

### Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding known as an "intervenor." Intervenor play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must send one electronic copy (using the Commission's eFiling system) or 14 paper copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding.

If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) (see Appendix 2).<sup>3</sup> Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

### Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site (<http://www.ferc.gov>) using the "eLibrary" link. Click on the eLibrary link, then on "General Search" and enter the docket number excluding the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to

the documents. Go to <http://www.ferc.gov/esubscribenow.htm>.

Finally, public meetings or site visits will be posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx> along with other related information.

**Kimberly D. Bose,**

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP08-50-000]

#### Trunkline Gas Company, LLC; Notice of Request Under Blanket Authorization

January 14, 2008.

Take notice that on January 9, 2008, Trunkline Gas Company (Trunkline), P.O. Box 4967, Houston, Texas 77210-4967, filed in Docket No. CP08-50-000 a prior notice request pursuant to sections 157.205, 157.208 and 157.212 of the Commission's regulations under the Natural Gas Act (NGA) and Trunkline's blanket certificate issued January 10, 1983 in Docket No. CP83-84-000, for authorization to construct and operate a new interconnect with Kinder Morgan Louisiana Pipeline, LLC to receive revaporized liquefied natural gas in Jefferson Davis Parish, Louisiana, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

The estimated cost of constructing the proposed facilities is \$950,000.

Any questions regarding the application should be directed to Stephen T. Veach, Regulatory Affairs, Trunkline Gas Company, 5444 Westheimer Road, Houston, Texas 77056, or fax (713) 989-1158, or e-mail [stephen.veach@sug.com](mailto:stephen.veach@sug.com).

Any person or the Commission's Staff may, within 60 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and, pursuant to section

157.205 of the Commission's Regulations under the NGA (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

*Comment Date:* February 4, 2008.

**Kimberly D. Bose,**

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. PF07-16-000]

#### UGI LNG, Inc.; Notice of Intent To Prepare an Environmental Assessment for the Proposed Temple LNG Plant Expansion Project and Request for Comments on Environmental Issues

January 15, 2008.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the proposed Temple LNG Plant Expansion Project involving construction and operation of facilities by UGI LNG, Inc. (UGI LNG) in Ontelaunee Township, Berks County, Pennsylvania. The EA will be used by

<sup>3</sup> Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.

the Commission in its decisionmaking process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help determine which issues need to be evaluated in the EA. Please note that the scoping period for this Notice will close on February 18, 2008. Details on how to submit comments are provided in the Public Participation section of this notice. Further notice will be issued in the near future regarding any local public comment meetings to be held by the Commission staff.

This notice is being sent to affected landowners; federal, state, and local government representatives and agencies; elected officials; other interested parties; and local libraries and newspapers. State and local government representatives are asked to notify their constituents of this proposed project and to encourage them to comment on their areas of concern.

A brochure prepared by the FERC entitled "A Guide to LNG—What All Citizens Should Know" is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>). This brochure addresses a number of typically asked questions, including what is LNG and how is it transported.

### Summary of the Proposed Project

UGI LNG proposes to expand its existing Temple LNG Plant in Ontelaunee Township, Berks County, Pennsylvania (see map in Appendix 1<sup>1</sup>). The expansion would consist of adding one LNG storage tank with a net working capacity of 50,000 cubic meters.

Specifically, UGI LNG seeks authority to construct and operate the following facilities:

- One full-containment LNG storage tank with a net working capacity of 50,000 cubic meters (314,500 barrels);
- Three vapor return blowers;
- Two boil-off gas compressors;
- Six LNG send out pumps;
- Six submerged combustion vaporizers;

<sup>1</sup> The appendices referenced in this notice are not being printed in the **Federal Register**. Copies are available from the Commission's Web site at the eLibrary link or from the Commission's Public Reference Room or by calling (202) 502-8371. For instructions on connecting to eLibrary refer to the public participation section of this notice. For instructions on connecting to eLibrary, refer to the "Additional Information" section at the end of this notice. Copies of the appendices were sent to all those receiving this notice in the mail. Requests for detailed maps of the proposed facilities should be made directly to UGI LNG.

- A shell-and-tube gas-to-gas exchanger;
- Send-out pipeline connecting the new LNG tank to the existing Texas Eastern Transmission Corporation (TETCO) pipeline; and
- A control building.

### Land Requirements

It is estimated that construction of the project would disturb about 15 acres of land. This land is within the existing plant site owned by UGI LNG and on adjacent existing right-of-way controlled by TETCO.

### The EA Process

We<sup>2</sup> are preparing this EA to comply with the National Environmental Policy Act (NEPA) which requires the Commission to take into account the environmental impact that could result if it authorizes UGI LNG's proposal. By this notice, we are also asking federal, state, and local agencies with jurisdiction and/or special expertise with respect to environmental issues to formally cooperate with us in the preparation of the EA.

Agencies that would like to request cooperating status should follow the instructions for filing comments provided below.

The purpose of the Pre-filing Process is to seek public and agency input early in the project planning phase and encourage involvement by interested stakeholders in a manner that allows for the early identification and resolution of environmental issues. We will work with all interested stakeholders to identify and attempt to address issues before UGI LNG files its application with the FERC. A diagram depicting the environmental review process for the proposed project is attached to this notice as Appendix 2.

