

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 3546. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests may also be electronically mailed to ICDocketMgr@ed.gov or faxed to 202-245-6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to ICDocketMgr@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[Certification Notice-215]

Office Electricity Delivery and Energy Reliability; Notice of Filings of Self-Certifications of Coal Capability Under the Powerplant and Industrial Fuel Use Act

AGENCY: Office Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Filings.

SUMMARY: On October 23, 2007, The WCM Group, Inc., on behalf of three owners and operators of new base load electric powerplants, submitted coal capability self-certifications to the Department of Energy (DOE) pursuant to section 201(d) of the Powerplant and Industrial Fuel Use Act of 1978 (FUA), as amended, and DOE regulations in 10 CFR 501.60, 61. Section 201(d) of FUA requires DOE to publish a notice of receipt of self-certifications in the **Federal Register**.

ADDRESSES: Copies of coal capability self-certification filings are available for public inspection, upon request, in the Office of Electricity Delivery and Energy Reliability, Mail Code OE-20, Room 8G-024, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Ellen Russell at (202) 586-9624.

SUPPLEMENTARY INFORMATION: Title II of FUA, as amended (42 U.S.C. 8301 *et*

seq.), provides that no new base load electric powerplants may be constructed or operated without the capability to use coal or another alternate fuel as a primary energy source. Pursuant to FUA section 201(d), in order to meet the requirement of coal capability, the owner or operator of such facilities proposing to use natural gas or petroleum as its primary energy source shall certify to the Secretary of Energy (Secretary) prior to construction, or prior to operation as a base load electric powerplant, that such powerplant has the capability to use coal or another alternate fuel. Such certification establishes compliance with FUA section 201(a) as of the date it is filed with the Secretary. The Secretary is required to publish a notice in the **Federal Register** reciting that the certification has been filed.

The following owners of proposed new base load electric powerplants have filed self-certifications of coal-capability with DOE pursuant to FUA section 201(d) and in accordance with DOE regulations in 10 CFR 501.60, 61:

Owner: Nueces Bay WLE, LP

Capacity: 700 MW

Plant Location: Corpus Christi, Nueces County, Texas

In-Service Date: June, 2009

Owner: Laredo WLE, LP

Capacity: 200 MW

Plant Location: Laredo, Webb County, Texas

In-Service Date: June, 2008

Owner: Barney M. Davis, LP

Capacity: 700 MW

Plant Location: Corpus Christi, Nueces County, Texas

In-Service Date: June, 2009

Issued in Washington, DC, on December 3, 2007.

Anthony J. Como,

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC08-725C-000]

Proposed Information Collection and Request for Comments

December 7, 2007.

AGENCY: Federal Energy Regulatory Commission, Department of Energy.

ACTION: Request for Office of Management and Budget Emergency Processing of proposed information collection and request for comments.

SUMMARY: The Federal Energy Regulatory Commission (Commission) is providing notice of its request to the Office of Management and Budget (OMB) for emergency processing of a proposed collection of information in connection with steps being taken by the electric industry to address potential cyber vulnerabilities, and is soliciting public comment on that information collection.

DATES: The Commission and OMB must receive comments on or before January 14, 2008.

ADDRESSES: Send comments to:

(1) Nathan Frey, FERC Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget. Mr. Frey may be reached by telephone at (202) 395-7345.

(2) Michael Miller, Office of the Executive Director, ED-30, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. Mr. Miller may be reached by telephone at (202) 502-8415 and by e-mail at michael.miller@ferc.gov.

FOR FURTHER INFORMATION CONTACT:

Jonathan First, Office of the General Counsel, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. Mr. First may be reached by telephone at (202) 502-8529 and by e-mail at jonathan.first@ferc.gov.

SUPPLEMENTARY INFORMATION: A recent experiment conducted for the Department of Homeland Security by the Idaho National Laboratory demonstrated that under certain conditions energy infrastructure could be intentionally damaged through cyber attack. In that experiment, researchers caused a generator to malfunction through an experimental cyber attack. This potential cyber vulnerability, which was recently broadcast on CNN, was the subject of an October 17, 2007 hearing before the Homeland Security Subcommittee on Emerging Threats, Cybersecurity, and Science and Technology, U.S. House of Representatives.

The Commission intends to immediately issue a directive that requires all generator owners, generator operators, transmission owners, and transmission operators that are registered by the North American Electric Reliability Corporation (NERC) and located in the United States to provide to NERC certain information related to actions they have taken or intend to take to protect against the potential cyber vulnerability discussed above. The Commission will also require NERC to make this information available for Commission review.

Section 215 of the Federal Power Act, 16 U.S.C. 824o, vests the Commission with authority over the Electric Reliability Organization (ERO) and over the users, owners and operators of the Bulk-Power System for purposes of approving and enforcing mandatory Reliability Standards. Under section 215, the term "Reliability Standard" includes requirements for the cyber security protection of the Bulk-Power System. Moreover, the Commission is charged not merely with approving (or remanding) Reliability Standards filed by the ERO, but also with ordering the ERO to submit a proposed standard or a modification to an existing standard that "addresses a specific matter if the Commission considers such a new or modified reliability standard appropriate to carry out this section."

