[Release No. 34-56906; File No. SR-NYSEArca-2007-103]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Order Granting Accelerated Approval of Proposed Rule Change, as Modified by Amendment No. 1 Thereto, To Amend the Initial Listing Standards for Other Securities

December 5, 2007.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on October 3, 2007, NYSE Arca, Inc. ("NYSE Arca" or "Exchange"), through its wholly owned subsidiary, NYSE Arca Equities, Inc. ("NYSE Arca Equities"), filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which items have been substantially prepared by the Exchange. On November 29, 2007, the Exchange filed Amendment No. 1 to the proposed rule change. This order provides notice of and approves the proposed rule change, as modified by Amendment No. 1 thereto, on an accelerated basis.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend NYSE Arca Equities Rule 5.2(j)(1), the Exchange's initial listing standards for "Other Securities." The text of the proposed rule change is available at the Exchange, the Commission's Public Reference Room, and <http://www.nyse.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for,

the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The Exchange has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend NYSE Arca Equities Rule 5.2(j)(1), the Exchange's initial listing standards for "Other Securities,"³ to provide for greater flexibility in the listing criteria for such securities, as set forth below. Under NYSE Arca Equities Rule 5.2(j)(1), the Exchange may approve for listing and trading securities which cannot be readily categorized under the listing criteria for common and preferred stocks, bonds, debentures, warrants, contingent value rights, and unit investment trusts.⁴ The Exchange, like certain other national securities exchanges, refers to such securities as "Other Securities." This proposed rule change is designed to generally conform to the rules of the American Stock Exchange LLC ("Amex") relating to "Other Securities."⁵

The introductory paragraph in NYSE Arca Equities Rule 5.2(j)(1) states that the Exchange will consider listing any security not otherwise covered by the requirements of NYSE Arca Equities Rules 5.2(c) through (h), provided the issue is suited for auction market trading.⁶ The Exchange proposes to delete the reference to the specific subsections ((c) through (h)) of NYSE Arca Equities Rule 5.2 to include all products with listing standards under

³ See Securities Exchange Act Release No. 34429 (July 22, 1994), 59 FR 38998 (August 1, 1994) (SR-PSE-93-12) (approving, among other things, the initial listing standards for "Other Securities").

⁴ NYSE Arca Equities Rule 5.2(j)(1) currently states that the Exchange will consider listing any security not otherwise covered by the requirements of NYSE Arca Equities Rules 5.2(c) through (h). See NYSE Arca Equities Rule 5.2(j)(1); see, e.g., NYSE Arca Equities Rules 5.2(c) (listing criteria for common stock); 5.2(d) (listing criteria for preferred stock and similar issues and secondary classes of common stock); 5.2(e) (listing criteria for bonds and debentures); 5.2(f) (listing criteria for warrants); 5.2(g) (listing criteria for contingent value rights); and 5.2(h) (listing criteria for unit investment trusts).

⁵ Amex's initial listing standards for "Other Securities" are set forth in Section 107A of the *Amex Company Guide*. See Securities Exchange Act Release No. 27753 (March 1, 1990), 55 FR 8626 (March 8, 1990) (SR-Amex-89-29) (approving the initial listing criteria for "Other Securities").

such rule. The Exchange proposes this change to avoid the administrative burden of updating NYSE Arca Equities Rule 5.2(j)(1) each time a new subsection is added to NYSE Arca Equities Rule 5.2. In addition, the Exchange proposes to delete the reference to “auction market” trading to provide that an issue of “Other Securities” must simply be suited for listing and trading on the Exchange. The Exchange believes that this change would allow greater flexibility in the listing of “Other Securities,” without impacting the protection of investors.

NYSE Arca Equities Rule 5.2(j)(1)(A) currently provides that an issue of “Other Securities” must have at least one million publicly held trading units and a principal amount/market value of at least \$20 million. The Exchange proposes to add exceptions to this standard such that, if the issue is traded in \$1,000 denominations or is redeemable at the option of the holders thereof on at least a weekly basis, then no minimum number of publicly held trading units will be required. This proposed change comports to Section 107A(b) of the *Amex Company Guide*.⁷ The Exchange notes that, without the exception to the one million publicly held trading unit requirement, the Exchange would be unable to list issues in \$1,000 dollar denominations having a market value of less than \$1 billion. The Exchange believes that the proposed exception is a reasonable accommodation for those issuances in \$1,000 denominations.

The Exchange also proposes to reduce the minimum principal amount/market value requirement from at least \$20 million to at least \$4 million. This change corresponds to current NYSE Arca Equities Rule 5.2(j)(2)(B)(i)(c) (Equity Linked Notes) and current NYSE Arca Equities Rule 8.3(a)(3) (Listing of Currency and Index Warrants), as well as Section 107A(c) of the *Amex Company Guide*.⁸ The Exchange

proposes this change in order conform NYSE Arca Equities Rule 5.2(j)(1) with other NYSE Arca Equities rules and similar rules of other exchanges for the same type of securities, while still protecting the interests of investors.

