

Needs and Uses: This collection will be submitted as an extension (no change in reporting or recordkeeping requirements) after this 60-day comment period to Office of Management and Budget (OMB) in order to obtain the full three year clearance.

Disclosure of debris mitigation plans as part of requests for FCC authorization will help preserve the United States' continued affordable access to space, the continued provision of reliable U.S. space-based services—including communications and remote sensing satellite services for the U.S. commercial, government, and homeland security purposes—as well as the continued safety of persons and property in space and on the surface of the Earth. Disclosure of debris mitigation plans will allow the Commission and potentially affected third parties to evaluate satellite operators' debris mitigation plans prior to the issuance of a FCC approval for communications activities in space. Disclosure may also aid in the wider dissemination of information concerning debris mitigation techniques and may provide a base-line of information that will aid in analyzing and refining those techniques. Without disclosure of orbital debris mitigation plans as part of applications for FCC authority, the Commission would be denied any opportunity to ascertain whether satellite operators are in fact considering and adopting reasonable debris mitigation practices, which could result in an increase in orbital debris and a decrease in the utility of space for communications and other uses. Furthermore, the effects of collisions involving orbital debris can be catastrophic and may cause significant damage to functional spacecraft or to persons or property on the surface of the Earth, if the debris re-enters the Earth's atmosphere in an uncontrolled manner.

OMB Control No.: 3060–1028.
Title: International Signaling Point Code (ISPC).
Form No.: N/A.
Type of Review: Extension of a currently approved collection.
Respondents: Business or other for-profit.
Number of Respondents: 20 respondents; 20 responses.
Estimated Time Per Response: .166 hours (10 minutes).

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.
Obligation to Respond: Required to obtain or retain benefits.
Total Annual Burden: 7 hours.
Annual Cost Burden: N/A.
Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: In general, there is no need for confidentiality.

Needs and Uses: This collection will be submitted as an extension (no change in reporting or recordkeeping requirements) after this 60-day comment period to Office of Management and Budget (OMB) in order to obtain the full three year clearance.

An International Signaling Point Code (ISPC) is a unique, seven-digit code synonymously used to identify the signaling network of each international carrier. The ISPC has a unique format that is used at the international level for signaling message routing and identification of signaling points. The Commission receives ISPC applications from international carriers on the electronic, Internet-based International Bureau Filing System (IBFS). After receipt of the ISPC application, the Commission assigns the ISPC code to each applicant (international carrier) free of charge on a first-come, first-served basis. The collection of this information is required to assign a unique identification code to each international carrier and to facilitate communication among international carriers by their use of the ISPC code on the shared signaling network. The Commission informs the International Telecommunications Union (ITU) of its assignment of ISPCs to international carriers on an ongoing basis.

OMB Control No.: 3060–1029.

Title: Data Network Identification Code (DNIC).

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 5 respondents; 5 responses.

Estimated Time Per Response: .25 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 1 hour.

Annual Cost Burden: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: In general, there is no need for confidentiality.

Needs and Uses: This collection will be submitted as an extension (no change in reporting or recordkeeping requirements) after this 60-day comment period to Office of Management and Budget (OMB) in order to obtain the full three year clearance.

A Data Network Identification Code (DNIC) is a unique, four-digit number designed to provide discrete

identification of individual public data networks. The DNIC is intended to identify and permit automated switching of data traffic to particular networks. The FCC grants the DNICs to operators of public data networks on an international protocol. The operators of public data networks file an application for a DNIC on the Internet-based, International Bureau Filing System (IBFS). The DNIC is obtained free of charge on a one-time only basis unless there is a change in ownership or the owner chooses to relinquish the code to the FCC. The Commission's lack of an assignment of DNICs to operators of public data networks would result in technical problems that prevent the identification and automated switching of data traffic to particular networks.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority, Comments Requested

November 29, 2007.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to (PRA) of 1995 (PRA), Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Subject to the PRA, no person shall be subject to any penalty for failing to comply with a collection of information that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written PRA comments should be submitted on or before February 8,

2008. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit all PRA comments by e-mail or U.S. post mail. To submit your comments by e-mail, send them to PRA@fcc.gov. To submit your comments by U.S. mail, mark them to the attention of Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s), contact Cathy Williams at (202) 418-2918 or send an e-mail to PRA@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0185.

Type of Review: Extension of a currently approved collection.

Title: Section 73.3613, Filing of Contracts.

