

listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 8(b) of TSCA requires EPA to compile and keep current an Inventory of Chemical Substances in Commerce, which is a listing of chemical substances manufactured, imported, and processed for commercial purposes in the United States. The purpose of the Inventory is to define, for the purpose of TSCA, what chemical substances exist in U.S. commerce. Since the Inventory thereby performs a regulatory function by distinguishing between existing chemicals and new chemicals, which TSCA regulates in different ways, it is imperative that the Inventory be accurate.

However, from time to time, EPA or respondents discover that substances have been incorrectly described by reporting companies. Reported substances have been unintentionally misidentified as a result of simple typographical errors, the misidentification of substances, or the lack of sufficient technical or analytical capabilities to characterize fully the exact chemical substances. EPA has developed guidelines (45 FR 50544, July 29, 1980) under which incorrectly described substances listed in the Inventory can be corrected. The correction mechanism ensures the accuracy of the Inventory without imposing an unreasonable burden on the chemical industry. Without the Inventory correction mechanism, a company that submitted incorrect information would have to file a premanufacture notification (PMN) under TSCA section 5 to place the correct chemical substance on the Inventory whenever the previously reported substance is found to be misidentified. This would impose a much greater burden on both EPA and the submitter than the existing correction mechanism. This information collection applies to reporting and recordkeeping activities associated with the correction of misreported chemical substances found on the TSCA Inventory.

Responses to the collection of information are voluntary. Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to be 2.25 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are manufacturers or importers of chemical substances, mixtures or categories listed on the TSCA Inventory and regulated under TSCA section 8, who had reported to the initial effort to establish the TSCA Inventory in 1979, and who need to make a correction to that submission.

Frequency of Collection: On occasion.

Estimated average number of responses for each respondent: 1.

Estimated No. of Respondents: 9.

Estimated Total Annual Burden on Respondents: 20 hours.

Estimated Total Annual Costs: \$1,061.

Changes in Burden Estimates: There is no net change in the total estimated respondent burden compared with that currently in the OMB inventory.

Dated: February 5, 2008.

Sara Hisel-McCoy,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8527-9]

The Sixteenth Meeting of the Mississippi River/Gulf of Mexico Watershed Nutrient Task Force

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; meeting announcement.

SUMMARY: This notice announces the Sixteenth Public Meeting of the Mississippi River/Gulf of Mexico Watershed Nutrient Task Force. The purpose of this Task Force, consisting of federal and state members, is to lead efforts to coordinate and support nutrient management and hypoxia-related activities in the Mississippi River and Gulf of Mexico watersheds. The matter for discussion at the meeting is to seek approval on the revised 2001 Action Plan for Reducing, Mitigating, and Controlling Hypoxia in the Northern Gulf of Mexico for release in March 2008. The public will be afforded an opportunity to provide input to the Task Force during open discussion periods.

DATES: The public meeting will be held on February 28, 2008, from 1-5 p.m. CST.

ADDRESSES: The meeting is located at Intercontinental Chicago, 505 N. Michigan Ave., Chicago, IL 60611. Telephone: (312) 321-8706. Additional information, meeting materials and meeting registration can be found at <http://www.epa.gov/msbasin>.

FOR FURTHER INFORMATION CONTACT: For registration and other information contact Kristen Goodrich, U.S. EPA, Oceans and Coastal Protection Division (OCPD), Mail Code 4504T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; Phone (202) 566-1284; E-mail: OW-hypoxia@epa.gov.

Dated: February 6, 2008.

Craig Hooks,

Director, Office of Wetlands, Oceans and Watersheds.
