Certain Pasta From Italy: Notice of Extension of Time Limit for the Final Results of the Tenth Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Dates:* December 4, 2007.

FOR FURTHER INFORMATION CONTACT:

Andrew McAllister or Brandon Farlander, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone: (202) 482-1174 and (202) 482-0182, respectively.

SUPPLEMENTARY INFORMATION:**Background**

On August 6, 2007, the Department published the preliminary results of the 2005 administrative review of the countervailing duty order on certain pasta ("pasta") from Italy. *See Certain Pasta from Italy: Preliminary Results of the Tenth Countervailing Duty Administrative Review*, 72 FR 43616 (August 6, 2007). This review covers three manufacturers/exporters of the subject merchandise to the United States: De Matteis Agroalimetare S.p.A. ("De Matteis"), Atar S.r.L. ("Atar"), and Antonio Pallante S.r.L. ("Pallante"). In the preliminary results, we stated that we would issue our final results for the countervailing duty administrative review no later than 120 days after the date of publication of the preliminary results (*i.e.*, December 4, 2007).

Extension of Time Limit for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the final results in an administrative review within 120 days of the publication date of the preliminary results. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to a maximum of 180 days.

The Department has determined that completion of the final results of this review within the original time period is not practicable due to legal and factual issues that have arisen since the issuance of our preliminary results of

review. Specifically, the Department requires additional time to review interested parties' comments on De Matteis' November 5, 2007, supplemental questionnaire response. Thus, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for issuing the final results of review by an additional 60 days, until February 4, 2008.

This notice is published pursuant to sections 751(a)(2)(B)(iv) and 777(i)(1) of the Act.

Dated: November 28, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Endangered and Threatened Species; 5-year Review

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of a 5-year review for Johnson's seagrass.

SUMMARY: We, NMFS, announce the availability of a 5-year review for Johnson's seagrass (*Halophila johnsonii*) as required by the Endangered Species Act of 1973 (ESA). Johnson's seagrass was listed as threatened on September 14, 1998. Based on the best available scientific and commercial data, we conclude in the 5-year review that Johnson's seagrass remains a threatened species likely to become endangered within the foreseeable future. Therefore, based on our 5-year review, we recommend no change in listing.

ADDRESSES: Additional information about the 5-year review may be obtained by writing to Shelley Norton, NMFS, Southeast Regional Office, Protected Resources Division, 263 13th Avenue South, St. Petersburg, FL 33701 or send and electronic message to Shelley.norton@noaa.gov. Electronic copies of the 5-year review are available online at the NMFS Southeast Regional Office website: <http://sero.nmfs.noaa.gov/pr/protres.htm>.

SUPPLEMENTARY INFORMATION:

Background

Under the ESA, a list of endangered and threatened wildlife and plant species must be maintained. The list is published at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires that we conduct a review of listed species at least once every 5 years. On the basis of such reviews under section 4(c)(2)(B), we determine whether any species should be removed from the List (delisted), or reclassified from endangered to threatened or from threatened to endangered. In a 5-year review we consider the best scientific and commercial data and all new information that has become available since the listing determination or most recent status review of a species.

NMFS and the NOAA Center for Coastal Fisheries and Habitat Research (CCFHR) initiated the 5-year review of Johnson's Seagrass in September 2006. The CCFHR and NMFS solicited information from the public through the **Federal Register** (71 FR 60108; October 12, 2006), as well as through personal and written communications with several educational institutions, Federal and state governments, and private research organizations. To complete the review, we evaluated all information that has become available on the species since 1997, the date of the last Johnson's seagrass biological status review. The completed 5-year review was peer reviewed. We conclude that the 5-year