Form Number: Not applicable.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 2,300.

Estimated Hours per Response: 0.25 to 0.5 hours

Frequency of Response:

Recordkeeping requirement; On occasion reporting requirement; Third party disclosure requirement.

Total Annual Burden: 950 hours.

Total Annual Cost: \$80,000.

Privacy Impact Assessment: No impact(s).

Nature of Response: Required to obtain or retain benefits.

Confidentiality: No need for confidentiality required.

Needs and Uses: 47 CFR 73.3613 requires each licensee or permittee of a commercial or noncommercial AM, FM, TV or International broadcast station shall file with the FCC copies of the following items: Contracts, instruments, and documents together with amendments, supplements, and cancellations (with the substance of oral contracts reported in writing), within 30 days of execution thereof:

(a) *Network service:* Network affiliation contracts between stations and networks will be reduced to writing and filed as follows:

(1) All network affiliation contracts, agreements, or understandings between a TV broadcast or low power TV station and a national network. For the purposes of this paragraph the term network means any person, entity, or corporation which offers an interconnected program service on a

regular basis for 15 or more hours per week to at least 25 affiliated television licensees in 10 or more states; and/or any person, entity, or corporation controlling, controlled by, or under common control with such person, entity, or corporation.

(2) Each such filing on or after May 1, 1969, initially shall consist of a written instrument containing all of the terms and conditions of such contract, agreement or understanding without reference to any other paper or document by incorporation or otherwise. Subsequent filings may simply set forth renewal, amendment or change, as the case may be, of a particular contract previously filed in accordance herewith.

(3) The FCC shall also be notified of the cancellation or termination of network affiliations, contracts for which are required to be filed by this section.

(b) *Ownership or control:* Contracts, instruments or documents relating to the present or future ownership or control of the licensee or permittee or of the licensee's or permittee's stock, rights or interests therein, or relating to changes in such ownership or control shall include but are not limited to the following:

(1) Articles of partnership, association, and incorporation, and changes in such instruments;

(2) Bylaws, and any instruments effecting changes in such bylaws;

(3) Any agreement, document or instrument providing for the assignment of a license or permit, or affecting, directly or indirectly, the ownership or voting rights of the licensee's or permittee's stock (common or preferred, voting or nonvoting), such as:

(i) Agreements for transfer of stock;

(ii) Instruments for the issuance of new stock; or

(iii) Agreements for the acquisition of licensee's or permittee's stock by the issuing licensee or permittee corporation. Pledges, trust agreements, options to purchase stock and other executory agreements are required to be filed. However, trust agreements or abstracts thereof are not required to be filed, unless requested specifically by the FCC. Should the FCC request an abstract of the trust agreement in lieu of the trust agreement, the licensee or permittee will submit the following information concerning the trust:

(A) Name of trust;

(B) Duration of trust;

(C) Number of shares of stock owned;

(D) Name of beneficial owner of stock;

(E) Name of record owner of stock;

(F) Name of the party or parties who have the power to vote or control the vote of the shares; and

(G) Any conditions on the powers of voting the stock or any unusual characteristics of the trust.

(4) Proxies with respect to the licensee's or permittee's stock running for a period in excess of 1 year, and all proxies, whether or not running for a period of 1 year, given without full and detailed instructions binding the nominee to act in a specified manner. With respect to proxies given without full and detailed instructions, a statement showing the number of such proxies, by whom given and received, and the percentage of outstanding stock represented by each proxy shall be submitted by the licensee or permittee within 30 days after the stockholders' meeting in which the stock covered by such proxies has been voted. However, when the licensee or permittee is a corporation having more than 50 stockholders, such complete information need be filed only with respect to proxies given by stockholders who are officers or directors, or who have 1% or more of the corporation's voting stock. When the licensee or permittee is a corporation having more than 50 stockholders and the stockholders giving the proxies are not officers or directors or do not hold 1% or more of the corporation's stock, the only information required to be filed is the name of any person voting 1% or more of the stock by proxy, the number of shares voted by proxy by such person, and the total number of shares voted at the particular stockholders' meeting in which the shares were voted by proxy.

(5) Mortgage or loan agreements containing provisions restricting the licensee's or permittee's freedom of operation, such as those affecting voting rights, specifying or limiting the amount of dividends payable, the purchase of new equipment, or the maintenance of current assets.

(6) Any agreement reflecting a change in the officers, directors or stockholders of a corporation, other than the licensee or permittee, having an interest, direct or indirect, in the licensee or permittee as specified by § 73.3615.

