SUPPLEMENTARY INFORMATION: The development of CPGs is a major initiative of OIG in its effort to engage the private health care industry in addressing and combating fraud and abuse. Over the past several years, OIG has developed and issued CPGs directed at various segments of the health care industry. These guidances are designed to provide clear direction and assistance to specific sections of the health care industry that are interested in addressing compliance with Federal health care program requirements.

The CPGs set forth OIG's suggestions on how providers can most effectively establish internal controls and implement monitoring procedures to identify, correct, and prevent potentially fraudulent conduct. The suggestions contained in the CPGs are not mandatory for providers, nor do they represent an exclusive discussion of the advisable elements of a compliance program.

Through this **Federal Register** notice, OIG is seeking input from interested

parties as OIG considers revising the CPG for the nursing home industry. OIG will consider all comments, recommendations, and suggestions received within the time frame indicated above. OIG would appreciate specific comments, recommendations, and suggestions on risk areas for the nursing home industry, such as the submission of false claims, as well as quality of care concerns, kickbacks, and accurate reporting of data to Medicare and Medicaid. Detailed justifications and empirical data supporting any suggestions would be appreciated.

We request that any comments, recommendations, or suggestions be submitted in a format that addresses the topics outlined above in a concise manner rather than in the form of a comprehensive draft guidance that mirrors previous CPGs.

Dated: January 16, 2008.

Daniel R. Levinson,
Inspector General.
