

(3) Mercer County Portion of the
Youngstown-Warren-Sharon, OH-PA

Ozone Nonattainment Area
(Youngstown Area)

In rule document E7-20567, on page
59214, the table is corrected as follows:

ADEQUATE AND APPROVED MOTOR VEHICLE EMISSIONS BUDGETS IN TONS PER DAY (TPD)

Budget Year	NO _x	VOC
2009	4.5	11.6
2018	3.0	5.3

Section 553 of the Administrative Procedure Act, 5 U.S.C. 553(b)(3)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. We have determined that there is good cause for making today's rule final without prior proposal and opportunity for comment because this rule is not substantive and imposes no regulatory requirements, but merely corrects a citation in a previous action. Thus, notice and public procedure are unnecessary. We find that this constitutes good cause under 5 U.S.C. 553(b)(3)(B).

Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and is therefore not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355 (May 22, 2001)). Because the agency has made a "good cause" finding that this action is not subject to notice-and-comment requirements under the Administrative Procedures Act or any other statute as indicated in the Supplementary Information section above, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), or to sections 202 and 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104-4). In addition, this action does not significantly or uniquely affect small governments or impose a significant intergovernmental mandate, as described in sections 203 and 204 of UMRA. This rule also does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor

will it have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of governments, as specified by Executive Order 13132 (64 FR 43255, August 10, 1999). This rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it approves a state rule implementing a Federal standard.

This technical correction action does not involve technical standards; thus the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. The rule also does not involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). In issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct, as required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996). EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1998) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This rule does not impose an information collection burden under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act (5 U.S.C. 801 *et seq.*), as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be

supported by a brief statement. 5 U.S.C. 808(2). As stated previously, EPA had made such a good cause finding, including the reasons therefore, and established an effective date of January 14, 2008. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. These corrections to the tables on the MVEBs for Reading, Erie, and Youngstown, Pennsylvania are not "major rules" as defined by 5 U.S.C. 804(2).

Dated: December 27, 2007.

William T. Wisniewski,

Acting Regional Administrator, Region III.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52 and 81

[EPA-R03-OAR-2007-0625; FRL-8515-2]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Redesignation of the York (York and Adams Counties) 8-Hour Ozone Nonattainment Area to Attainment and Approval of the Area's Maintenance Plan and 2002 Base Year Inventory

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania. The Pennsylvania Department of Environmental Protection (PADEP) is requesting that the York (York and Adams Counties) ozone nonattainment area (York Area) be redesignated as attainment for the 8-hour ozone ambient air quality standard (NAAQS). EPA is approving the ozone redesignation request for York Area. In conjunction with its redesignation request, PADEP submitted a SIP revision consisting of a maintenance plan for York Area, which EPA is

approving, that provides for continued attainment of the 8-hour ozone NAAQS for at least 10 years after redesignation. EPA is also approving the motor vehicle emission budgets (MVEBs) and the adequacy determination for those MVEBs that are identified in the York Area maintenance plan for purposes of transportation conformity. In addition, EPA is approving the 2002 base year inventory for the York Area that PADEP submitted. EPA is approving the redesignation request, the maintenance plan, and the 2002 base year emissions inventory as revisions to the Pennsylvania SIP in accordance with the requirements of the Clean Air Act (CAA).

DATES: *Effective Date:* This final rule is effective on February 13, 2008.

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2007-0625. All documents in the docket are listed in the www.regulations.gov Web site. Although listed in the electronic docket, some information is not publicly available, i.e., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the Pennsylvania Department of Environment Protection, Bureau of Air Quality Control, P.O. Box 8468, 400 Market Street, Harrisburg, Pennsylvania 17105.