(7) Agreements providing for the assignment of a license or permit or agreements for the transfer of stock filed in accordance with FCC application Forms 314, 315, 316 need not be resubmitted pursuant to the terms of this rule provision.

(c) *Personnel:* (1) Management consultant agreements with independent contractors; contracts relating to the utilization in a management capacity of any person other than an officer, director, or regular employee of the licensee or permittee;

station management contracts with any persons, whether or not officers, directors, or regular employees, which provide for both a percentage of profits and a sharing in losses; or any similar agreements.

(2) *The following contracts, agreements, or understandings need not be filed:* Agreements with persons regularly employed as general or station managers or salesmen; contracts with program managers or program personnel; contracts with attorneys, accountants or consulting radio engineers; contracts with performers; contracts with station representatives; contracts with labor unions; or any similar agreements.

(d)(1) *Time brokerage agreements (also known as local marketing agreements):* Time brokerage agreements involving radio stations where the licensee (including all parties under common ownership) is the brokering entity, the brokering and brokered stations are both in the same market as defined in the local radio multiple ownership rule contained in § 73.3555(a), and more than 15 percent of the time of the brokered station, on a weekly basis is brokered by that licensee; time brokerage agreements involving television stations where the licensee (including all parties under common control) is the brokering entity, the brokering and brokered stations are both licensed to the same market as defined in the local television multiple ownership rule contained in § 73.3555(b), and more than 15 percent of the time of the brokered station, on a weekly basis, is brokered by that licensee; time brokerage agreements involving radio or television stations that would be attributable to the licensee under § 73.3555 Note 2, paragraph (i). Confidential or proprietary information may be redacted where appropriate but such information shall be made available for inspection upon request by the FCC.

(2) *Joint sales agreements:* Joint sales agreements involving radio stations where the licensee (including all parties under common control) is the brokering entity, the brokering and brokered stations are both in the same market as defined in the local radio multiple ownership rule contained in § 73.3555(a), and more than 15 percent of the advertising time of the brokered station on a weekly basis is brokered by that licensee. Confidential or proprietary information may be redacted where appropriate but such information shall be made available for inspection upon request by the FCC.

(e) The following contracts, agreements or understandings need not

be filed but shall be kept at the station and made available for inspection upon request by the FCC; subchannel leasing agreements for Subsidiary Communications Authorization operation; franchise/leasing agreements for operation of telecommunications services on the television vertical blanking interval and in the visual signal; time sales contracts with the same sponsor for 4 or more hours per day, except where the length of the events (such as athletic contests, musical programs and special events) broadcast pursuant to the contract is not under control of the station; and contracts with chief operators.

In June 2003, the Commission adopted changes to 47 CFR 73.3613 and the FCC's attribution rules. As a result, radio stations located in Arbitron radio markets must now file agreements for the sale of advertising time (*i.e.*, "Joint Sales Agreements" or "JSAs") that result in attribution under the Commission's multiple ownership rules. 47 CFR 73.3613 requires licensees of television and radio broadcast stations to file with the Commission: (a) Contracts relating to ownership or control and personnel; and (b) time brokerage agreements that result in arrangements being counted under the Commission's multiple ownership rules. Television stations also must file network affiliation agreements. This section also requires certain contracts to be retained at the station and made available for inspection by the Commission upon request.

On June 24, 2004, the Court issued an *Opinion and Judgment* ("Remand Order") in which it upheld certain aspects of the new ownership rules, including the attribution of JSAs among radio stations, while requiring further explanation for certain other aspects of the new rules. The Court stated that its prior stay of the new rules would remain in effect pending the outcome of the remand proceeding. The Commission has not yet responded to the *Remand Order*, but in the meantime the Commission filed a petition for rehearing requesting that the Court lift the stay partially—*i.e.*, with respect to the radio ownership and JSA attribution rules which the Court's *Remand Order* upheld.

On September 3, 2004, the Court issued an Order ("Rehearing Order") which partially granted the Commission's petition for rehearing, thus lifting the stay of the revised radio ownership and JSA attribution rules. As a result of the *Rehearing Order*, the Commission's revised radio ownership and JSA attribution rules took effect on September 3, 2004. Implementation of

the new radio ownership and JSA attribution rules, as required by the *Rehearing Order*, triggers the requirement for certain licensees to begin filing JSAs.
