

public meeting. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, are available for public inspection in their entirety. The minutes and list of attendees for each scoping meeting will be available to the public and open for 30 days after the meeting to any participant who wishes to clarify the views he or she expressed.

Preliminary issues and management concerns have been identified by BLM personnel, other agencies, and in meetings with individuals and user groups. They represent the BLM's knowledge to date regarding the existing issues and concerns with current land management. The major issues that will be addressed in this planning effort include: wildlife and riparian habitat, rangeland resources, recreation, hazardous materials, and cultural resources.

After public comments, as to what issues the Plan should address are gathered, they will be placed in one of three categories:

1. Issues to be resolved in the Plan;
2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of this Plan.

The BLM will provide an explanation in the Plan as to why an issue was placed in category two or three. In addition to these major issues, a number of management questions and concerns will be addressed in the Plan. The public is encouraged to help identify these questions and concerns during the scoping phase.

Preliminary planning criteria are:

1. The RMPA/EA process will be in compliance with FLPMA, NEPA, and applicable laws, regulations, and policies. The land use plan amendment process will be governed by the planning regulations at 43 CFR 1610 and BLM Land Use Planning Handbook H-1601-1.

2. Lands affected by the proposed plan amendment only apply to public surface and mineral estate managed by the BLM. No decisions will be made

relative to non-BLM administered lands or non-Federal minerals.

3. Public participation will be an integral part of the planning process.

4. The plan amendment will recognize all valid existing rights.

5. The BLM will work with cooperating agencies, tribal governments, and other interested groups, agencies, and individuals during the RMPA/EA process.

6. The RMPA/EA will strive to be consistent with existing non-Federal plans and policies, provided the decisions in the existing plans are consistent with the purposes, policies, and programs of Federal law and regulations for BLM public land.

The BLM will use an interdisciplinary approach to develop the Plan in order to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in the planning process: realty, recreation, cultural, minerals, range, wildlife, and hazardous materials.