SUPPLEMENTARY INFORMATION:

I. Background

On October 24, 2007 (72 FR 60296), EPA published a notice of proposed rulemaking (NPR) for the Commonwealth of Pennsylvania. The NPR proposed approval of Pennsylvania's redesignation request and maintenance plan SIP revisions for the York Area that provide for continued attainment of the 8-hour ozone NAAQS for at least 10 years after redesignation. The NPR also proposed approval of a 2002 base year emissions

inventory for the York Area. The formal SIP revisions were submitted by PADEP on June 14, 2007. Other specific requirements of Pennsylvania's redesignation request and maintenance plan SIP revisions, and the rationales for EPA's proposed actions, are explained in the NPR and will not be restated here. No public comments were received on the NPR.

However, on December 22, 2006, the U.S. Court of Appeals for the District of Columbia Circuit vacated EPA's Phase 1 Implementation Rule for the 8-hour Ozone Standard. (69 FR 23591, April 30, 2004). *South Coast Air Quality Management Dist. v. EPA*, 472 F.3d 882 (D.C.Cir. 2006). On June 8, 2007, in *South Coast Air Quality Management Dist. v. EPA*, Docket No. 04-1201, in response to several petitions for rehearing, the DC Circuit clarified that the Phase 1 Rule was vacated only with regard to those parts of the rule that had been successfully challenged. Therefore, the Phase 1 Rule provisions related to classifications for areas currently classified under subpart 2 of Title I, part D of the CAA as 8-hour nonattainment areas, the 8-hour attainment dates and the timing for emissions reductions needed for attainment of the 8-hour ozone NAAQS remain effective. The June 8 decision left intact the Court's rejection of EPA's reasons for implementing the 8-hour standard in certain nonattainment areas under subpart 1 in lieu of subpart 2. By limiting the vacatur, the Court let stand EPA's revocation of the 1-hour standard and those anti-backsliding provisions of the Phase 1 Rule that had not been successfully challenged. The June 8 decision reaffirmed the December 22, 2006 decision that EPA had improperly failed to retain measures required for 1-hour nonattainment areas under the anti-backsliding provisions of the regulations: (1) Nonattainment area New Source Review (NSR) requirements based on an area's 1-hour nonattainment classification; (2) Section 185 penalty fees for the 1-hour severe or extreme nonattainment areas; and (3) measures to be implemented pursuant to section 172(c)(9) or 182(c)(9) of the CAA, on the contingency of an area not making reasonable further progress toward attainment of the 1-hour NAAQS, or for failure to attain NAAQS. In addition, the June 8 decision clarified that the Court's reference to conformity requirements for anti-backsliding purposes was limited to requiring the continued use of the 1-hour motor vehicle emissions budgets until 8-hour

budgets were available for 8-hour conformity determinations, which is already required under EPA's conformity regulations. The Court thus clarified the 1-hour conformity determinations are not required for anti-backsliding purposes.

For the reasons set forth in the proposal, EPA does not believe that the Court's rulings alter any requirements relevant to this redesignation action so as to preclude redesignation, and do not prevent EPA from finalizing this redesignation. EPA believes that the Court's December 22, 2006 and June 8, 2007 decisions impose no impediment to moving forward with redesignation of this area to attainment, because even in the light of the Court's decisions, redesignation is appropriate under the relevant redesignation provisions of the CAA and longstanding policies regarding redesignation requests.

II. Final Action

EPA is approving the Commonwealth of Pennsylvania's redesignation request, maintenance plan, and 2002 base year emissions inventory SIP revisions because they satisfy the requirements for approval. EPA has evaluated Pennsylvania's redesignation request that was submitted on June 14, 2007 and determined that it meets the redesignation criteria set forth in section 107(d)(3)(E) of the CAA. EPA believes that the redesignation request and monitoring data demonstrate that the York Area has attained the 8-hour ozone standard. The final approval of this redesignation request will change the designation of the York Area from nonattainment to attainment for the 8-hour ozone standard. EPA is approving the maintenance plan for the York Area submitted on June 14, 2007 as a revision to the Pennsylvania SIP. EPA is also approving the MVEBs submitted by PADEP in conjunction with its redesignation request. In addition, EPA is approving the 2002 base year emissions inventory submitted by PADEP on June 14, 2007 as a revision to the Pennsylvania SIP. In this final rulemaking, EPA is notifying the public that we have found that the MVEBs for NO_x and VOCs in the York Area for the 8-hour ozone maintenance plan are adequate and approved for conformity purposes. As a result of our finding, the York Area must use the MVEBs from the submitted 8-hour ozone maintenance plan for future conformity determinations. The adequate and approved MVEBs are provided in the following table:

