BILLING CODE 4510-43-P

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES
Notice of Proposed Information Collection: IMLS Digital Collections and Content

AGENCY: Institute of Museum and Library Services, National Foundation for the Arts and the Humanities.

ACTION: Notice.

SUMMARY: The Institute of Museum and Library Services (IMLS) as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3508(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently the Institute of Museum and Library Services is soliciting comments concerning the proposed study to assess the impact of access to computers and the Internet and to related services at public libraries on individuals, families, and communities.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before February 26, 2008. IMLS is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submissions of responses.

ADDRESSES: Send comments to: Barbara G. Smith, E-Projects Officer, Institute of Museum and Library Services, 1800 M Street, NW., 9th floor, Washington, DC 20036, by telephone: 202-653-4688; fax: 202-653-4625; or by e-mail at bsmith@imls.gov.

SUPPLEMENTARY INFORMATION:
I. Background

The Institute of Museum and Library Services is authorized by the Museum and Library Services Act, Public Law 108-81, and is the primary source of federal support for the nation's 122,000 libraries and 17,500 museums. The Institute's mission is to create strong libraries and museums that connect people to information and ideas. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development.

II. Current Actions

The purpose of the collections is to continue the development of the Institute of Museum and Library Services' Digital Collections and Content (DCC) project, which, in its first phase, created a publicly available registry of IMLS National Leadership Grant (NLG) and Library Services and Technology Act (LSTA) digital collections and a repository of item-level metadata available from these collections. The DCC, which is available to the public via the Internet, provides important information about and access to the digital collections funded through IMLS grant programs.

BILLING CODE 7036-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 52-012 and 52-013]

South Texas Project Nuclear Operating Company; Notice of Hearing and Opportunity To Petition for Leave To Intervene on a Combined License for the South Texas Project Units 3 and 4

Pursuant to the Atomic Energy Act of 1954, as amended, and the regulations in Title 10 of the Code of Federal Regulations (10 CFR) Part 2, "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," 10 CFR part 50, "Domestic Licensing of Production and Utilization Facilities," and 10 CFR part 52, "Early Site Permits; Standard Design Certifications; and Combined Licenses for Nuclear Power Plants," notice is hereby given that a hearing will be held, at a time and place to be set in the future by the U.S. Nuclear Regulatory Commission (NRC, the Commission) or designated by the Atomic Safety and Licensing Board (Board). The hearing will consider the application dated September 20, 2007, filed by South Texas Project Nuclear Operating Company, pursuant to Subpart C of 10 CFR part 52 for a combined license (COL). The application, which was supplemented by letters dated September 26, 2007, October 15, 2007, October 18, 2007, November 8, 2007, November 12, 2007, November 13, 2007, and November 21, 2007, requests approval of a COL for South Texas Project Units 3 and 4 located in Matagorda County, Texas. The application was accepted for docketing on November 29, 2007. The

docket numbers established for this application are 52–012 and 52–013.

The hearing will be conducted by a Board that will be designated by the Chairman of the Atomic Safety and Licensing Board Panel or by the Commission. Notice as to the membership of the Board will be published in the **Federal Register** at a later date. The NRC staff will complete a detailed technical review of the application and will document its findings in a safety evaluation report (SER). The Commission will refer a copy of the application to the Advisory Committee on Reactor Safeguards (ACRS) in accordance with 10 CFR 52.87, "Referral to the Advisory Committee on Reactor Safeguards (ACRS)," and the ACRS will report on those portions of the application that concern safety.

Any person whose interest may be affected by this proceeding and desire to participate as a party to this proceeding, must file a written petition for leave to intervene in accordance with 10 CFR 2.309.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing. A request for hearing or a petition for leave to intervene must be filed in accordance with the NRC E-Filing rule, which was promulgated by the NRC on August 28, 2007 (72 FR 49139). The E-Filing process requires participants to submit and serve documents over the internet or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek a waiver in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least five (5) days prior to the filing deadline, the petitioner/requestor must contact the Office of the Secretary by e-mail at HEARINGDOCKET@NRC.GOV, or by calling (301) 415–1677, to request (1) a digital ID certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and/or (2) creation of an electronic docket for the proceeding even in instances in which the petitioner/requestor (or its counsel or representative) already holds a NRC-issued digital ID certificate. Each petitioner/requestor will need to download the Workplace Forms Viewer™ to access the Electronic Information Exchange (EIE), a component of the E-Filing system. The

Workplace Forms Viewer™ is free and is available at <http://www.nrc.gov/site-help/e-submittals/install-viewer.html>. Information about applying for a digital ID certificate is available on NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>.

