DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

[Docket No. DHS-2007-0020]

Privacy Act of 1974: ICE Pattern Analysis and Information Collection (ICEPIC) System of Records

AGENCY: Department of Homeland Security.

ACTION: Privacy Act System of Records.

SUMMARY: Pursuant to the Privacy Act of 1974, the Department of Homeland

Security, U. S. Immigration and Customs Enforcement, is publishing this notice of system of records for the Department's ICE Pattern Analysis and Information Collection (ICEPIC) system. A proposed rulemaking is also published in this issue of the **Federal Register** in which the Department proposes to exempt portions of this system of records from one or more provisions of the Privacy Act because of criminal, civil, and administrative enforcement requirements. Due to urgent homeland security and law enforcement mission needs, ICEPIC is currently in limited operation. Recognizing that ICE is publishing a notice of system of records for an existing system, ICE will carefully consider public comments, apply appropriate revisions, and republish the ICEPIC notice of system of records within 180 days of receipt of comments. Additionally, a Privacy Impact Assessment will be posted on the Department's privacy Web site. (See <http://www.dhs.gov/privacy> and follow the link to "Privacy Impact Assessments.")

DATES: The established system of records will be effective February 29, 2008. A revised ICEPIC notice of system of records that addresses public comments, responds to OMB direction, and includes other ICE changes will be published not later than August 27, 2008 and will supersede this notice of system of records.

ADDRESSES: You may submit comments, identified by Docket Number DHS 2007-0020 by one of the following methods:

- *Federal e-Rulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Fax:* 1-866-466-5370.
- *Mail:* Hugo Teufel III, Chief Privacy Officer, Department of Homeland Security, Washington, DC 20528.

FOR FURTHER INFORMATION CONTACT: For system related questions please contact Steven W. Cooper, Executive Information Unit, Office of Investigations, U.S. Immigration and Customs Enforcement, 425 I Street, NW, Washington, DC 20536. For privacy issues please contact: Hugo Teufel III, Chief Privacy Officer, Privacy Office, U.S. Department of Homeland Security, Washington, DC 20528.

SUPPLEMENTARY INFORMATION:

I. Background

Part of ICE's mission is to investigate possible violations of U.S. immigration law. Many times this involves hours of analysis regarding a particular case or operation. As part of the investigative

process analysts must identify and understand the relationships among individuals, places, and items that are the subject of investigation.

The ICEPIC Tool builds on earlier ICE initiatives to verify the identity of Special Interest Aliens (SIAs), as designated by the Department of State. In 2003 ICE implemented the National Security Entry Exit Registration System (NSEERS) to manage the growing collection of over 500,000 SIA records. National and international terrorist threats in the 2004 and 2005 timeframe resulted in ICE reviewing not only the SIA records in NSEERS, but also the records of aliens registered with the Student and Exchange Visitor Information System (SEVIS) and entered into the United States Visitor and Immigrant Status Indicator Technology (US VISIT) system as well. Since 2005, ICE's expanding law enforcement role has demanded increasingly sophisticated tools to detect potential violations of immigration and criminal law and terrorist threats.

ICE analyzes relationships among individuals using conventional database queries and link analysis tools; however, traditional link analysis tools rely on the consistency of key data, such as names and addresses, to establish relationships. If the source data is of poor quality or an individual seeks to conceal his/her identity through intentional, but subtle, changes to names, addresses, and other biographic information, then conventional tools are less effective at recognizing relationships. As a result, investigators and analysts may miss important relationships among suspects, family members, other associates, organizations, addresses, and vehicles.

ICEPIC allows ICE law enforcement agents and analysts to look for non-obvious relationship patterns among individuals and organizations that are indicative of violations of the customs and immigration laws that are enforced by DHS agencies, as well as possible terrorist threats and plots. From these relationships, ICE agents can develop specific leads and law enforcement intelligence for active and new investigations. Identified relationships can also be recorded for reuse in subsequent investigative analyses. The information processed by ICEPIC comes from existing ICE investigative and apprehension records systems, as well as immigration and alien admission records systems. All ICEPIC activity is predicated on ongoing and valid law enforcement investigations.

ICEPIC includes capabilities that assist investigators to record results of analyses performed in support of

investigations and to capture additional relevant information obtained from outside sources. The information collected by, on behalf of, in support of, or in cooperation with DHS and its components may contain personally identifiable information collected by other Federal, state, local, tribal, foreign, or international government agencies or organizations.

ICEPIC assists ICE investigators by automating five business processes:

A. Analysis of leads, law enforcement and intelligence reports, referrals, and processing of queries of ICE and DHS information to locate relevant records and produce reports;

B. Integration and resolution of information from multiple ICE and DHS databases to provide leads for law enforcement investigations and disruption of potential terrorist activities;

C. Initiation of analyses that support investigative cases in DHS and field offices and recording the results of beneficial analyses;

D. Production and dissemination of target indicator profiles and other law enforcement intelligence; and

E. Management of analysis workflows and information resources.

Information that is produced or maintained by ICEPIC is used by ICE agents in headquarters and field offices to identify potential violations of customs or immigration law, confirm suspected violations, or investigate potential terrorist threats. ICEPIC is used to identify relationships among different individuals or among records for the same individual from multiple sources when an individual or individuals have been identified as subjects, leads, or associates in an investigative case. In cases where DHS determines that the information would assist in the enforcement of civil or criminal laws, ICE may share the information with the appropriate Federal, State, local, tribal, or foreign governmental agencies or multilateral governmental organizations.