ADEQUATE AND APPROVED MOTOR VEHICLE EMISSIONS BUDGETS IN TONS PER DAY (TPD)

Budget year	VOC	NO _x
2009	15.9	22.8
2018	9.0	10.0

The York Area is subject to the CAA's requirement for the basic nonattainment areas until and unless it is redesignated to attainment.

III. Statutory and Executive Order Reviews

A. General Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Redesignation is an action that affects the status of a geographical area and does not impose any new regulatory requirements on sources. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4). This final rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). Because this action affects the status of a geographical area, does not impose any new requirements on sources, or allows the state to avoid adopting or implementing other requirements, this action also does not have federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the

distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal requirement, and does not alter the relationship or the distribution of power and responsibilities established in the CAA. This rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it approves a state rule implementing a Federal standard.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the CAA. Redesignation is an action that affects the status of a geographical area and does not impose any new requirements on sources. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, *et seq.*).

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801, *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a

"major rule" as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by *March 14, 2008*. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action.

This action, approving the redesignation of the York Area to attainment for the 8-hour ozone NAAQS, the associated maintenance plan, the MVEBs identified in the maintenance plan and the 2002 base year emission inventory, may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

GENERAL SERVICES ADMINISTRATION

41 CFR Part 102-72

[FMR Amendment 2008-02; FMR Case 2007-102-5]

RIN 3090-A144

Federal Management Regulation; Delegated Leasing Authority, Real Property Policies Update

AGENCY: Office of Governmentwide Policy, General Services Administration (GSA).

ACTION: Final rule.

SUMMARY: The General Services Administration is amending the Federal Management Regulation (FMR) to limit General Purpose leasing delegations for space acquisitions up to a maximum of 19,999 rentable square feet.

DATES: *Effective Date:* January 14, 2008.

FOR FURTHER INFORMATION CONTACT The Regulatory Secretariat, Room 4035, GS Building, Washington, DC 20405, (202) 501-4755, for information pertaining to status or publication schedules. For clarification of content, contact Mr. Stanley C. Langfeld, Director,

Regulations Management Division, Office of Governmentwide Policy, General Services Administration, at (202) 501-1737, or by e-mail at *Stanley.langfeld@gsa.gov*. Please cite FMR case 2007-102-5, Amendment 2008-02.

SUPPLEMENTARY INFORMATION:

A. Background

The Government Accountability Office and the General Services Administration Office of Inspector General have reported that some Federal agencies using the delegated leasing authority issued to Federal agencies on September 25, 1996, are not following properly the instructions specified as a condition for use of the leasing delegation. To address the concerns raised by these audits, to facilitate compliance with all applicable laws and regulations governing the acquisition of real property leasehold interests, and to minimize risk to the Federal Buildings Fund, GSA will no longer authorize General Purpose leasing delegations for space acquisitions in excess of 19,999 rentable square feet.

B. Executive Order 12866

The General Services Administration has determined that this final rule is not a significant regulatory action for the purposes of Executive Order 12866.

C. Regulatory Flexibility Act

This final rule is not required to be published in the **Federal Register** for comment. Therefore, the Regulatory Flexibility Act does not apply.

D. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the FMR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

E. Small Business Regulatory Enforcement Fairness Act

This final rule is exempt from Congressional review under 5 U.S.C. 801, since it relates solely to agency management and personnel.
