

I. Background

The Office of Workers' Compensation Programs (OWCP) administers the Federal Employees' Compensation Act (FECA), 5 U.S.C. 8133. The Act provides that eligible dependents of deceased employees receive compensation benefits on account of the employee's death. OWCP has to monitor death benefits for current marital status, potential for dual benefits, and other criteria for qualifying as a dependent under the law. The CA-12 is sent annually to beneficiaries in death cases to ensure that their status has not changed and that they remain entitled to benefits. This information collection is currently approved for use through June 30, 2008.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks the approval for the extension of this currently approved information collection in order to ensure that compensation is being paid correctly and to determine eligibility for benefits.
