

(the Department) published the preliminary results of the administrative review of the antidumping duty order on stainless steel sheet and strip in coils from Mexico for the period July 1, 2005 through June 30, 2006. *See Stainless Steel Sheet and Strip in Coils from Mexico; Preliminary Results of Antidumping Duty Administrative Review*, 72 FR 43600 (August 6, 2007). On September 4, 2007, we published a notice in the **Federal Register** partially extending the due date of the final results until January 10, 2008. *See Stainless Steel Sheet and Strip in Coils from Mexico: Extension of Time Limit for Final Results of Antidumping Duty Administrative Review*, 72 FR 50663 (September 4, 2007).

#### Second Extension of Time Limits for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Tariff Act), requires the Department to issue the final results of an administrative review within 120 days after the date on which the preliminary results were published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Tariff Act allows the Department to extend the time limit for the final results up to 180 days from the date of publication of the preliminary results.

The Department finds that it is not practicable to complete this review within the original time frame due to additional analysis that must be performed with respect to certain adjustments made to the cost of production. Furthermore, our post-preliminary results cost verification forced an extension of the briefing schedule for parties' comments and rebuttals. Consequently, and in accordance with section 751(a)(3)(A) of the Tariff Act and 19 CFR 351.213(h)(2), the Department is further extending the time period for issuing the final results of review to 180 days after the publication of the preliminary results. Therefore, the final results will be due no later than February 2, 2008.<sup>1</sup> This notice is published in accordance with section 751(a)(3)(A) of the Tariff Act.

Dated: January 8, 2008.

**Stephen J. Claeys,**

*Deputy Assistant Secretary for Import Administration.*

### National Oceanic and Atmospheric Administration

**RIN 0648-XE85**

#### Endangered Species

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of Availability.

**SUMMARY:** NMFS has completed a draft Programmatic Environmental Assessment (PEA) on the Issuance of Endangered Species Act Permits for Scientific Research on Endangered and Threatened Sea Turtles in the North Atlantic Ocean, Caribbean Sea, and Gulf of Mexico.

**DATES:** Written, telefaxed, or e-mail comments must be received on or before February 13, 2008.

**ADDRESSES:** The PEA is available for review upon written request or by appointment in the following office:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; <http://www.nmfs.noaa.gov/pr/permits/review.htm>.

Written comments should be mailed to the Chief, Permits, Conservation and Education Division, F/PR1, at the above address.

Comments may also be submitted by facsimile at (301)427-2521, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing e-mail comments is [NMFS.Pr1Comments@noaa.gov](mailto:NMFS.Pr1Comments@noaa.gov). Include in the subject line of the e-mail comment the following document identifier: Sea Turtle Programmatic EA.

#### FOR FURTHER INFORMATION CONTACT:

Patrick Opay, Amy Hapeman, or Kate Swails, (301)713-2289.

**SUPPLEMENTARY INFORMATION:** NMFS has authority, delegated from the Secretary of Commerce, to issue permits for research and enhancement activities under Section 10(a)(1)(A) of the Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*). Permits to take endangered or threatened non-marine mammal species are governed by the ESA and NMFS implementing regulations at 50 CFR 222.301-309. Where coordination with the United States Fish and Wildlife Service is

required regarding sea turtles, permits are subject to NMFS regulatory criteria at 50 CFR 222.309.

NMFS is required by the National Environmental Policy Act (NEPA) and 40 CFR 1508.27 to consider the significance of the effects of authorizing research activities on listed species of sea turtles (proposed action). The action being considered in this PEA was analyzed as a whole, by effects on affected interests, and by short- and long-term effects. Additionally, the severity of the impacts was analyzed.

NMFS is proposing to more efficiently complete its review and issuance process for ESA section 10(a)(1)(A) scientific research permits and permit modifications on sea turtle species in the North Atlantic Ocean, Gulf of Mexico, and Caribbean Sea. To date, NMFS analyzes each proposed permit action through separate EAs, one for each permit application. The preferred alternative would allow NMFS to more efficiently analyze the potential collective environmental impact of research activities over the next five years.

Dated: January 8, 2008.
