

used to calculate the RFS for the coming year. The October 2007 STEO projects that an average of 9.42 million barrels/day of gasoline will be consumed in all of the United States in 2008.

Multiplying this average consumption rate by 366 days (2008 is a leap year) produces a total consumption of 144.80 billion gallons of gasoline in 2008.

Only one non-contiguous state or territory has petitioned EPA to opt into the RFS Program beginning in 2008. Hawaii petitioned EPA on June 22, 2007 to opt into the RFS program, and EPA approved their request.¹ Thus, Alaska is the only one of the 50 states that is not included in the RFS Program.

In order to calculate gasoline consumption in the 48 contiguous states plus Hawaii, we subtracted Alaska's projected gasoline consumption from the projected nationwide gasoline consumption of 144.80 billion gallons. Alaska's projected gasoline consumption was calculated by multiplying the projected nationwide gasoline consumption in 2008 by the ratio of Alaska's gasoline consumption in 2006 to the total U.S. consumption in 2006, based on Table 48, "Prime Supplier Sales Volumes of Motor Gasoline by Grade Formulation, PAD District, and State" gasoline data from EIA's *Petroleum Marketing Annual 2006* (the final rulemaking used data from *Petroleum Marketing Annual 2005*). According to EIA, Prime Supplier data reflects where gasoline is used, rather than where it is produced.² Alaska's projected gasoline consumption in 2008

is 0.30 billion gallons. Subtracting this consumption from the projected nationwide consumption of 144.80 billion gallons in 2008 produces a total consumption of 144.50 billion gallons of gasoline in 2008 in the 48 contiguous states plus Hawaii.

Calculation of $(R_i + RS_i)$, total amount of renewable fuel blended into gasoline that is projected to be consumed in the 48 contiguous states plus opt-in states/territories, in year i , in gallons

The projected gasoline consumption in the October 2007 STEO includes renewable fuel that is blended into gasoline. This volume of renewable fuel must be subtracted from the total volume of gasoline in order to calculate the total consumption of non-renewable gasoline. In Table 8 of the October 2007 STEO, EIA estimates that 0.755 quadrillion Btu of ethanol will be used as transportation fuel in all of the United States in 2008. Dividing this energy usage by the high heating value of ethanol (3.539 million Btu/barrel), and multiplying by 42 gallons/barrel produces a total ethanol usage of 8.96 billion gallons nationwide in 2008.

Since Hawaii has opted in, but Alaska has not opted in, to the RFS program for 2008, Alaska's renewable fuels consumption must be subtracted from the nationwide renewable fuels consumption to calculate renewable consumption in the 48 contiguous states plus Hawaii. In Chapter 2 of the Regulatory Impact analysis for the RFS program rulemaking, EPA estimated that

ethanol consumption in Alaska would be negligible prior to 2012. Thus, we project renewable fuels consumption in the 48 contiguous states plus Hawaii to be 8.96 billion gallons in 2008.³ For purposes of recalculating the 2008 RFS, we will round this value to 9.0 billion gallons, which is equivalent to the volume of renewable fuel required by amended section 211(o) for 2008.

Calculation of GE_i , amount of gasoline projected to be produced by exempt small refineries and small refiners in year i , in gallons⁴

In the final rulemaking establishing the RFS program regulations, we stated that we would estimate the combined small refinery and small refiner gasoline volume using a constant percentage of national consumption. Using information from gasoline batch reports submitted to EPA, EIA data and input from the California Air Resources Board regarding California small refiners, we estimated this percentage to be 13.5%.⁵

Multiplying the projected nationwide consumption of gasoline in 2008 (144.80 billion gallons) by 13.5% results in a total projected production of 19.55 billion gallons of gasoline from small refiners and small refineries in 2008.

Calculation of $RFStd_i$, renewable fuel standard in year i , in percent

Substituting all of the terms calculated above into the equation for $RFStd_i$ results in the following RFS for 2008,

$$RFStd_i = 100 \times \frac{9.0}{144.50 - 9.0 - 19.55} = 7.76\%$$

Therefore, the RFS for 2008 is 7.76%. This is the standard referenced in 40 CFR 80.1105(b) through (d) and which obligated parties apply to determine their renewable volume obligation under 40 CFR 80.1107. This recalculated 2008 RFS supersedes, and therefore replaces for all purposes, the 2008 standard published by EPA on November 27, 2007.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

Meetings; Sunshine Act

AGENCY HOLDING THE MEETING: Equal Employment Opportunity Commission.

DATE AND TIME: Tuesday, February 19, 2008, 10:30 a.m. eastern time.

PLACE: Clarence M. Mitchell, Jr. Conference Room on the Ninth Floor of the EEOC Office Building, 1801 "L" Street, NW., Washington, DC 20507.

