SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You might potentially be affected by this action if you are or may be required to follow the Agency's regulations regarding testing for lead. Specifically, entities potentially affected by these revisions are Fixed-Site, Mobile, and Field Sampling and Measurement Organizations (FSMOs) that perform lead testing. Analytical testing laboratories currently recognized by the NLLAP, and accreditation organizations that currently administer the NLLAP (i.e., the American Industrial Hygiene Association (AIHA) and the American Association for Laboratory Accreditation (A2LA)) or other organizations that might seek a Memorandum of Understanding (MOU) with the Agency to become an accreditation organization could be affected by today's revisions. In addition, certified inspectors, certified risk assessors, developers, manufacturers, distributors of equipment and supplies used by FSMOs testing lead might also be affected by these revisions; and EPA-authorized state and tribal lead-based paint training and certification programs may also be affected by these revisions.

Other entities potentially affected by changes to the NLLAP for lead testing are the owners and managers of target housing and child-occupied facilities, as well as realtors, lessees, and residents, who ultimately pay for the testing services and stand to benefit by obtaining lead test results quicker.

Since other entities may also be interested, the Agency has not attempted to describe all of the specific entities that may be affected by this notice. If you have any questions regarding the applicability of this notice to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