Once a petitioner/requestor has obtained a digital ID certificate, had a docket created, and downloaded the EIE viewer, it can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the filer submits its documents through EIE. To be timely, an electronic filing must be submitted to the EIE system no later than 11:59 p.m. Eastern Standard Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an e-mail notice confirming receipt of the document. The EIE system also distributes an e-mail notice that provides access to the document to the NRC Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically may seek assistance through the "Contact Us" link located on the NRC Web site at <http://www.nrc.gov/site-help/e-submittals.html> or by calling the NRC technical help line, which is available between 8:30 a.m. and 4:15 p.m., Eastern Standard Time, Monday through Friday. The help line number is (800) 397–4209 or locally, (301) 415–4737.

Participants who believe that they have a good cause for not submitting documents electronically must file a motion, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, *Attention: Rulemaking and Adjudications Staff*; or (2) courier, express mail, or expedited

delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, *Attention: Rulemaking and Adjudications Staff*. Participants filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service.

Non-timely requests and/or petitions and contentions will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board that the petition and/or request should be granted and/or the contentions should be admitted based on a balancing of the factors specified in 10 CFR 2.309(c)(1)(i)–(viii). To be timely, filing must be submitted no later than 11:59 p.m. Eastern Standard Time on the due date.

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket, which is available to the public at http://ehd.nrc.gov/EHD_Proceeding/home.asp, unless excluded pursuant to an order of the Commission, an Atomic Safety and Licensing Board, or a Presiding Officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in the filing. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filing and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

Petitions for leave to intervene must be filed no later than 60 days from the date of publication of this notice in the **Federal Register**. Non-timely filings will not be entertained absent a determination by the Commission, or Board designated to rule on the petition, pursuant to the requirements of 10 CFR 2.309(c)(1)(i)–(viii).

A person who is not a party may be permitted to make a limited appearance by making an oral or written statement of his position on the issues at any session of the hearing or any pre-hearing conference within the limits and conditions fixed by the presiding officer, but may not otherwise participate in the proceeding.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor),

Rockville, Maryland, and will be accessible electronically through the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room link at the NRC Web site <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail to pdr@nrc.gov. The application is also available at <http://www.nrc.gov/reactors/new-licensing/col.html>. The ADAMS accession number for the application is ML072830407. The ADAMS accession numbers for the supplements to the application are ML072740461, ML072960352, ML072960489, ML073190645, ML073340618, ML073200992, and ML073310616. NUCLEAR REGULATORY COMMISSION

[Docket No. 50-409]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for an Exemption From Certain Inventory-Related Requirements of 10 CFR 74.19(b) and 10 CFR 74.19(c) for Dairyland Power Cooperative (DPR-45) in Genoa, WI

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT:

Kristina L. Banovac, Project Manager, Decommissioning and Uranium Recovery Licensing Directorate, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-5114; fax number: (301) 415-5369; e-mail: klb@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is issuing an exemption to certain inventory-related requirements of 10 CFR 74.19(b) and 10 CFR 74.19(c) for Possession Only License No. DPR-45, issued to Dairyland Power Cooperative (DPC) (the licensee) for the La Crosse Boiling Water Reactor in Genoa, Wisconsin. NRC has prepared an Environmental Assessment (EA) in support of this amendment in accordance with the requirements of 10 CFR Part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact is appropriate. The exemption will be issued following the publication of this Notice.

II. EA Summary

The proposed action is to grant an exemption to DPC from certain inventory-related requirements of 10 CFR 74.19(b) and 10 CFR 74.19(c), until the time the spent fuel is moved from the spent fuel pool to dry cask storage.

The staff has prepared the EA in support of the proposed exemption. The proposed action is an administrative action and will not result in any significant environmental impacts. The proposed action will not result in the release of any chemical or radiological constituents to the environment and will not affect any environmental resources. The proposed action will not cause any adverse impacts to local land use, biotic resources, or cultural or historic resources.

III. Finding of No Significant Impact

Pursuant to 10 CFR Part 51, the NRC staff has considered the environmental consequences of granting DPC an exemption from certain inventory-related requirements of 10 CFR 74.19(b) and 10 CFR 74.19(c). On the basis of this assessment, the Commission has concluded that there are no significant environmental impacts from the proposed action, and the Commission is making a finding of no significant impact. Accordingly, preparation of an environmental impact statement is not warranted.

IV. Further Information

Documents related to this action are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents.
