and using technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting existing ways to comply with an previously applicable filing instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) competing and reviewing the collection of information; and (7) transmitting or otherwise disclosing the information.

The cost estimate for respondents is based upon salaries for professional and clerical support, as well as direct and

indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) The accuracy of the Commission's burden estimate of the proposed information collection, including the validity of the methodology and assumptions used to calculate the reporting burden; (2) ways to enhance the quality, utility and clarity of the information to be collected.

Kimberly D. Bose,

Secretary.
