

(OMB). Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatement of previously approved collections.

This document describes a collection of information for which NHTSA intends to seek OMB approval.

DATES: Comments must be received on or before March 24, 2008.

ADDRESSES: You may submit comments, identified as relating to DOT Docket No. NHTSA-2008-0006, by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Mail:* Docket Management Facility: U.S. Department of Transportation, 1200 New Jersey Avenue, SE., West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.
- *Hand Delivery or Courier:* West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays. Telephone: 1-800-647-5527.
- *Fax:* 202-493-2251.

Instructions: All submissions must include the agency name and docket number for this proposed collection of information. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below.

Privacy Act: Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477-78) or you may visit <http://DocketInfo.dot.gov>.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995,

before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation, *see* 5 CFR 1320.8(d), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected; and

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses

In compliance with these requirements, NHTSA asks for public comments on the following proposed collection of information:

Title: Names and Addresses of First Purchasers of Motor Vehicles.

OMB Control Number: 2127-0044.

Type of Request: Renewal of a currently approved information collection.

Affected Public: Businesses or others for profit.

Abstract: Pursuant to 49 U.S.C. 30117(b), a manufacturer of a motor vehicle or tire (except a retreaded tire) must maintain a record of the name and address of the first purchasers of each vehicle or tire it produces and, to the extent prescribed by regulation of the Secretary, must maintain a record of the name and address of the first purchaser of replacement equipment (except a tire) that the manufacturer produces.

Vehicle manufacturers presently collect and maintain purchaser information for business reasons, such as for warranty claims processing and marketing, and experience with this statutory requirement has shown that manufacturers have retained this information in a manner sufficient to enable them to expeditiously notify vehicle purchasers in the case of a safety recall. Based on industry custom and

this experience, NHTSA therefore determined that the regulation mentioned in 49 U.S.C. 30117(b) was unnecessary as to vehicle manufacturers. As an aside, the requirements for maintaining tire purchaser information are contained in 49 CFR part 574, Tire Identification and Recordkeeping, and the burden of that information collection is not part of this information collection.

Estimated Annual Burden:

Previously, NHTSA estimated this collection's burden at 1,075,000 hours. This was reached from our estimate that there was an annual burden of 875,000 hours associated with the recording of purchaser information at the time of sale by dealers, and an additional 200,000 burden hours associated with recordkeeping by manufacturers.

As discussed above, as a practical matter vehicle manufacturers are presently collecting from their dealers and then maintaining first purchaser information for their own commercial reasons. Therefore, we do not believe that the requirement in 49 U.S.C. 30117(b) imposes any additional burden on that community. We believe our previous estimate is inaccurate and greatly exaggerates the burden on vehicle manufacturers. Accordingly, we have revised the estimated annual burden for this collection to zero burden hours.

Number of Respondents: We estimate that there are roughly 1,000 manufacturers of motor vehicles that collect and keep first purchaser information.

Issued on: January 15, 2008.

FOR FURTHER INFORMATION CONTACT: Jennifer Timian, Recall Management Division (NVS-215), Room W46-324, NHTSA, 1200 New Jersey Ave., SE., Washington, DC 20590. Telephone: (202) 366-0209.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation, *see* 5 CFR 1320.8(d), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected; and

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collection of information:

Title: Petitions for Hearing on Notification and Remedy of Defects.

Type of Request: Renewal of an information collection.

OMB Control Number: 2127-0039.

Affected Public: Businesses or individuals.

Abstract: Sections 30118(e) and 30120(e) of Title 49 of the United States Code specify that any interested person may petition NHTSA to hold a hearing to determine whether a manufacturer of motor vehicles or motor vehicle equipment has met its obligation to notify owners, purchasers, and dealers of vehicles or equipment of a safety-related defect or noncompliance with a Federal motor vehicle safety standard in the manufacturer's products and to remedy that defect or noncompliance.

To implement these statutory provisions, NHTSA promulgated 49 CFR part 557, Petitions for Hearings on Notification and Remedy of Defects. Part 577 establishes procedures providing for the submission and disposition of petitions for hearings on the issues of whether the manufacturer has met its

obligation to notify owners, purchasers, and dealers of safety-related defects or noncompliances, or to remedy such defect or noncompliance free of charge.

Estimated Annual Burden: During NHTSA's last renewal of this information collection, the agency estimated it would receive two petitions a year, with an estimated one hour of preparation for each petition, for total of two burden hours per year.

Over the past three years, however, NHTSA has received one petition filed under 49 CFR Part 557. Our estimated time for preparation remains the same. Accordingly, we are revising our burden estimate for this collection of information to one burden hour per year.

Number of Respondents: 1.

Issued on January 15, 2008.

Director, Office of Defects Investigation.
