[Project No. 8412-003]

#### Ronald W. and Kathryn C. Denney; Notice of Availability of Environmental Assessment

November 28, 2007.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects' staff has prepared an Environmental Assessment (EA) for a surrender of exemption from licensing for the Coiner Mill Project. The project is located on the South River in Augusta County, Virginia.

The EA contains the staff's analysis of the potential environmental impacts of the proposal and concludes that the surrender of the project's exemption from licensing would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the e-library link. Enter the docket number (prefaced by P-) and excluding the last three digits, in the docket number field to access the document. [Project No. 4362]

#### Inman Mills, SC; Notice of Existing Licensee's Failure To File Notice of Intent to File a Subsequent License Application

November 29, 2007.

By August 31, 2007, Inman Mills, the existing licensee for the Riverdale Hydroelectric Project No. 4362,<sup>1</sup> was required to file a notice of intent stating whether it intended to file an application for a subsequent minor license. The existing license for Project No. 4362 expires on August 31, 2012.

The 1,240-kilowatt project is located on the Enoree River, near Enoree, in Spartanburg County, South Carolina. No federal lands are affected.

The principal project works consist of: (1) A 425-foot-long, 12-foot-high gravity reinforced concrete dam topped with 2-foot flashboards; (2) a 110-foot-long, 9-foot-diameter penstock; (3) a powerhouse separate from the dam containing a 1,240 kW capacity generating unit; (4) a reservoir with a surface area of nine acres at normal pool elevation of 512 feet mean sea level and a gross storage capacity of 22 acre-feet; and (5) appurtenant facilities. The average annual generation at the project is 5.4 million kWh.

Pursuant to section 16.19(b) of the Commission's regulations, 18 CFR 16.9(b) (2007), an existing licensee with a minor license must notify the Commission whether or not the licensee intends to file an application for a subsequent new license.

Inman Mills has not filed a notice of intent to file an application for a subsequent license for this project.

Pursuant to section 16.23(b) of the Commission's regulations, an existing licensee that fails to file a notice of intent pursuant to section 16.6(b) shall be deemed to have filed a notice of intent indicating that it does not intend to file an application for subsequent license.

Pursuant to section 16.20 of the Commission's regulations, applications for subsequent license (except from the existing licensee which is prohibited

<sup>1</sup> In April 2006, Commission staff approved a transfer of the license from Inman Mills to Riverdale Development Venture LLC, effective upon the transferee, within 60 days of the transfer order, signing and returning an acceptance sheet and submitting certified copies of the instruments of conveyance (115 FERC ¶62,076). Transferee did not file the required documents, and Inman Mills therefore remains the licensee.

from filing) must be filed with the Commission at least 24 months prior to the expiration of the existing license. Applications for license for this project must be filed by August 31, 2010. Questions concerning this notice should be directed to Sergiu Serban at (202) 502-6211 or [sergiu.serban@ferc.gov](mailto:sergiu.serban@ferc.gov).

[Docket No. PL08-1-000; 121 FERC ¶ 61,221]

#### Policy Statement on Conditioned Licenses for Hydrokinetic Projects

November 30, 2007.

**AGENCY:** Federal Energy Regulatory Commission, Department of Energy.

**ACTION:** Policy Statement.

**SUMMARY:** The Federal Energy Regulatory Commission is giving notice of a new policy with respect to the issuance of licenses for hydrokinetic projects. In the Policy Statement, the Commission concludes that, in appropriate cases, where the Commission has completed its processing of license applications for hydrokinetic projects, but where other authorizations required under federal law have not yet been received, it will issue conditioned licenses for hydrokinetic projects, predicated on the licensee being precluded from commencing construction until the necessary authorizations are received.

**DATES:** *Effective Dates:* This Policy Statement is effective November 30, 2007.

**FOR FURTHER INFORMATION CONTACT:**

Ann Miles, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, (202) 502-6769;

John Katz, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, (202) 502-8082.

**SUPPLEMENTARY INFORMATION:**

Before Commissioners: Joseph T. Kelliher, Chairman; Suedeen G. Kelly, Marc Spitzer, Philip D. Moeller, and Jon Wellinghoff.

1. The Commission is issuing this Policy Statement as part of its ongoing effort to establish a regulatory climate that supports the development of
