Proposed Project

Select Agent Distribution Activity: Request for Select Agent (OMB Control No. 0920-0591)—Reinstatement without change—National Center for Preparedness, Detection, and Control of Infectious Diseases (NCPDCID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention is requesting a three year extension to continue data collection

under the Select Agent Distribution Activity. The form used for this activity is currently approved under OMB Control No. 0920-0591. The purpose of this data collection is to provide a systematic and consistent mechanism to review requests that come to CDC for Select Agents. The term select agents is used to describe a limited group of viruses, bacteria, rickettsia, and toxins that have the potential for use as agents of bioterrorism, inflicting significant morbidity and mortality on susceptible populations. In light of current terrorism concerns and the significant NIH grant monies directed toward Select Agent research, CDC receives hundreds of requests for Select Agents from researchers. Applicants are required to complete an application form in which

they identify themselves and their institution, provide a Curriculum Vitae or biographical sketch, a summary of their research proposal, and sign indemnification and material transfer agreement statements. A user fee will be collected to recover costs for materials, handling and shipping (except for public health laboratories). The cost to the respondent will vary based on which agent is requested. CDC is updating the name of the National Center on the application form. The National Center for Preparedness, Detection, and Control of Infectious Diseases officially became a National Center in April, 2007. The total estimated annualized burden hours are 450.

OMB No.: New Collection.

Description: The Assets for Independence (AFI) program is a program authorized by Section 403 of the Community Opportunities, Accountability, and Training and Educational Services Act of 1998 (the Act). The Act requires AFI program grantees to submit annual reports to OCS with detailed information about project operations and participant activities. The information collected is issued by OCS for performance management and to prepare mandated Reports to Congress.

The AFI Program Performance Management and Report to Congress Data Collection Form is used to collect eight categories of information, as required by the Act. Examples of the types of information collected include: Project features; the number and characteristics of project participants; amounts of participant savings and matching funds deposited in the IDAs; amounts withdrawn from the IDAs; the withdrawal purposes; and current balances in participant IDAs. The data collection form is an online form available on the OCS asset-building Web site. Grantees provided training and technical assistance in completing the form.