A number of efforts are underway to secure the Nation's electric infrastructure against potential cyber vulnerabilities. One such effort is an advisory issued by NERC, acting through the Electric Sector-Information Sharing and Analysis Center (ES-ISAC), to generator owners, generator operators, transmission owners, and transmission operators. This advisory identified a number of short-term measures, mid-term measures and long-term measures designed to mitigate the potential cyber vulnerability discussed above.

It has been represented that a number of entities are already either secured against the potential cyber vulnerability referred to above or have taken steps to mitigate this vulnerability, and NERC has since sent a data request to industry members. That data request is limited in scope. It is essentially a request that industry members indicate if their mitigation plans are "complete," "in progress," or "not performing." This information is not sufficient for the Commission to discharge its duties under section 215 of the Federal Power Act because it does not provide information on what facilities are the subject of the mitigation plans, what steps to mitigate the potential cyber vulnerability are being taken, when those steps are planned to be taken, and, if certain actions are not being taken, why not.

In sum, given the seriousness of this potential vulnerability and given that the NERC data request does not provide information that the Commission needs to discharge its statutory responsibilities, the Commission believes further action is necessary in order to ensure that the owners and operators of the Bulk-Power System have taken or are taking appropriate steps to protect the Bulk-Power System.

Section 307 of the Federal Power Act, 16 U.S.C. 825f, authorizes the Commission to "investigate any facts, conditions, practices, or matters which it may find necessary or proper * * * to aid in * * * prescribing rules or regulations [under the Federal Power Act], or in obtaining information to serve as a basis for recommending further legislation." Section 39.2(d) of the Commission's regulations, 18 CFR 39.2(d), requires owners and operators to "provide the Commission * * * such information as is necessary to implement section 215 of the Federal Power Act as determined by the Commission."

The Commission believes that the information that will be requested is critical to ensuring that appropriate mitigation of this potential cyber vulnerability is put in place and that it is put in place as quickly as possible. The Commission believes that an accurate overview of the actions taken and expected to be taken in the industry is a necessary first step to determine whether any further measures need to be taken by the Commission to ensure the safety and reliability of the Bulk-Power System. The Commission is very sensitive to the need to preserve confidentiality of the information requested and the need to minimize the burden on industry. Accordingly, the information will be examined on-site at NERC headquarters, and disclosure by NERC will be on a need-to-know basis to NERC personnel and the Commission and its staff.

Respondents will provide the information listed below to NERC, which will secure the information and treat the responses as nonpublic information available, as noted above, on a need-to-know basis to NERC personnel and to the Commission and its staff. Following Commission review, the information will be returned to the submitters.

Each respondent will be required to provide the following information to NERC:

1. A copy of the owner or operator's plan for responding to the cyber vulnerability outlined in the ES-ISAC advisory, along with a general description of the facility for each plan,
2. A description of the measures—short-term, mid-term, and long-term—taken or planned to be taken (and the timeframe for implementing such measures) as recommended by the ES-ISAC advisory to mitigate the risks associated with this cyber vulnerability including projected completion dates if they fall outside the ES-ISAC advisory deadlines,

3. An explanation of how the plan and measures described above secure the owners or operators' facilities against this cyber vulnerability, and

4. If an owner or operator believes no actions are necessary regarding a measure, an explanation why it believes that to be so, along with a general description of the facility that the respondent proposes to exempt from actions under the advisory.

The Commission estimates that it would take each respondent no more than 12 hours to generate the requested information. The Commission estimates that the number of respondents will be approximately 1,150. Therefore, the total number of hours it would take to comply with the reporting requirement would be 13,800. The Commission estimates a total cost of \$1,214,400 to respondents @ \$88 per hour, based on salaries for professional and clerical staff, as well as direct and indirect overhead costs.

The Commission has submitted this reporting requirement to OMB for approval. OMB's regulations describe the process that federal agencies must follow in order to obtain OMB approval of reporting requirement. See 5 CFR part 1320. The standards for emergency processing of information collections appear at 5 CFR 1320.13. If OMB approves a reporting requirement, then it will assign an information collection control number to that requirement. If a request for information subject to OMB review has not been given a valid control number, then the recipient is not required to respond.

OMB requires federal agencies seeking approval of reporting requirements to allow the public an opportunity to comment on the proposed reporting requirement. 5 CFR 1320.5(a)(1)(iv). Therefore, the Commission is soliciting comment on:

- (1) Whether the collection of the information is necessary for the proper performance of the Commission's functions, including whether the information will have practical utility;

- (2) The accuracy of the Commission's estimate of the burden of the collection of this information, including the validity of the methodology and assumptions used;

- (3) The quality, utility, and clarity of the information to be collected; and

- (4) How to minimize the burden of the collection of this information on respondents, including the use of appropriate automated electronic,

mechanical, or other forms of information technology.

Kimberly D. Bose,

Secretary.

[Docket No. QF08-110-000]

Tiqun Energy, Inc.; Notice of Filing of Notice of Self-Certification of Qualifying Status of a Cogeneration Facility

December 7, 2007.

