## INTERNATIONAL BOUNDARY AND WATER COMMISSION; UNITED STATES AND MEXICO

**Notice of Availability of Final Programmatic Environmental Impact Statement, Improvements to the USIBWC Rio Grande Flood Control Projects along the Texas-Mexico Border**

**AGENCY:** United States Section, International Boundary and Water Commission (USIBWC).

**ACTION:** Notice of Availability of Final Programmatic Environmental Impact Statement.

**SUMMARY:** Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, as amended, the United States Section, International Boundary and Water Commission (USIBWC) has prepared a Programmatic Environmental Impact Statement (PEIS) for future improvements to three Rio Grande Flood Control Projects (FCP) operated by the USIBWC along the Texas-Mexico Border: The Rectification FCP, the Presidio FCP and Lower Rio Grande FCP. The PEIS, prepared in cooperation with the United States Bureau of Reclamation, United States Fish and Wildlife Service and United States Army Corps of Engineers, analyzes potential impacts of the No Action Alternative and three action alternatives for future FCP improvements under consideration.

Because several measures under consideration are at a conceptual level of development, the USIBWC has taken a broad programmatic look at the potential environmental implications of measures identified for future implementation. The USIBWC will apply the programmatic evaluation as an overall guidance for future environmental evaluations of individual improvement projects whose implementation is anticipated or possible within a 20-year timeframe. Once any given improvement project is identified for future implementation, site-specific environmental documentation will be developed based on project specifications and PEIS findings.

**DATES:** The Final PEIS will be available to agencies, organizations and the general public on January 8, 2008. A copy of the Final PEIS will also be posted in the USIBWC Web site at <http://www.ibwc.state.gov>.