Information may also be used by national intelligence community agencies where analysis of the records indicates a potential or confirmed threat of terrorist activity justifying further analysis or investigation. ICE may also share this information with the FBI when ICE becomes aware of information that may be related to an individual in the Terrorist Screening Database.

The Department of Justice (DOJ) and other Federal agencies may use reports generated through ICEPIC in the review, settlement, and prosecution of claims, complaints, and lawsuits involving matters over which ICE exercises

jurisdiction or when conducting litigation or in proceedings before any court, adjudicative, or administrative body. This includes any litigation matters where ICE, DOJ, or an employee in his or her official capacity in support of ICE, the United States, or any agency thereof is involved.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates personally identifiable information. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other particular assigned to the individual. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR part 5.21 and DHS will review each request on a case-by-case basis in light of exemptions taken by ICEPIC.

The Privacy Act requires each agency to publish in the **Federal Register** a description of the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses to which personally identifiable information is put, and to assist individuals in finding such files within the agency.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this revised system of records to the Office of Management and Budget and to the Congress.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. § 301; 8 U.S.C. § 1103; 8 U.S.C. § 1225(d)(3); 8 U.S.C. § 1324(b)(3); 8 U.S.C. § 1357(a); 8 U.S.C. § 1360(b); 19 U.S.C. § 1; and 19 U.S.C. § 1509.

PURPOSE:

The purpose of the ICEPIC system is to provide the information technology infrastructure products and services that enable investigators and analysts within ICE and other DHS components to recognize non-obvious person, address, and organizational relationships within existing DHS records systems, and to develop timely, actionable leads needed to accomplish ICE law enforcement and counter-terrorism mission objectives. All ICEPIC activity is predicated on ongoing and valid law enforcement investigations. Current manual and automated processes for research, collation, organization, validation, and analysis of the information in numerous DHS alien registration, entry, intelligence, lookout, and enforcement systems can accomplish similar objectives, but are cumbersome, time-consuming, and error-prone. ICEPIC will provide a reliable, responsive, and secure system to support production of actionable leads and law enforcement intelligence for DHS components and other Federal entities, as appropriate and in conformance with this system of records notice.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, all or a portion of the records or information contained in this system may be disclosed to authorized entities, as is determined to be relevant and necessary, outside DHS as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

A. To the Department of Justice (DOJ) or other Federal agency in the review, settlement, defense, and prosecution of claims, complaints, and lawsuits involving matters over which ICE exercises jurisdiction, or when conducting litigation or in proceedings before any court, adjudicative or administrative body, when: (a) DHS; or (b) any employee of DHS in his/her official capacity; or (c) any employee of ICE in his/her individual capacity, where DOJ or DHS has agreed to represent the employee; or (d) the United States, or any agency thereof, is a party to the litigation or has an interest in such litigation, and DHS determines that the records are both relevant and necessary to the litigation and the use of such records is compatible with the purpose for which DHS collected the records.

B. To appropriate Federal, State, local, tribal, or foreign governmental agencies or multilateral governmental organizations responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, license, or treaty where DHS determines that the information would assist in the enforcement of domestic and foreign civil or criminal laws.

C. To U.S. agencies of the national intelligence community or through established liaison channels to selected foreign governments where analysis of the records indicates a potential or confirmed threat of terrorist activity justifying further analysis or investigation.

D. To an agency, organization, or individual for the purpose of performing audit or oversight operations as authorized by law, but only such information as is necessary and relevant to such audit or oversight function. Those provided information under this routine use are subject to the same Privacy Act limitations as are applicable to DHS officers and employees.

E. To the National Archives and Records Administration (NARA) or other Federal agencies pursuant to records management inspections being

conducted under the authority of 44 U.S.C. 2904 and 2906.

F. To contractors and their agents, grantees, experts, consultants, and others performing or working on a contract, service, grant, cooperative agreement, or other assignment for DHS, when necessary to accomplish an agency function related to this system of records. Those provided information under this routine use are subject to the same Privacy Act limitations as are applicable to DHS officers and employees.

G. To appropriate Federal, State, tribal, local, or foreign law enforcement, intelligence, and regulatory agencies, foreign governments, and international law enforcement organizations, for example: the Department of Defense; the Department of State; the Department of the Treasury; the Central Intelligence Agency; the Selective Service System; the United Nations; and INTERPOL; as well as to other individuals and organizations during the course of an investigation by DHS or the processing of a matter under DHS' jurisdiction, or during a proceeding within the purview of the immigration and nationality laws, when DHS deems that such disclosure is necessary to elicit information required to accomplish the purposes described in this paragraph.

