SUPPLEMENTARY INFORMATION:

Title: National Childhood Injury and Occupational Injury Survey of Farm Operators.

OMB Control Number: 0535-0235.

Expiration Date of Approval: 06/30/2008.

Type of Request: To extend and revise its title and scope of the currently approved information collection to The National Childhood Injury and Occupational Injury Survey of Minority Farm Operators.

Abstract: The National Childhood Injury and Occupational Injury Survey of Minority Farm Operators is designed to: (1) Provide estimates of childhood nonfatal injury incidence and description of injury occurring to children less than 20 years of age who reside on, work on, or visit minority farms and (2) describe the occupational injury experience of minority farm operators. Data will be collected by telephone from all 50 states with 25,000 operations receiving a Childhood Injury version only and 25,000 receiving a combined Childhood Injury and Occupational Injury version. Questions will relate to injury problems occurring during the 2008 calendar year.

These data will update and enhance existing data series used by the National Institute of Occupational Safety and Health to: (1) Establish a measure of the number and rate of childhood injuries associated with farming operations and study the specific types of injuries sustained and (2) describe the scope and

magnitude of occupational injuries associated with farming operations. The collection combines the childhood and occupational injury studies to reduce the number of contacts on the targeted farm population.

Reports will be generated and information disseminated to all interested parties concerning the finding of this study.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13 codified at 44 U.S.C. 3501, et seq.) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995).

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3 minutes per response for the childhood injury questions and 10 minutes for the combined interview; screen-outs will be allowed early in both instruments if no injuries were incurred.

Respondents: Farm operators.

Estimated Number of Respondents: 50,000.

Estimated Total Annual Burden on Respondents: 5,400 hours.

Copies of this information collection and related instructions can be obtained without charge from the YA NASS Clearance Officer, at (202) 720-2248.

Comments: Comments are invited on:

(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, January 14, 2008.
