Certain Chemical Substances; Withdrawal of Significant New Use Rules

AGENCY: Environmental Protection Agency (EPA). **ACTION:** Withdrawal of final rules.

SUMMARY: EPA is withdrawing two significant new use rules (SNURs) promulgated under section 5(a)(2) of the Toxic Substances Control Act (TSCA) for substances which were the subject of premanufacture notices (PMNs), i.e., dodecandioic acid, 1, 12-dihydrazide (CAS No. 4080-98-2; PMNs P-01-759 and P-05-555) and thiophene, 2,5dibromo-3-hexyl- (CAS No. 116971-11-0; PMN P–07–283). EPA published the SNURs using direct final rulemaking procedures. EPA received notices of intent to submit adverse comments on these rules. Therefore, the Agency is withdrawing these SNURs, as required under the expedited SNUR rulemaking process. EPA also intends to publish in the Federal Register, under separate notice and comment rulemaking procedures, proposed SNURs for these two substances.

DATES: This final rule is effective November 19, 2007.

SUPPLEMENTARY INFORMATION:

I. Does this Action Apply to Me?

A list of potentially affected entities is provided in the **Federal Register** of September 19, 2007 (72 FR 53470) (FRL-8135-8). If you have questions regarding the applicability of this action to a particular entity, consult the person listed under FOR FURTHER INFORMATION CONTACT.

II. What Rule is being Withdrawn?

In the Federal Register of September 19, 2007 (72 FR 53470), EPA issued several direct final Significant New Use Rules (SNURs), including SNURs for the two chemical substances that are the subject of this withdrawal. These direct final rules were issued pursuant to the procedures in 40 CFR part 721, subpart D. In accordance with 40 CFR 721.170(d)(4)(i)(B), EPA is withdrawing the rules issued for dodecandioic acid, 1, 12-dihydrazide (CAS No. 4080-98-2; PMNs P-01-759 and P-05-555) and thiophene, 2, 5-dibromo-3-hexyl- (CAS No. 116971-11-0; PMN P-07-283) (see §721.10057 and §721.10088, respectively) because the Agency received a notice to submit adverse comments. EPA intends to propose SNURs for these two substances via notice and comment rulemaking in a future Federal Register document.

For further information regarding EPA's expedited process for issuing SNURs, interested parties are directed to 40 CFR part 721, subpart D and theFederal Register of July 27, 1989 (54 FR 31314). The record for the direct final SNUR for these substances which is being withdrawn was established at EPA-HQ-OPPT-2006-0898. That record includes information considered by the Agency in developing this rule and one of the notices of intent to submit adverse comments. The other notice of intent to submit adverse comments was claimed as Confidential Business Information by the commenter and therefore is not in the public docket

III. How Do I Access the Docket?

To access the electronic docket, please go to*http://www.regulations.gov* and follow the online instructions to access Docket ID No. EPA–HQ–OPPT– 2006–0898. Additional information about the docket facility is provided under**ADDRESSES** in the **Federal Register** document of September 19, 2007 (72 FR 53470). If you have questions, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

IV. What Statutory and Executive Order Reviews Apply to this Action?

This final rule revokes or eliminates an existing regulatory requirement and does not contain any new or amended requirements. As such, the Agency has determined that this withdrawal will not have any adverse impacts, economic or otherwise. The statutory and executive order review requirements applicable to the direct final rule were discussed in the **Federal Register** document of September 19, 2007 (72 FR 53470). Those review requirements do not apply to this action because it is a withdrawal and does not contain any new or amended requirements.

V. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.* generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report to each House of the Congress and the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

Fisheries of the Northeastern United States; Spiny Dogfish Fishery; Commercial Period 2 Quota Harvested

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure of spiny dogfish fishery.