Take notice that on December 6, 2007, Tiqun Energy, Inc. filed with the Federal Energy Regulatory Commission a notice of self-certification of a facility as a qualifying cogeneration facility pursuant to 18 CFR 292.207(a) of the Commission's regulations.

The facility is a cogeneration facility with the primary energy source being natural gas. The production equipment will consist of two GE LM 6000 PF Sprint gas turbine generators each with a duct-fired heat recovery steam generator driving a steam turbine generator for a total net output capacity of 140 MWe. The facility will be located in Anchorage, Alaska.

Chugach Electric Association, Inc. and Anchorage Municipal Light & Power are the electric utilities with which the facility expects to interconnect, transmit or sell electric energy to, or purchase supplementary, standby, back-up and maintenance power.

A notice of self-certification does not institute a proceeding regarding qualifying facility status; a notice of self-certification provides notice that the entity making the filing has determined the facility meets the applicable criteria to be a qualifying facility. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii).

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call

(866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings #1

December 7, 2007.

Take notice that the Commission received the following electric corporate filings:

Docket Numbers: EC08-19-000.

Applicants: Quachita Power, LLC, Entergy Arkansas, Inc.

Description: Quachita Power, LLC & Entergy Arkansas, Inc's application for order authorizing acquisition & disposition of jurisdictional assets under Section 203 of the FPA.

Filed Date: 11/30/2007.

Accession Number: 20071205-0128.

Comment Date: 5 p.m. Eastern Time on Friday, December 21, 2007.

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER96-25-031;

ER01-1363-009.

Applicants: Coral Power LLC; Coral Energy Management, LLC.

Description: Coral Power, LLC and Coral Energy Management, LLC submit a notice of non-material change in status and compliance filing.

Filed Date: 12/03/2007.

Accession Number: 20071205-0123.

Comment Date: 5 p.m. Eastern Time on Monday, December 24, 2007.

Docket Numbers: ER97-420-017.

Applicants: ProLiance Energy, LLC.

Description: ProLiance Energy LLC submits revised tariff sheet to replace the 11/5/07 filing along with a redlined copy of its tariff.

Filed Date: 11/29/2007.

Accession Number: 20071203-0009.

Comment Date: 5 p.m. Eastern Time on Friday, December 14, 2007.

Docket Numbers: ER99-2984-009.

Applicants: Green Country Energy, LLC.

Description: Green County Energy, LLC submits a supplement to its 11/9/07 filing of a notice of a non-material change in status.

Filed Date: 11/30/2007.

Accession Number: 20071204-0069.

Comment Date: 5 p.m. Eastern Time on Friday, December 14, 2007.

Docket Numbers: ER01-48-010.

Applicants: Powerex Corp.

Description: Powerex Corp submits a notice of non-material change in status.

Filed Date: 12/03/2007.

Accession Number: 20071205-0117.

Comment Date: 5 p.m. Eastern Time on Monday, December 24, 2007.

Docket Numbers: ER03-774-005.

Applicants: Eagle Energy Partners I, LP.

Description: Eagle Energy Partners I, LP amends its 10/24/07 filing of a Notice of Change in Status by including Appendix B and submits Substitute First Revised Sheet 1 *et al* to reflect a 9/18/07 effective date etc.

Filed Date: 12/03/2007.

Accession Number: 20071204-0155.

Comment Date: 5 p.m. Eastern Time on Monday, December 24, 2007.

Docket Numbers: ER05-1420-004.

Applicants: Lehman Brothers Commodity Services Inc.

Description: Lehman Brothers Commodity Services Inc submits a revised tariff sheets (Attachment II) to reflect a 9/18/07 effective date for its market based rate tariff.

Filed Date: 12/03/2007.

Accession Number: 20071204-0154.

Comment Date: 5 p.m. Eastern Time on Monday, December 24, 2007.

Docket Numbers: ER05-1232-006; ER05-283-007.

Applicants: JPMorgan Ventures Energy Corporation; JPMorgan Chase Bank, N.A.

Description: Errata to Notice on Non-Material Change in Status Regarding Market-Based Rate Authority of JPMorgan Chase Bank, N.A.

Filed Date: 12/04/2007.

Accession Number: 20071203-5088.

Comment Date: 5 p.m. Eastern Time on Wednesday, December 26, 2007.

Docket Numbers: ER06-1346-002.

Applicants: White Creek Wind I, LLC.

Description: White Creek Wind LLC submits its revised Third Revised Sheet 1 of its FERC Electric Tariff, Original Volume 1.

Filed Date: 12/04/2007.

Accession Number: 20071206-0228.

Comment Date: 5 p.m. Eastern Time on Wednesday, December 26, 2007.

Docket Numbers: ER07-527-002.

Applicants: Longview Fibre Paper and Packaging, Inc.

Description: Longview Fibre Paper and Packaging, Inc submits notice of a non-material change in status related to a change in its upstream ownership.

Filed Date: 11/30/2007.

Accession Number: 20071204-0060.

Comment Date: 5 p.m. Eastern Time on Friday, December 21, 2007.

Docket Numbers: ER07-1094-003.
