BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10239 and CMS-R-48]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the Agency's function; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection

1. Type of Information Collection Request: New collection; Title of Information Collection: Conditions of Participation for Critical Access Hospitals; Use: With this submission, we are creating a new information collection request for critical access hospitals (CAH). Currently, the information collection requirements

associated with the critical access hospital (CAH) conditions of participation (CoPs) are included with the hospital CoPs reported under CMS-R-48 (0938-0328). Because the CAH program has grown in scope of services and the number of providers, we have removed the CAH burden from the CMS-R-48 with the exception of the burden associated with the 101 CAHs that have distinct part units (DPUs), and created a separate information collection request for OMB review and approval. Section 1820(c)(2)(E)(i) of the Social Security Act states that if a CAH operates a distinct part psychiatric or rehabilitation unit it must have 10 beds or less in the DPU and it must comply with the hospital requirements specified in 42 CFR Subpart A, B, C, and D of part 482. Based on 2007 data from HRSA, 81 CAHs have psychiatric distinct part units (DPUs) and 20 CAHs have rehabilitation DPUs. The burden associated with the 101 CAHs with DPUs is reported in CMS-R-48. Form Number: CMS-10239 (OMB#: 0938-New); Frequency: Yearly; Affected Public: Private sector—Business or other for-profit; Number of Respondents: 1,189; Total Annual Responses: 137,990; Total Annual Hours: 23,291.

2. Type of Information Collection Request: Revision of a currently approved collection; Title of Information Collection: Hospital Conditions of Participation and Supporting Regulations in 42 CFR 482.12, 482.13, 482.21, 482.22, 482.23, 482.24, 482.27, 482.30, 482.41, 482.43, 482.45, 482.53, 482.56, 482.57, 482.60, 482.61, 482.62, and 485.616 and 485.631; Use: The information collection requirements described in this information collection request are needed to implement the Medicare and Medicaid conditions of participation (CoP) for 4,890 accredited and nonaccredited hospitals and an additional 101 critical access hospitals (CAHs) that have distinct part psychiatric or rehabilitation units (DPUs). CAHs that have DPUs must comply with all of the hospital CoPs on these units. Thus, this

package reflects the paperwork burden for a total of 4,991 (that is, 4,890 hospitals and 101 CAHs which include 81 CAHs that have psychiatric DPUs and 20 CAHs that have rehabilitation DPUs). The information collection requirements for the remaining 1,183 CAHs have been reported in a separate package under CMS-10239.

The CoPs and accompanying requirements specified in the regulations are used by our surveyors as a basis for determining whether a hospital qualifies for a provider agreement under Medicare and Medicaid. CMS and the health care industry believe that the availability to the facility of the type of records and general content of records, which this regulation specifies, is standard medical practice and is necessary in order to ensure the well-being and safety of patients and professional treatment accountability. Form Number: CMS-R-48 (OMB#: 0938-328); Frequency: Yearly; Affected Public: Private sector— Business or other for-profit; Number of Respondents: 4,991; Total Annual Responses: 1,120,817; Total Annual Hours: 9,151,200.57.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS's Web site address at http://www.cms.hhs.gov/PaperworkReductionActof1995, or Email your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@cms.hhs.gov, or call the Reports Clearance Office on (410) 786–1326.

To be assured consideration, comments and recommendations for the proposed information collections must be received by the OMB desk officer at the address below, no later than 5 p.m. on *February 19, 2008*.

OMB Human Resources and Housing Branch, Attention: Carolyn Lovett, New Executive Office Building, Room 10235, Washington, DC 20503, Fax Number: (202) 395–6974. Dated: January 11, 2008.

Food and Drug Administration [Docket No. 2008N-0004]

Draft Guidance for Industry on Acute Bacterial Otitis Media: Developing Drugs for Treatment; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of a draft guidance for industry entitled "Acute Bacterial Otitis Media: Developing Drugs for Treatment." The purpose of this draft guidance is to assist clinical trial sponsors and investigators in the development of antimicrobial drug products for the treatment of acute bacterial otitis media (ABOM). The agency's thinking in this area has evolved in recent years, and this draft guidance, when finalized, will inform sponsors of the changes in our recommendations. In addition, it will fulfill a statutory requirement to publish such a guidance enacted in the Food and Drug Administration Amendments Act of 2007 (FDAAA).

DATES: Although you can comment on any guidance at any time (see 21 CFR 10.115(g)(5)), to ensure that the agency considers your comment on this draft guidance before it begins work on the final version of the guidance, submit written or electronic comments on the draft guidance by April 17, 2008.

ADDRESSES: Submit written requests for single copies of the draft guidance to the

Division of Drug Information (HFD-240), Center for Drug Evaluation and Research, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857. Send one selfaddressed adhesive label to assist that office in processing your requests. Submit written comments on the draft guidance to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. Submit electronic comments to either http:// www.fda.gov/dockets/ecomments or http://www.regulations.gov. See the **SUPPLEMENTARY INFORMATION** section for electronic access to the draft guidance document.

FOR FURTHER INFORMATION CONTACT: John Alexander, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 22, rm. 6134, Silver Spring, MD 20993–0002, 301–796–1400.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft guidance for industry entitled "Acute Bacterial Otitis Media: Developing Drugs for Treatment." The purpose of this draft guidance is to assist clinical trial sponsors and investigators in the development of antimicrobial drug products for the treatment of ABOM. This guidance revises the draft guidance regarding ABOM published in 1998. Section 911 of FDAAA (Public Law 110-85) adds section 511 to the Federal Food, Drug, and Cosmetic Act that directs the Secretary of Health and Human Services to "issue guidance for the conduct of clinical trials with respect to antibiotic drugs, including antimicrobials to treat * * * acute bacterial otitis media

* * *." This draft guidance will fulfill this statutory requirement.

The design of clinical trials for ABOM was the subject of an Anti-Infective Drugs Advisory Committee meeting on July 11, 2002. In addition, other advisory committee meetings have focused on the development of specific drug products for this indication. As a result of these public discussions, as well as review of pending applications at FDA, the agency's thinking in this area has evolved in recent years, and this guidance informs sponsors of the changes in our recommendations. Specifically, this draft guidance recommends that ABOM clinical trials be designed as superiority rather than noninferiority trials, and discusses some possible study designs that might be employed in an ABOM trial designed to show superiority. This draft guidance
