Chlorpyrifos-methyl; Product Cancellation Order

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of products containing the pesticide chlorpyrifos-methyl, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows the July 7, 2004 **Federal Register** Notice of Receipt of Requests from the chlorpyrifos-methyl registrants to voluntarily cancel their Gustafson Reldan 4E Insecticide and Reldan 4E product registrations. These are not the last chlorpyrifos-methyl products registered for use in the United States. In the July 7, 2004 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30 day comment period that would merit its further

review of these requests, or unless the registrants withdrew their requests within this period. The Agency received comments on the notice that merited its further review of the requests. The Agency granted an extension of the existing registration of Gustafson Reldan 4E Insecticide and Reldan 4E until the availability of an equally effective stored grain product was registered. Storicide II, for broad-spectrum control of stored grain insects, was conditionally registered on October 27, 2004. EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the chlorpyrifos-methyl products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective December 5, 2007.
