

Burden Statement: Public reporting burden for this collection is estimated as follows:

Number of respondents annually	Number of responses per respondent	Average burden hours per response	Total annual burden hours
(1) 2	(2) 1	(3) 40	(1) × (2) × (3) 80

The estimated total cost to respondents is \$4,861 (80 hours divided by 2,080 hours per employee³ per year times \$126,384⁴ per year average salary per employee equals \$4,861 (rounded)). The estimated cost of filing Form 73 per respondent is \$2,431.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including

the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology e.g. permitting electronic submission of responses.

DOMAC proposes to continue to make such sales of LNG in liquid and vapor form subject only to the Commission's jurisdiction under section 3 of the NGA, as amended by the Energy Policy Act of 2005. DOMAC proposes that sales of vaporized LNG will be under flexible, negotiate contracts with market-responsive terms not subject to the Commission's jurisdiction. However, DOMAC proposes a Statement of Terms and Conditions for Liquid Service incorporating terms and conditions from the current Tariff, to apply only to liquid sales. DOMAC requests that the proposed abandonment of such sales pursuant to its amended certificate under section 7 of the NGA and the Terms of Liquid Service be effective as of April 1, 2008.

Such notices, motions, or protests must be filed on or before the comment date shown below. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>.
