SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0715.

Title: Telecommunications Carriers' Use of Customer Proprietary Network Information (CPNI) and Other Customer Information, CC Docket No. 96-115.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 6,017 respondents; 137,256,125 responses.

Estimated Time per Response: 0.153 minutes.

Frequency of Response: On occasion, biennial, annual, and one time reporting requirements; recordkeeping; and third party disclosure.

Obligation to Respond: Mandatory as required by section 222 of the Communications Act of 1934, as amended, 47 U.S.C. 222.

Total Annual Burden: 350,704 hours.

Total Annual Cost: \$3,000,000.

Privacy Act Impact Assessment: No impacts.

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: Section 222 of the Communications Act of 1934, as amended, 47 U.S.C. 222, establishes a duty of every telecommunications carrier to protect the confidentiality of its customers' CPNI, which includes personally identifiable information derived from a customer's relationship with a provider of communications services. This information collection implements the statutory obligations of section 222. These regulations impose safeguards to protect customers' CPNI against unauthorized access and disclosure. In March 2007, the Commission adopted new rules in the *CPNI Order*, CC Docket No. 96-115 et al., FCC 07-22, which focused on the efforts of providers of communications services to prevent pretexting. These rules required providers of communications services to adopt additional privacy safeguards that, the Commission believes, will sharply limit pretexters' ability to obtain unauthorized access to the type of personal customer information from carriers that the Commission regulates. In addition, in furtherance of the Telephone Records and Privacy

Protection Act of 2006, the Commission's rules help ensure that law enforcement will have necessary tools to investigate and enforce prohibitions on illegal access to customer records.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority, Comments Requested

January 29, 2008.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995 (PRA), 44 U.S.C. Sections 3501-3520. An agency may not conduct or sponsor a collection of information unless it displays a current valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid control number. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written PRA comments should be submitted on or before April 4, 2008. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit all PRA comments by e-mail or U.S. mail. To submit your comments by e-mail, send them to PRA@fcc.gov. To submit your comments by U.S. mail, send them to Leslie F. Smith, Federal Communications Commission, Room 1-

C216, 445 12th Street, SW., Washington, DC 20554, or via the Internet to PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s), contact Leslie F. Smith via the Internet at PRA@fcc.gov or call (202) 418-0217.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1005.

Title: Numbering Resource Optimization—Phase 3.

Form Numbers: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Businesses or other for profit; State, local or tribal government.

Number of Respondents and Responses: 17 respondents; 17 responses.

Estimated Time per Response: 55-85 hours.

Obligation to Respond: Required to obtain or retain benefits.

Frequency of Response: On occasion reporting requirement; third party disclosure.

Total Annual Burden: 860 hours.

Annual Cost Burden: None.

Privacy Act Impact Assessment: No impacts.

Nature of Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: In the Communications Act of 1934, as amended by the Telecommunications Act of 1996, the Federal Communications Commission ("Commission") was given "exclusive jurisdiction over those portions of the North American Numbering Plan (NANP) that pertains to the United States." To ensure that the numbering resources of the NANP continue to be used efficiently, the Commission requires that applications to state commissions from carriers must demonstrate that certain requirements are met before states grant any use of the safety valve mechanism. It also requires that State commissions seeking to implement service-specific and/or technology-specific area code overlays, must request delegated authority to do so. The information collected by the FCC and state commissions will be used to assist these regulatory bodies in their efforts to maximize the efficiency with which numbering resources in the NANP are utilized.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0027.

Type of Review: Extension of a currently approved collection.

Title: Application for Construction Permit for Commercial Broadcast Station.

Form Number: FCC Form 301.

Respondents: Business or other for-profit entities; not-for-profit institutions.

Number of Respondents: 4,278.

Estimated Time per Response: 2 to 4 hours.

Frequency of Response: On occasion reporting requirement; one time reporting requirement; third party disclosure requirement.

Total Annual Burden: 10,513 hours.

Total Annual Cost: \$51,350,347.

Needs and Uses: Congress has mandated that after February 17, 2009, full-power television broadcast stations must transmit only in digital signals, and may no longer transmit analog signals. On December 22, 2007, the Commission adopted a Report and Order in the matter of the *Third Periodic Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television*, MB Docket No. 07-91, FCC 07-228, to establish the rules, policies and procedures necessary to complete the nation's transition to DTV. With the DTV transition deadline less than 14 months away, the Commission must ensure that broadcasters meet their statutory responsibilities and complete construction of, and begin operations on, the facility on their final, post-transition (digital) channel that will reach viewers in their authorized service areas by the statutory transition deadline, when they must cease broadcasting in analog. The Commission wants to ensure that no consumers are left behind in the DTV transition.

Specifically, the Report and Order requires full-power commercial television stations to use revised FCC Form 301 to obtain the necessary Commission approvals (*i.e.*, construction permits and licenses) in time to build their post-transition facility.

- *Applications for post-transition facilities.* Full-power commercial television stations without a construction permit for their final, post-transition (DTV) facility must file an application to construct or modify that facility using FCC Forms 301.

- *Requests to transition early to post-transition channel.* Full-power commercial television stations may request authority to transition early to their post-transition channel using FCC Form 301.

- *Revisions to FCC Form 301.* FCC Form 301 was revised to accommodate the filing of post-transition applications.

The FCC received approval under the "emergency processing provisions" of the PRA on January 7, 2008. The requirements for this collection have not changed since we received approval.
