

Proposed Rules

Federal Register

Vol. 73, No. 26

Thursday, February 7, 2008

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1260

[No. LS-07-0141]

Beef Promotion and Research; Reapportionment

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would adjust representation on the Cattlemen's Beef Promotion and Research Board (Board), established under the Beef Promotion and Research Act of 1985 (Act), to reflect changes in cattle inventories and cattle and beef imports that have occurred since the most recent Board reapportionment rule became effective in February of 2005. These adjustments are required by the Beef Promotion and Research Order (Order) and would result in an increase in Board membership from 104 to 106, effective with the Department of Agriculture's (Department) appointments for terms beginning early in the year 2009.

DATES: Written comments must be received by March 10, 2008.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

The Office of Management and Budget (OMB) has waived the review process required by Executive Order 12866 for this action.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect.

Section 11 of the Act provides that nothing in the Act may be construed to preempt or supersede any other program relating to beef promotion organized and operated under the laws of the United States or any State. There are no administrative proceedings that must be exhausted prior to any judicial challenge to the provisions of this rule.

Regulatory Flexibility Act and Paperwork Reduction Act

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601-612), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic effect of this action on small entities and has determined that this proposed rule will not have a significant economic impact on a substantial number of small entities. The purpose of RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly burdened.

In the February 2007 publication of "Farms, Land in Farms, and Livestock Operations," the Department's National Agricultural Statistics Service (NASS) estimates that in 2006 the number of operations in the United States with cattle totaled approximately 970,000. The majority of these operations that are subject to the Order may be classified as small entities.

The proposed rule imposes no new burden on the industry. It only adjusts representation on the Board to reflect changes in domestic cattle inventory and cattle and beef imports. The adjustments are required by the Order and would result in an increase in Board membership from 104 to 106.

Background and Proposed Action

The Board was initially appointed August 4, 1986, pursuant to the

provisions of the Act (7 U.S.C. 2901-2911) and the Order issued thereunder. Domestic representation on the Board is based on cattle inventory numbers, and importer representation is based on the conversion of the volume of imported cattle, beef, or beef products into live animal equivalencies.

Section 1260.141(b) of the Order provides that the Board shall be composed of cattle producers and importers appointed by the Department from nominations submitted by certified producer organizations. A producer may only be nominated to represent the unit in which that producer is a resident.

Section 1260.141(c) of the Order provides that at least every 3 years and not more than every 2 years, the Board shall review the geographic distribution of cattle inventories throughout the United States and the volume of imported cattle, beef, and beef products and, if warranted, shall reapportion units and/or modify the number of Board members from units in order to reflect the geographic distribution of cattle production volume in the United States and the volume of cattle, beef, or beef products imported into the United States.

Section 1260.141(d) of the Order authorizes the Board to recommend to the Department modifications to the number of cattle per unit necessary for representation on the Board.

Section 1260.141(e)(1) provides that each geographic unit or State that includes a total cattle inventory equal to or greater than 500,000 head of cattle shall be entitled to one representative on the Board. Section 1260.141(e)(2) provides that States that do not have total cattle inventories equal to or greater than 500,000 head shall be grouped, to the extent practicable, into geographically-contiguous units, each of which have a combined total inventory of not less than 500,000 head. Such grouped units are entitled to at least one representative on the Board. Each unit that has an additional 1 million head of cattle within a unit qualifies for additional representation on the Board as provided in § 1260.141(e)(4). As provided in § 1260.141(e)(3), importers are represented by a single unit, with the number of Board members based on a conversion of the total volume of imported cattle, beef, or beef products into live animal equivalencies.

The initial Board appointed in 1986 was composed of 113 members. Reapportionment, based on a 3-year average of cattle inventory numbers and import data, reduced the Board to 111 members in 1990 and 107 members in 1993 before the Board was increased to 111 members in 1996. The Board was decreased to 110 members in 1999, 108 members in 2001, 104 members in 2005, and will be increased to 106 members with appointments for terms effective early in 2009.

The current Board representation by States or units was based on an average of the January 1, 2002, 2003, and 2004, inventory of cattle in the various States as reported by NASS. Current importer representation was based on a combined total average of the 2001, 2002, and 2003 live cattle imports as published by the Department's Foreign Agricultural Service and the average of the 2001, 2002, and 2003 live animal equivalents for imported beef products.

Recommendations concerning Board reapportionment were presented to the Board at its September 20, 2007, meeting, and were approved by the Executive Committee, on behalf of the Board, on October 16, 2007. In considering reapportionment, the Board reviewed cattle inventories as well as cattle, beef, and beef product import data for the period of January 1, 2005, to January 1, 2007. The Board recommended that a 3-year average of cattle inventories and import numbers should be continued. The Board determined that an average of the January 1, 2005, 2006, and 2007, Department cattle inventory numbers would best reflect the number of cattle in each State or unit since publication of the last reapportionment rule published in 2005.

The Board reviewed data published by the Department's Economic Research Service to determine proper importer representation. The Board recommended the use of a combined total of the average of the 2004, 2005, and 2006, cattle import data and the average of the 2004, 2005, and 2006, live animal equivalents for imported beef products. The method used to calculate the total number of live animal equivalents was the same as that used in the previous reapportionment of the Board, except that the live animal equivalent weight was changed in 2006 from 509 pounds to 592 pounds. The recommendation for importer representation is based on the most recent 3-year average of data available to the Board at its September 20, 2007, meeting to be consistent with the procedures used for domestic representation.

The Board's recommended reapportionment plan would increase the number of representatives on the Board from 104 to 106. One State—Nebraska—would gain one member. The importer unit would also gain one member. The States and units affected by the reapportionment plan and the current and proposed member representation per unit are as follows:

State/unit	Current representation	Proposed representation
1. Nebraska	6	7
2. Importer	8	9

The 2008 nomination and appointment process was in progress while the Board was developing its recommendations. Thus, the Board reapportionment as proposed by this rulemaking would be effective, if adopted, with appointments that will be effective early in the year 2009.

A 30-day comment period is provided to allow interested persons to respond to this proposal. Thirty days is deemed appropriate to facilitate the adjustment of the representation on the Board, which is required by the Order at least every 3 years, and not more than every 2 years. To permit timely execution of the annual nomination and appointment process, publication of a subsequent final rule must occur as soon as practical.