NYSE Arca Equities Rule 5.2(j)(1)(B) currently provides that an issue of “Other Securities” have at least 400 public beneficial holders, or if traded in \$1,000 denominations, a minimum of 100 public beneficial holders. The Exchange proposes to amend this standard to provide that: (a) If an issue is traded in \$1,000 denominations, then no minimum public holder number will be required;⁹ and (b) if the securities are redeemable at the option of the holders thereof on at least a weekly basis, then no minimum public holder number will be required.¹⁰ These proposed changes correspond to section 107A(b) of the *Amex Company Guide* and are similar to the minimum distribution requirements for Index-Linked Securities of the Exchange and other national securities exchanges.¹¹ Although the 100 minimum public beneficial holder requirement would be eliminated as a result of this proposal, the Exchange would continue to require that the issue of the security have a minimum market value of \$4 million. The Exchange believes that the overall rule should ensure that issuances in \$1,000 denominations are large enough to support a sufficiently liquid market.

The Exchange believes that a weekly redemption right will ensure a strong correlation between the market price of “Other Securities” and the performance of the underlying asset, such as a single security or basket of securities and/or securities index, as holders will be unlikely to sell their securities for less than their redemption value if they have a weekly right to redeem such securities for their full value. In addition, in the case of certain “Other Securities” with a weekly redemption feature, the issuer may have the ability to issue new “Other Securities” from time to time at market prices prevailing at the time of sale, at prices related to market prices, or at negotiated prices. This feature provides a ready supply of new “Other Securities,” thereby lessening the possibility that the market price of such securities will be affected by a scarcity

of available “Other Securities” for sale. The Exchange believes that it also assists in maintaining a strong correlation between the market price and the indicative value, as investors will be unlikely to pay more than the indicative value in the open market if they can acquire “Other Securities” from the issuer at that price.

The Exchange further believes that the ability to list “Other Securities” without a minimum number of publicly held trading units or public beneficial holders, subject to certain conditions, is important to the successful listing of such securities. Issuers issuing these types of “Other Securities” generally do not intend to do so by way of an underwritten offering. Rather, the distribution arrangement is analogous to that of an exchange-traded fund issuance, in that the issue is launched without any significant distribution event, and the float increases over time as investors purchase additional securities from the issuer at the then indicative value. The Exchange states that investors would generally seek to purchase such securities at a point when the underlying index is at a level that they perceive as providing an attractive growth opportunity. In the context of such a distribution arrangement, it would be difficult for an issuer to guarantee its ability to sell a specific number of units on the listing date. However, the Exchange believes that this difficulty in ensuring the sale of at least one million trading units to at least 400 public holders on the listing date is not indicative of a likely long-term lack of liquidity in such securities or, for the reasons set forth herein, of a difficulty in establishing a pricing equilibrium in the securities or a successful two-sided market.

In addition, the Exchange proposes to amend the language in NYSE Arca Equities Rule 5.2(j)(1)(C) to clarify that it is the issuer of “Other Securities” that is subject to the financial requirements set forth therein. Finally, the Exchange proposes to delete NYSE Arca Equities Rule 5.2(j)(1)(D), which provides that settlements must be made in U.S. dollars for those issues with cash settlement provisions, and NYSE Arca Equities Rule 5.2(j)(1)(E), which provides that the redemption price must be at least \$3.00 per unit for those issues that contain redemption provisions. The Exchange proposes to delete these provisions in order to bring the NYSE Arca Equities rules in line with those of other exchanges and, therefore, to

remain competitive in the marketplace.¹²

The Exchange believes that the proposed revisions would provide the Exchange with the flexibility necessary to evaluate the suitability of "Other Securities" for listing and trading. The Exchange states that such securities have special appeal for various investors, including institutions, in particular, and believes that securities admitted to listing under NYSE Arca Equities Rule 5.2(j)(1) benefit investors by providing important investment, hedging, and market timing opportunities, as well as benefiting those issuers that offer such securities as a means of raising capital at an advantageous cost.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6(b) of the Act,¹³ in general, and furthers the objectives of section 6(b)(5) of the Act,¹⁴ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Solicitation of Comments

You should submit only information that you wish to make available publicly. All submissions should refer to File number SR-NYSEArca-2007-103 and should be submitted on or before January 2, 2008.

