

On behalf of the Secretary, we implemented regulations at 50 CFR 18.23(f) for Alaska Natives harvesting polar bear, northern sea otter, and Pacific walrus. These regulations enable us to gather data on the Alaska Native subsistence and handicraft harvest and on the biology of polar bear, northern sea otter, and Pacific walrus in Alaska to determine what effect such take may be having on these populations. The regulations also provide us with a means of monitoring the disposition of the harvest to ensure that any commercial use of products created from these species meets the criteria set forth in Section 101(b) of the MMPA. The information we collect includes, but is not limited to:

- (1) Date of kill.
- (2) Sex of the animal.
- (3) Kill location.
- (4) Form of transportation used to make the kill of polar bears.
- (5) Amount of time (i.e., hours/days hunted) spent hunting polar bears.
- (6) Type of take (live killed or beach found) for walrus.
- (7) Number of otters present in and number of otters harvested from pod.
- (8) Condition of the bear and whether or not polar bear cubs were present.
- (9) Name of the hunter or possessor of the specified parts at the time of marking, tagging, and reporting.

Comments: On July 12, 2007, we published in the Federal Register (72 FR 38096) a notice of our intent to request that OMB renew this ICR. In that notice, we solicited comments for 60 days, ending on September 10, 2007. We received one comment. The comment expressed opposition to the killing of wildlife by Alaska Natives. We note the concerns raised by this individual; however, the harvest of marine mammals by certain Alaska Natives for certain purposes is specifically exempted from otherwise prohibited activities by Section 101(b) of the Marine Mammal Protection Act (MMPA) of 1972, as amended (16 U.S.C. 1361 et seq.). We did not make any changes to our information collection requirements.

We again invite comments concerning this information collection on:

- (1) whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- (2) the accuracy of our estimate of the burden for this collection of information;
- (3) ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
