

constructed access and patrol road to support the fence section would be 5.2 miles in length. The first proposed section would be adjacent to and on the Otay Mountain Wilderness (OMW), and would follow the U.S./Mexico international border where topography allows, deviating from the border to follow a newly constructed access road where conditions warrant, such as descent to canyon bottoms. The OMW is on public lands administered by the Bureau of Land Management (BLM). The second proposed section would be approximately 0.8 miles in length and would connect with existing border fence west of Tecate, California. This fence section would be constructed along the border at the southern base of Tecate Peak. This proposed fence section would encroach on a mix of privately owned land parcels and public land administered by the BLM.

Under the No Action Alternative, a proposed tactical infrastructure would not be built and there would be no change in fencing, access roads, or other facilities along the U.S./Mexico international border in the proposed project locations.