STATUS: The meeting will be open to the public.

MATTERS TO BE CONSIDERED:

Relationship of Refiner and Prime Supplier Sales Volumes" (p. 382).

³ Table 2.2-21 "2012 Forecasted Ethanol Consumption by State," Regulatory Impact Analysis: Renewable Fuel Standard Program, April 2007.

Open Session

1. Announcement of Notation Votes, and

2. Obligation of Funds for a Temporary Interactive Voice Response (IVR) Non-competitive Housing Contract, a Non-competitive Extension of Software Licenses and a Competitive Contract for Technology Support of Customer Response Function.

Note: In accordance with the Sunshine Act, the meeting will be open to public observation of the Commission's deliberations and voting. (In addition to publishing notices on EEOC Commission meetings in the **Federal Register**, the

⁴ Through 2010 only, unless the exemption is extended under 211(o)(9)(A)(ii) or (B) of the Act.

⁵ "Calculation of the Small Refiner/Small Refinery Fraction for the Renewable Fuel Program," memo to the docket from Christine Brunner, ASD, OIAQ, EPA, September 2006.

Commission also provides a recorded announcement a full week in advance on future Commission sessions.)

Please telephone (202) 663-7100 (voice) and (202) 663-4074 (TTY) at any time for information on these meetings. The EEOC provides sign language interpretation at Commission meetings for the hearing impaired. Requests for other reasonable accommodations may be made by using the voice TTY numbers listed above.

CONTACT PERSON FOR MORE INFORMATION: Stephen Llewellyn, Executive Officer on (202) 663-4070.

Dated: February 12, 2008.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

January 24, 2008.

SUMMARY: The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

FOR FURTHER INFORMATION CONTACT:

Thomas Butler, Federal Communications Commission, (202) 418-1492 or via the Internet at Thomas.butler@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0804.

OMB Approval Date: 1/17/2008.

Expiration Date: 7/31/2008.

Title: Universal Service—Rural Health Care Program/Rural Health Care Pilot Program.

Form Number(s): FCC Forms 465, 466, 466-A, and 467.

Estimated Annual Burden: 6,494 respondents; 59,464 responses; 68,420 total annual hours; 0.10-20 hours per response.

Needs and Uses: In the Telecommunications Act of 1996 (1996 Act), Congress specifically intended that rural health care providers be provided with “an affordable rate for the services necessary for the provision of telemedicine and instruction relating to such services.” In 1997, the Commission

implemented this statutory directive by adopting the current Rural Health Care support mechanism, which provides universal service support to ensure that rural health care providers pay no more than their urban counterparts for their telecommunications needs and Internet access in the provision of health care services. Despite the Commission’s efforts to increase the utility of the Rural Health Care support mechanism, the program has yet to fully achieve the benefits intended by the statute and the Commission. In particular, health care providers continue to lack access to the broadband facilities needed to support the types of advanced telehealth applications, like telemedicine, that are vital to bringing medical expertise and the advantages of modern health technology to rural areas of the Nation. In response, the Commission issued the *2007 Rural Health Care Pilot Program Selection Order* (WC Docket No. 02-60; *FCC 07-198*) which selected 69 participants for the universal service Rural Health Care Pilot Program (which was originally established by the Commission in September 2006). These 69 participants represent 42 states and 3 U.S. territories and will be eligible for approximately \$417 million in universal service support over three years (or \$139 million per funding year) to: (1) Support up to 85 percent of the costs associated with the construction of state or regional broadband health care networks and with the advanced telecommunications and information services provided over those networks; and (2) support up to 85 percent of the costs of connecting to Internet2 or National LambdaRail, which are both dedicated nationwide backbones, or to the public Internet. To minimize the burden on Pilot Program participants and to streamline the process, the Commission generally uses the same forms as the existing Rural Health Care support mechanism. For example, Selected Participants, in order to receive support, must submit an FCC Form 465 (seeking bids), FCC 466-A (selection of service provider), and FCC Form 467 (notification of service initiation). Due to the unique structure of the Pilot Program, however, in the *2007 Rural Health Care Pilot Program Selection Order*, the Commission provides guidance regarding how these forms should be completed and additional information is required from Selected Participants, including, proposed network costs worksheets, certifications, letters of agency from each participating health care provider, invoices showing actual incurred costs, and, if applicable, network design studies.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority, Comments Requested

February 8, 2008.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Subject to the PRA, no person shall be subject to any penalty for failing to comply with a collection of information that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written PRA comments should be submitted on or before April 14, 2008. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit all PRA comments by e-mail or U.S. mail. To submit your comments by e-mail, send them to PRA@fcc.gov. To submit your comments by U.S. mail, send them to Jerry Cowden, Federal Communications Commission, Room 1-B135, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s), contact Jerry
