## FEDERAL MARITIME COMMISSION

[Docket No. 07-10]

### **Kawasaki Kisen Kaisha, Ltd. v. Fashion Accessories Shippers Association, Inc.; Gemini Shippers Association, Inc.; Sara Mayes; and Harold Sachs; Notice of Filing of Complaint and Assignment**

Notice is given that a complaint has been filed with the Federal Maritime Commission ("Commission") by Kawasaki Kisen Kaisha, Ltd. ("K" Line). Complainant asserts that it is a

corporation formed and existing under the laws of the country of Japan and is operating as an ocean common carrier. Complainant asserts that Respondents, Fashion Accessories Shippers Association, Inc. ("FASA"), and Gemini Shippers Association, Inc. ("Gemini") are Delaware non-profit corporations, that Sara Mayes is President of FASA, and that Harold Sachs is Executive Director of FASA. Complaint asserts that all Respondents are located at 350 Fifth Avenue, Suite 2030, New York, New York 10118.

Complainant contends that FASA purports to act as a shippers association and enters into service contracts with ocean common carriers as "Gemini Shippers Association." Complainant "K" Line also contends that it has entered into a number of service contracts with Fashion Accessories Shippers Association and/or Gemini Shippers Association since April 2001. Complainant alleges that it makes "royalty payments" by check to Gemini Shippers Association pursuant to the terms of such service contracts. Complainant maintains that under the service contract "royalty clause," Complainant was required to collect from FASA/Gemini member shippers and forward to Respondent Gemini, the "Gemini Association dues" which royalty ranged from \$40.00 to \$70.00 per container. Complainant "K" Line also states that it was billed for such royalties on the billhead of "Gemini Shippers Group." Complainant further states that FASA instituted a New York arbitration claiming royalties it would have received had "K" Line not directly entered into a service contract with a "so-called member" and a "former member" during the 2006-2007 contract term."

Complainant contends that Respondents are in violation of the Shipping Act of 1984 ("the Shipping Act") by: (1) Holding themselves out as a shippers' association when it neither organized as a shippers' association nor functions as one as defined by the Shipping Act; (2) requiring that "royalty payments" be made by Complainant to Respondents for the "privilege of carrying cargoes under the contract rates," and through such "royalty payments," engaging in a scheme to obtain transportation at less than the otherwise applicable rates; and (3) implementing and enforcing an "exclusive dealing clause" that locks shippers into FASA contracts and controls rate levels. Complainant asserts that the activities described above are in violation of the 46 U.S.C. 40102(20), (22) and (23), 41102(a), 41104(10), and

the Commission's regulations at 46 CFR 530.8(c).

Complainant requests that the Commission: (1) "Order Respondents to cease and desist from representing the FASA/Gemini operation, as it presently exists, as a shippers' association"; (2) find the exclusive dealing clause and the royalty clause to be in violation of the Shipping Act and to issue a cease and desist order against Respondents' future use of such clauses; (3) find that FASA/Gemini's New York arbitration or any other means for seeking to enforce the unlawful exclusive dealing and royalty clauses is unlawful; and issue a cease and desist order against any Respondent pursuing the New York arbitration against "K" Line or re-instituting any similar arbitration for enforcement of either of the clauses.

This proceeding has been assigned to the Office of Administrative Law Judges. Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61, and only after consideration has been given by the parties and the presiding officer to the use of alternative forms of dispute resolution. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record. Pursuant to the further terms of 46 CFR 502.61, the initial decision of the presiding officer in this proceeding shall be issued by November 18, 2008, and the final decision of the Commission shall be issued by March 18, 2009.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### National Toxicology Program (NTP); NTP Interagency Center for the Evaluation of Alternative Toxicological Methods (NICEATM); Availability of the Interagency Coordinating Committee on the Validation of Alternative Methods (ICCVAM) Test Method Evaluation Report on *In Vitro* Ocular Toxicity Test Methods for Identifying Severe Irritants and Corrosives and Final *In Vitro* Ocular Test Method Background Review Documents; Notice of Transmittal of ICCVAM Test Method Recommendations to Federal Agencies

**AGENCY:** National Institute of  
Environmental Health Sciences

(NIEHS), National Institutes of Health  
(NIH).

**ACTION:** Availability of ICCVAM Test  
Method Evaluation Report and Final  
Background Review Documents.

**SUMMARY:** NICEATM announces  
availability of the *ICCVAM Test Method  
Evaluation Report: In Vitro Ocular  
Toxicity Test Methods for Identifying  
Severe Irritants and Corrosives* (NIH  
Publication 07-4517). The report  
describes four ocular toxicity test  
methods evaluated by ICCVAM: (1) The  
Bovine Corneal Opacity and  
Permeability [BCOP] test, (2) the  
Isolated Chicken Eye [ICE] test, (3) the  
Isolated Rabbit Eye [IRE] test, and (4)  
the Hen's Egg Test—Chorioallantoic  
Membrane [HET-CAM]. The report  
includes ICCVAM's (a) final test method  
recommendations on the use of these  
four *in vitro* test methods, (b)  
recommended test method protocols for  
future testing, (c) recommendations for  
further optimization and validation  
studies for these test methods, and (d)  
recommended reference substances for  
validation studies. The report  
recommends that the BCOP and ICE  
methods, with specific limitations for  
certain chemical classes and/or physical  
properties, can be used in a tiered  
testing strategy to determine ocular  
hazards, and substances that test  
positive can be classified as ocular  
corrosives or severe irritants without  
further testing in animals. The report  
also recommends that these *in vitro* test  
methods should be considered before  
using animals for ocular testing and  
used when determined appropriate.

NICEATM also announces availability  
of the final Background Review  
Documents (BRDs) for the BCOP, ICE,  
IRE, and HET-CAM test methods (NIH  
Publications 06-4512, 06-4513, 06-  
4514, and 06-4515, respectively). These  
BRDs provide the data and analyses  
used to assess the current validation  
status of these four test methods for  
identifying ocular corrosives and severe  
irritants.

Electronic copies of the ICCVAM Test  
Method Evaluation Report and the four  
BRDs are available from the NICEATM/  
ICCVAM Web site at [http://  
iccvam.niehs.nih.gov](http://iccvam.niehs.nih.gov) or by contacting  
NICEATM (see **FOR FURTHER  
INFORMATION CONTACT**). The ICCVAM  
Test Method Evaluation Report and the  
final BRDs have been forwarded to U.S.  
Federal agencies for regulatory and  
other acceptance considerations where  
applicable. Responses will be posted on  
the ICCVAM/NICEATM Web site as  
they are received.