H. To an appropriate Federal, State, tribal, local, or foreign government agency or organization, or international organization, lawfully engaged in collecting law enforcement intelligence, whether civil or criminal, or charged with investigating, prosecuting, enforcing or implementing civil or criminal laws, related rules, regulations or orders, to enable these entities to carry out their law enforcement responsibilities, including the collection of law enforcement intelligence, but only when the disclosure is appropriate to the proper performance of the official duties of the person receiving the disclosure.

I. To an appropriate Federal, State, local, tribal, or foreign government agency, international organization, or private organization where the President or the Secretary of Department of Homeland Security has declared an event to be a National Special Security Event, if the information is relevant and necessary to a requesting agency's decision concerning the hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit, or if the information is relevant and necessary to a DHS decision concerning the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the

letting of a contract, or the issuance of a license, grant or other benefit, but only when disclosure is appropriate to the proper performance of the official duties of the person making the request.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

None.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored electronically at one or more ICE data centers that are located in secure facilities. The records are stored on magnetic disc, tape, digital media, and optical media, and may also be retained in hard copy format in secured file folders.

RETRIEVABILITY:

Data are retrievable by an individual's name, Social Security Number, A-File Number, or other unique identifier, as well as by non-identifying information such as address or date of entry into the United States.

SAFEGUARDS:

Information in this system is safeguarded in accordance with applicable laws and policies, including the DHS information technology security policies and the Federal Information Security Management Act (FISMA). All records are protected from unauthorized access through appropriate administrative, physical, and technical safeguards. These safeguards include restricting access to authorized personnel who have a need-to-know, using locks, and password protection features. The system is also protected through a multi-layer security approach. The protective strategies are physical, technical, administrative and environmental in nature, which provide access control to sensitive data, physical access control to DHS facilities, confidentiality of communications, authentication of sending parties, and personnel screening to ensure that all personnel with access to data are screened through background investigations commensurate with the level of access required to perform their duties.

The system also maintains a real-time auditing log of individuals who access and update the system. Audit logs are reviewed and analyzed for unauthorized and inappropriate system usage. DHS will investigate instances of unauthorized or inappropriate access or use of the system and take appropriate disciplinary actions where violations have occurred.

RETENTION AND DISPOSAL:

The National Archives Records Administration has not yet approved a retention schedule for this system of records. Because a history of Federal law enforcement interactions with persons and organizations is essential to detecting criminal and terrorist patterns of behavior and locating leads in current investigations, ICE has proposed to retain records in ICEPIC for ten (10) years from ICE's last use of the individual's data, and then archive the information for an additional five (5) years. After the five (5) year period, information will be destroyed unless it has become relevant to a legal action, at which point the retention schedule would reset.

SYSTEM MANAGER(S) AND ADDRESS:

Steven W. Cooper, Executive Information Unit, Office of Investigations, U.S. Immigration and Customs Enforcement, 425 I St., NW., Washington, DC 20536, telephone: (202) 616-7571.

NOTIFICATION PROCEDURES:

Pursuant to 5 U.S.C. 552a (j) and (k), this system of records may not be accessed by members of the public for purposes of determining if the system contains a record pertaining to a particular individual. Nonetheless persons may seek access to records maintained in ICEPIC as outlined in the Record Access Procedures section below. Requests for such access will be reviewed on a case-by-case basis.

RECORD ACCESS PROCEDURES:

ICEPIC is exempt from record access procedures pursuant to 5 U.S.C. 552a (j) and (k). Nonetheless persons may seek access to records maintained in ICEPIC by contacting FOIA/Privacy Act request to the Office of Investigations, Information Disclosure Unit, 425 I St., NW., Washington, DC 20536 and using the form found at <http://www.ice.gov/doclib/g-639.pdf>. Requests for such access will be reviewed on a case-by-case basis to ensure that the records meet the requirements set out by the Privacy Act.

CONTESTING RECORD PROCEDURES:

This system is exempt from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4) (G) and (H), and (f) pursuant to 5 U.S.C. 552a(j)(2), (k)(2); however, requests for amendment of records may be reviewed on a case-by-case basis. Follow the "Record Access Procedures" noted above.

RECORD SOURCE CATEGORIES:

Information contained in the system is obtained from DHS investigators, other DHS law enforcement officers,

other Federal, State, foreign and tribal law enforcement and intelligence agencies, public records, commercial data aggregators, and immigration and alien admission records systems.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

Pursuant to exemption 5 U.S.C. 552a(j)(2) of the Privacy Act, portions of this system are exempt from 5 U.S.C. 552a(c) (3) and (4); (d); (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(5) and (e)(8); (f), and (g). Pursuant to 5 U.S.C. 552a (k)(2), this system is exempt from the following provisions of the Privacy Act, subject to the limitations set forth in those subsections: 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (f). In addition, to the extent a record contains information from other exempt systems of records, ICE will rely on the exemptions claimed for those systems.