IV. Commission's Findings and Order Granting Accelerated Approval of the Proposed Rule Change

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange¹⁵ and, in particular, the requirements of section 6

¹⁵ In approving this proposed rule change, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

of the Act.¹⁶ Specifically, the Commission finds that the proposed rule change is consistent with section 6(b)(5) of the Act,¹⁷ which requires, among other things, that the rules of a national securities exchange be designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Commission believes that the proposal is reasonable and should benefit issuers and investors by allowing for the listing and trading of certain "Other Securities" that would otherwise not be able to be listed and traded on the Exchange, particularly in light of the manner in which such rule, as proposed, comports with the rules of other national securities exchanges that govern the initial listing standards for such securities.¹⁸

The Commission finds good cause for approving the proposed rule change prior to the 30th day after the date of publication of the notice of filing thereof in the **Federal Register**. The Commission notes that it has approved similar proposals amend the initial distribution requirements of other national securities exchanges for "Other Securities."¹⁹ The Commission does not believe that this proposal raises any novel regulatory issues. Accelerating approval of this proposal should benefit investors by creating, without undue delay, additional competition in the market for "Other Securities." Therefore, the Commission finds good cause, consistent with section 19(b)(2) of the Act,²⁰ to approve the proposed rule change on an accelerated basis.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,²¹ that the proposed rule change (SR-NYSEArca-2007-103), as modified by Amendment No. 1 thereto, be, and it hereby is, approved on an accelerated basis.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-56908; File No. NYSEArca-2007-121]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing of Proposed Rule Change Relating to Rule 6.37B and the Quoting Obligations of Lead Market Makers

December 5, 2007.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 27, 2007, NYSE Arca, Inc. ("NYSE Arca" or "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, II, and III below, which Items have been substantially prepared substantially by NYSE Arca. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

NYSE Arca proposes to amend Exchange Rule 6.37B in order to update the quoting obligations of Lead Market Makers ("LMMs"). The text of the proposed rule change is available at NYSE Arca, the Commission's Public Reference Room, and <http://www.nysearca.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NYSE Arca included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NYSE Arca has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this rule change is to update the quoting obligations for LMMs, contained in NYSE Arca Rule 6.37B.

In 2003, the Exchange established a continuous quoting obligation for LMMs,³ in conjunction with the introduction of its electronic trading system then known as PCX Plus.⁴ This obligation called for an LMM to provide continuous two sided-quotations throughout the trading day in its appointed issues. The quoting obligation was subsequently amended in 2005⁵ so that an LMM needed only to supply continuous quotations for 99% of the time that the Exchange is open for trading in each issue.

Under the PCX Plus system, in addition to LMMs, there were three other categories of Market Makers: Remote Market Makers, Floor Market Makers, and Supplemental Market Makers. Of these three, only Remote Market Makers had a minimum continuous quoting obligation. Given that fact that not all Market Makers had minimum quoting requirements, coupled with the fact that the Exchange had a relatively small number of registered Remote Market Makers,⁶ the Exchange believed that a 99% continuous quoting obligation for LMMs would serve as a mechanism to help ensure that there would be adequate liquidity in any issue, throughout the trading day.

With the introduction of the Exchange's current electronic trading platform, the OX system, in 2006, the Exchange reclassified the Remote Market Maker, Supplemental Market Maker, and Floor Market Maker into one classification, simply called Market Maker. Under rules adopted by the Exchange in conjunction with the implementation of the OX system, all Market Makers now have minimum continuous quoting obligations.⁷ Due to

the fact that all Market Makers now have some minimum quoting obligations, coupled with an increase in the number of Market Makers providing quotations on a continuous basis,⁸ the Exchange no longer believes that it necessary for an LMM to be held to a 99% quoting obligation in order for there to be adequate liquidity in a given issue. Therefore, the Exchange is proposing to update Rule 6.37B(b) by reducing an LMMs continuous quoting obligation from 99% to 90%.

The Exchange also seeks to add certain exemptions to Rule 6.37B. Specifically, when determining whether a LMM has met its 90% quoting obligation, the Exchange would not consider the duration of any periods where a technical failure on the part of the Exchange prevents the LMM from providing continuous quotations. Also, the Exchange would retain the discretion to consider other exceptions to this continuous electronic quote obligation based on demonstrated legal or regulatory requirements or other mitigating circumstances. Finally, the Exchange proposes to amend the review period for this obligation, from a quarterly basis to a monthly basis. The shorter time period would allow the Exchange to better monitor an LMMs performance.

The Exchange does not believe that lowering the LMM quoting obligation would adversely affect the quality of the Exchange's markets or lead to a material decrease in liquidity. Rather, the Exchange believes its current market structure with its high rate of participation by LMMs and Market Makers permits the lowering of the quoting obligation without fear of losing liquidity.⁹

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹¹ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster

quotations throughout the trading day in its appointed issues for 60% of the time the Exchange is open for trading in each issue.

⁸ As of October 31, 2007, in addition to Lead Market Makers, there were fifty-five registered Market Makers subject to continuous quoting obligations.

⁹ Also, the Exchange notes that NYSE Arca Rule 6.37B(d), which states that in the interest of maintaining a fair and orderly market, a Market Maker may be called upon by a Trading Official to maintain continuous quotes in one or more series of an option issue, shall continue to apply.