NEPA also requires the FERC to discover and address concerns the public may have about proposals. This process is referred to as "scoping." The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, we are requesting public comments on the scope of the issues to address in the EA. All comments received will be considered during the preparation of the EA. As part of the Pre-filing Process review, FERC staff representatives participated in a public open house sponsored by UGI LNG in the project area on December 18, 2007, to explain the environmental review process to

<sup>2</sup> "We," "us," and "our" refer to the environmental staff of the FERC's Office of Energy Projects.

interested stakeholders and take comments about the project.

The EA will discuss impacts that could occur as a result of the construction and operation of the proposed project under these general headings:

- Geology and soils.
- Wetlands and waterbodies.
- Land use.
- Cultural resources.
- Vegetation and wildlife (including sensitive species).
- Air and noise quality.
- Reliability, safety and security.

Our independent analysis of the issues will be in the EA which will be published and mailed to Federal, State, and local agencies, interested individuals who return the Information Request Form in Appendix 3, and the Commission's official service list for this proceeding. A comment period will be allotted for review when the EA is published. We will consider all comments on the EA before we make our recommendations to the Commission.

Although no formal application has been filed, the FERC staff has already initiated its NEPA review under its Pre-filing Process. The purpose of the Pre-filing Process is to encourage the early involvement of interested stakeholders and to identify and resolve issues before an application is filed with the FERC. Once a formal application is filed with the FERC, a new docket number will be established.

### Public Participation

You can make a difference by providing us with your specific comments or concerns about the project. By becoming a commentator, your concerns will be addressed in the EA and considered by the Commission. You should focus on the potential environmental effects of the proposal, reasonable alternatives to the proposal including alternative locations and routes, and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your letter to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426.
- Label one copy of the comments for the attention of Gas Branch 3.
- Reference Docket No. PF07-16-000.
- Mail your comments so that they will be received in Washington, DC on or before February 18, 2008.

The Commission encourages electronic filing of comments. See 18 Code of Federal Regulations 385.2001(a)(1)(iii) and the instructions on the Commission's Internet Web site at <http://www.ferc.gov> under the "eFiling" link and the link to the User's Guide. Prepare your submission in the same manner as you would if filing on paper and save it to a file on your hard drive. Before you can file comments you will need to create an account by clicking on "Login to File" and then "New User Account." You will be asked to select the type of filing you are making. This filing is considered a "Comment on Filing."

If you are interested in receiving a copy of the EA, please return the Information Request (Appendix 3). If you do not return the Information Request, you will be taken off the mailing list.

Once UGI LNG formally files its application with the Commission, you may want to become an official party to

the proceeding known as an "intervenor." Intervenors play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in a Commission proceeding by filing a request to intervene. Instructions for becoming an intervenor are included in the User's Guide under the "e-filing" link on the Commission's Web site. Please note that you may not request intervenor status at this time. You must wait until a formal application is filed with the Commission.

#### **Additional Information**

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site ([www.ferc.gov](http://www.ferc.gov)) using the "eLibrary" link. Click on the eLibrary link, click on "General Search" and enter the docket number excluding

the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to [www.ferc.gov/esubscribenow.htm](http://www.ferc.gov/esubscribenow.htm).

**ENVIRONMENTAL PROTECTION AGENCY**

[EPA-HQ-OPPT-2007-0270; FRL-8518-2]

**Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Asbestos-Containing Materials in Schools Rule and Revised Asbestos Model Accreditation Plan Rule; EPA ICR No. 1365.08, OMB No. 2070-0091****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (PRA)(44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

**DATES:** Additional comments may be submitted on or before February 21, 2008.

**ADDRESSES:** Submit your comments, referencing docket ID Number EPA-HQ-OPPT-2007-0270 to (1) EPA online using <http://www.regulations.gov> (our preferred method), by e-mail to [oppt.ncic@epa.gov](mailto:oppt.ncic@epa.gov) or by mail to: Document Control Office (DCO), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, Mail Code: 7407T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Barbara Cunningham, Director, Environmental Assistance Division, Office of Pollution Prevention and Toxics, Environmental Protection Agency, Mailcode: 7408-M, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 202-554-1404; e-mail address: [TSCA-Hotline@epa.gov](mailto:TSCA-Hotline@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2007 (72 FR 26355), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any comments related to

this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OPPT-2007-0270, which is available for online viewing at <http://www.regulations.gov>, or in person inspection at the OPPT Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Pollution Prevention and Toxics Docket is 202-566-0280.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

**Title:** Asbestos-Containing Materials in Schools Rule and Revised Asbestos Model Accreditation Plan Rule.

**ICR Numbers:** EPA ICR No. 1365.08, OMB Control No. 2070-0091.

**ICR Status:** This ICR is currently scheduled to expire on January 31, 2008. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** The Asbestos Hazard Emergency Response Act (AHERA) requires Local Education Agencies (LEAs) to conduct inspections, develop management plans, and design or

conduct response actions with respect to the presence of asbestos-containing materials in school buildings. AHERA also requires states to develop model accreditation plans for persons who perform asbestos inspections, develop management control plans, and design or conduct response actions. This information collection addresses the burden associated with reporting and recordkeeping requirements imposed on LEAs by the asbestos in schools rule, and reporting and recordkeeping requirements imposed on state agencies and training providers related to the model accreditation plan rule.

Responses to the collection of information are mandatory (see 40 CFR part 763, Subpart E). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 5.5 hours and 140 hours per response, depending on the category of the respondent. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Entities potentially affected by this action are local education agencies
