Correction to Final Rule

■ After publication, it was observed that a technical correction was required to correct the geographical coordinates for the University Park Airport and to add the University Park Airport's ILS LOC with its coordinates to the legal description. Therefore, in the **Federal Register** Docket No. FAA-2007-29375; Airspace Docket No. 07-AEA-06, published October 10, 2007, (72 FR 61293-61294) make the following correction. On page 61294, in the second column, immediately under "University Park Airport, State College, PA", correct the geographical coordinates to read "(lat. 40°50'57" N., Long. 77°50'55" W.)" On the next line add the following:

University Park Airport ILS LOC
(Lat. 40°50'38" N., long. 77°51'30" W.)

■ For verification and to avoid confusion, the entire description should read as follows:

*Paragraph 6005 Class E Airspace Areas
Extending Upward from 700 feet or More
Above the Surface of the Earth.*

* * * * *

AEA PA E5 State College, PA [AMENDED]

University Park Airport, State College, PA

Point in Space Coordinates

(Lat. 40°49'14" N., long. 77°49'44" W.)
