

investigation. Note, however, that one rate is calculated for the exporter and all of the producers which supplied subject merchandise to it during the period of investigation. This practice applies both to mandatory respondents receiving an individually calculated separate rate as well as the pool of non-investigated firms receiving the weighted-average of the individually calculated rates. This practice is referred to as the application of "combination rates" because such rates apply to specific combinations of exporters and one or more producers. The cash-deposit rate assigned to an exporter will apply only to merchandise both exported by the firm in question and produced by a firm that supplied the exporter during the period of investigation. Distribution of Copies of the Petitions

In accordance with section 732(b)(3)(A) of the Act and 19 CFR 351.202(f), copies of the public versions of the petitions have been provided to the representatives of the Governments of Germany and the PRC. We will attempt to provide a copy of the public version of the petitions to the foreign producers/exporters, consistent with 19 CFR 351.203(c)(2).

International Trade Commission Notification

We have notified the ITC of our initiations, as required by section 732(d) of the Act.

Preliminary Determinations by the International Trade Commission

The ITC will preliminarily determine, no later than December 24, 2007, whether there is a reasonable indication that imports of sodium nitrite from Germany and the PRC are materially injuring, or threatening material injury to, a U.S. industry. A negative ITC determination with respect to either of the investigations will result in that investigation being terminated; otherwise, these investigations will proceed according to statutory and regulatory time limits.

This notice is issued and published pursuant to section 777(i) of the Act.

Dated: November 28, 2007.

David M. Spooner,

Assistant Secretary for Import Administration.

Sodium Nitrite from the People's Republic of China: Initiation of Countervailing Duty Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: (December 5, 2007.

FOR FURTHER INFORMATION CONTACT:

Sean Carey or Gene Calvert, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-3964 and (202) 482-3586, respectively.

SUPPLEMENTARY INFORMATION:

Initiation of Investigation: The Petition

On November 8, 2007, the Department of Commerce (the Department) received a petition filed in proper form by General Chemical LLC (petitioner). On November 14 and November 15, 2007, the Department issued requests for additional information and clarification of certain areas of the petition involving general issues and the countervailable subsidy allegations, respectively. Based on the Department's request, petitioner filed additional information concerning the petition on November 19 and November 20, 2007.

In accordance with section 702(b)(1) of the Tariff Act of 1930, as amended (the Act), petitioner alleges that manufacturers, producers, or exporters of sodium nitrite in the People's Republic of China (the PRC) received countervailable subsidies within the meaning of section 701 of the Act, and that such imports are materially injuring or threatening material injury to an industry in the United States.

The Department finds that petitioner filed this petition on behalf of the domestic industry because it is an interested party as defined in section 771(9)(C) of the Act, and petitioner has demonstrated sufficient industry support with respect to the countervailing duty investigation that it
