[Project No. 2686-054]

Duke Energy Carolinas, LLC; Notice of Availability of Environmental Assessment

November 30, 2007.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 47879) the Office of Energy Projects has prepared an environmental assessment (EA) for an application filed by Duke Energy Carolinas, LLC (licensee) on January 16, 2007, requesting Commission approval of a non-project use of project lands. The licensee requests permission to grant to The Point at Lake Glenville (The Point) a lease for 0.55 acre of project land and permission to install a private cluster dock with a capacity of 10 watercraft at the Westfork Hydroelectric Project (FERC No. 2686). The project is located on the West Fork of the Tuckasegee River near the town of Cashiers in Jackson County, North Carolina. The project does not occupy any federal lands.

The EA evaluates the environmental impacts that would result from approving the licensee's proposal to grant The Point a lease and permission to replace an existing 5-slip private cluster dock with the proposed 10-slip private cluster dock. The EA finds that approval of the application would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
