

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Notice of Opportunity for Public Comment on Grant Acquired Property Release at Fulton County Airport—Brown Field, Atlanta, GA**

AGENCY: Federal Aviation Administration (FAA), DOT.
ACTION: Notice.

SUMMARY: Under the provisions of Title 49, U.S.C. Section 47153(c), notice is being given that the FAA is considering a request from Fulton County to waive the requirement that approximately 10.59 acres of airport property adjacent to Fulton Industrial Blvd. to be used for aeronautical purposes.

DATES: Comments must be received on or before February 21, 2008.

ADDRESSES: Comments on this notice may be mailed or delivered in triplicate to the FAA at the following address: Atlanta Airports District Office, Attn: Chuck Garrison, Program Manager, 1701 Columbia Ave., Suite 2-260, College Park, GA 30337.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Doug Barrett, Airport Manager, Fulton County Airport at the following address: Fulton County Airport—Brown Field, 3952 Aviation Circle, Rm. 200 Terminal Building, Atlanta, Georgia 30336.

FOR FURTHER INFORMATION CONTACT: Chuck Garrison, Program Manager, Atlanta Airports District Office, 1701 Columbia Ave., Suite 2-260, College Park, GA 30337, (404) 305-7162. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: the FAA is reviewing a request by Fulton County to release approximately 10.59 acres of airport property adjacent to Fulton Industrial Blvd. at the Fulton County Airport. The property consists of Fulton Industrial Blvd. frontage across 10 parcels roughly located on the west side of the airport. This property is currently shown on the approved Airport Layout Plan as aeronautical use land; however the property is currently not being used for aeronautical purposes and the proposed use of this property is compatible with airport operations. Fulton County will ultimately transfer the property to the Georgia Department of Transportation for right of ways and permanent construction easements associated with the widening of Fulton Industrial Blvd. in exchange for airport development.

Any person may inspect the request in person at the FAA office listed above

under **FOR FURTHER INFORMATION CONTACT.** In addition, any person may, upon request, inspect the request, notice and other documents germane to the request in person at the Fulton County Airport.

Issued in Atlanta, Georgia on December 13, 2007.

Scott L. Serritt,
*Manager, Atlanta Airports District Office,
Southern Region.*

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****FAA Approval of Noise Compatibility Program 14 CFR Part 150 Ronald Reagan Washington National Airport Arlington, VA**

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by Metropolitan Washington Airport Authority (MWAA) under the provisions of 49 U.S.C. (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and 14 CFR part 150. These findings are made in recognition of the description of Federal and nonfederal responsibilities in Senate Report No. 96-52 (1980). On August 6, 2007, the FAA determined that the noise exposure maps submitted by MWAA under Part 150 were in compliance with applicable requirements. On January 10, 2008, the FAA approved the Ronald Reagan Washington National Airport noise compatibility program. Some of the recommendations of the program were approved.

DATES: *Effective Date:* The effective date of the FAA's approval of the Ronald Reagan Washington National Airport noise compatibility program is January 10, 2008.

FOR FURTHER INFORMATION CONTACT: Jennifer Mendelsohn, Eastern Region, Washington Airports District Office, Federal Aviation Administration, 23723 Air Freight Lane, Suite 210, Dulles, Virginia 20166, Telephone: 703-661-1362. Documents reflecting this FAA action may be reviewed at this same location.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the noise compatibility program for Ronald

Reagan Washington National Airport, effective January 10, 2008.

Under section 47504 of the Act, an airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing non-compatible land uses and prevention of additional non-compatible land uses within the area covered by the noise exposure maps. The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulations (FAR) Part 150 is a local program, not a Federal program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA's approval or disapproval of FAR Part 150 program recommendations is measured according to the standards expressed in Part 150 and the Act and is limited to the following determinations:

(a) The noise compatibility program was developed in accordance with the provisions and procedures of FAR Part 150;

(b) Program measures are reasonably consistent with achieving the goals of reducing existing non-compatible land uses around the airport and preventing the introduction of additional non-compatible land uses;

(c) Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the Federal Government; and

(d) Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator prescribed by law.

Specific limitations with respect to FAA's approval of an airport noise compatibility program are delineated in FAR part 150, section 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, state, or local law. Approval does not by itself constitute an FAA implementing action. A request for Federal action or