SUMMARY: NMFS announces that the spiny dogfish commercial quota available to the coastal states from Maine through Florida for the semiannual quota period, November 1, 2007 - April 30, 2008, has been harvested. Therefore, effective 0001 hours, November 16, 2007, federally permitted commercial vessels may not fish for, possess, transfer, or land spiny dogfish until May 1, 2008, when the 2008 Period 1 quota becomes available. Federally permitted dealers are also advised that they may not purchase spiny dogfish from federally permitted spiny dogfish vessels through April 30, 2007. Regulations governing the spiny dogfish fishery require publication of this notification to advise the coastal states from Maine through Florida that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no Federal commercial quota is available for landing spiny dogfish in these states. This action is necessary to prevent the fishery from exceeding its Period 2 quota and to allow for effective management of this stock.

DATES: Effective at 0001 hr local time, November 16, 2007, through 2400 hr local time April 30, 2008.

FOR FURTHER INFORMATION CONTACT: Don Frei, Fisheries Management Specialist, at (978) 281–9221, or Don.Frei@Noaa.gov.

SUPPLEMENTARY INFORMATION:

Regulations governing the spiny dogfish fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota, which is allocated into two quota periods based upon percentages specified in the fishery management plan. The commercial quota is distributed to the coastal states from Maine through Florida, as described in § 648.230.

The initial total commercial quota for spiny dogfish for the 2007 fishing year is 4 million lb (1.81 million kg) (71 FR 40436, July 17, 2006). The commercial quota is allocated into two periods (May 1 through October 31, and November 1 through April 30). Vessel possession limits are intended to preclude directed fishing, and they are set at 600 lb (272 kg) for both quota Periods 1 and 2. Quota Period 1 is allocated 2.3 million lb (1.05 million kg), and quota Period 2 is allocated 1.7 million lb (763,849 kg) of the commercial quota. The total quota cannot be exceeded, so landings in excess of the amount allocated to quota Period 1 have the effect of reducing the quota available to the fishery during quota Period 2.

The Administrator, Northeast Region, NMFS (Regional Administrator) monitors the commercial spiny dogfish quota for each quota period and, based upon dealer reports, state data, and other available information, determines when the total commercial quota will be harvested. NMFS is required to publish a notification in the Federal Register advising and notifying commercial vessels and dealer permit holders that, effective upon a specific date, the Federal spiny dogfish commercial quota has been harvested and no Federal commercial quota is available for landing spiny dogfish for the remainder of that quota period.

Section 648.4(b) provides that Federal spiny dogfish permit holders agree, as a condition of the permit, not to land spiny dogfish in any state after NMFS has published notification in the Federal Register that the commercial quota has been harvested and that no commercial quota for the spiny dogfish fishery is available. Therefore, effective 0001 hr local time, November 16, 2007, landings of spiny dogfish in coastal states from Maine through Florida by vessels holding commercial Federal fisheries permits are prohibited through April 30, 2008, 2400 hr local time. The 2008 Period 1 quota will be available for commercial spiny dogfish harvest on May 1, 2008. Effective November 16, 2007, federally permitted dealers are also advised that they may not purchase spiny dogfish from vessels issued Federal spiny dogfish permits that land in coastal states from Maine through Florida.

Classification

Fisheries off West Coast States; Pacific Coast Groundfish Fishery; Emergency Rule Extension

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; emergency action extended.

SUMMARY: NMFS is extending the temporary rule to prohibit vessels without sector-specific participation history in the directed Pacific whiting (whiting) fishery off the West Coast from participating in the whiting fishery. This emergency rule extension is necessary to prevent serious conservation and management problems that could be caused by new entrants and to maintain status quo participation while the Pacific Fishery Management Council (Council) completes its efforts to develop a vessel license limitation program through an amendment to the Pacific Coast Groundfish Fishery Management Plan (FMP.)

DATES: Effective from November 14, 2007, through May 13, 2008.

ADDRESSES: Copies of the Finding of No Significant Impact (FONSI) and its supporting Environmental Assessment (EA) for the emergency rule are available from Frank D. Lockhart, Assistant Regional Administrator for Sustainable Fisheries, Northwest Region, NMFS 7600 Sand Point Way, NE, Seattle, WA 98115–0070.
