**40 CFR Part 62**

**[EPA-R09-OAR-2007-1150; FRL-8505-4]**

**Disapproval of Plan of Nevada: Clean Air Mercury Rule**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to disapprove the State Plan submitted by Nevada on November 15, 2006. The plan is intended to address the requirements of EPA's Clean Air Mercury Rule (CAMR), promulgated on May 18, 2005 and subsequently revised on June 9, 2006. EPA is proposing to determine that the submitted Nevada State Plan does not meet certain CAMR requirements and, therefore, must be disapproved.

CAMR requires States to regulate emissions of mercury (Hg) from large coal-fired electric generating units (EGUs). CAMR establishes State budgets for annual EGU Hg emissions and requires States to submit State Plans that ensure that annual in-state EGU Hg emissions will not exceed the applicable State budget. States have the flexibility to choose which control measures to adopt to achieve the budgets, including participating in the EPA-administered CAMR cap-and-trade program. In the State Plan that EPA is proposing to disapprove, Nevada has chosen to meet CAMR requirements by participating in the EPA-administered CAMR cap-and-trade program addressing Hg emissions. However, Nevada's plan does not meet the mandatory timing requirements for allowance allocations, and differs substantively from certain required provisions of EPA's model rule (including the provision requiring unrestricted allowance transfer and trading).

**DATES:** Comments must be received on or before January 28, 2008.
