

DTC initially filed to implement the FCP Option, the issues providing for multiple currencies payments were foreign denominated.³ The wording of the filing inadvertently put participants holding U.S. denominated securities at a disadvantage with respect to the FCP Option. This rule change remedies this unintentional result by allowing the FCP Option to be used with respect to U.S. denominated securities.

Designation of Payment Option After Initial Issuance

The rule change allows for the use of the FCP Option for DTC-eligible securities that were not initially issued with the option of payment in multiple currencies. Additionally, DTC is amending its rules to allow an issuer or its agent to use the FCP Option to add an additional currency to the payment options originally offered in relation to a DTC-eligible security.⁴ In such a case, the issuer or its agent would instruct DTC within prescribed time frames and in a form satisfactory to DTC to send out a notice to participants holding positions in the subject security to inform them of the payment options for a particular payment event. Such a notice would contain all necessary information for a participant to be able to elect a particular currency option. The method of payment (U.S. dollars within DTC or foreign currency outside of DTC) and the election process would remain the same.

III. Discussion

Section 17A(b)(3)(F) of the Act requires that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions. In the 1994 order approving DTC's original rule allowing the foreign currency payment option, the Commission found that the FCP Option facilitates the immobilization of certificates at DTC and therefore reduces the costs to secondary market participants by increasing the use of book-entry

settlement.⁵ Similarly, we find that the proposed rule change by extending the FCP Option to U.S. denominated securities and to securities not originally issued with the option of receiving payments in multiple currencies should achieve the same result. As a result of the proposed rule change, DTC participants holding these securities will no longer have to withdraw their shares from DTC in order to receive payments in foreign currencies offered by an issuer or its agent. The proposed rule change should, therefore, provide cost savings and should expand the efficiencies related to book-entry transfer for DTC participants. For these reasons we find that the proposed rule change is designed to promote the prompt and accurate clearance and settlement of securities transactions consistent with DTC obligations under section 17A(b)(3)(F).

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act and in particular section 17A of the Act and the rules and regulations thereunder.⁶

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the proposed rule change (File No. SR-DTC-2007-13) be and hereby is approved.

For the Commission by the Division of Trading and Markets, pursuant to delegated authority.⁷

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-57308; File No. S7-03-08]

Notice of Solicitation of Public Views Regarding Practices Being Developed To Deal With the Increasing Number of Senior Investors

On February 8, 2008, the Commission issued Press Release No. 2008-16 announcing that the Commission staff, in coordination with FINRA and NASAA, would be seeking information from all interested parties (including investors, broker-dealers and investment

advisers) concerning the particular practices that have been developed and are being developed to responsibly deal with the increasing number of senior investors. The goal of the project is to identify industry practices in dealing with senior investors that appear to be effective in ensuring that the firms deal fairly with senior investors, and to provide information about these practices publicly. It is anticipated that the staff will prepare a report summarizing the project and practices identified.

The Commission asks all parties to share effective practices in the following areas:

- Marketing and advertising to seniors (including information such as procedures to review this material);
- Account opening (including information such as any additional disclosures provided to seniors, any review conducted on account opening documents; and information obtained about the customer);
- Product and account review (including information such as whether the firm has any specific guidelines for selling particular products to senior investors, additional or enhanced reviews of purchases);
- Ongoing review of the relationship and appropriateness of products (including information such as who conducts review, frequency of review, any guidelines for appropriateness of products and procedures);
- Discerning and meeting the changing needs of customers as they age (including information such as procedures for handling customer accounts if the customer becomes unable to make their own investment decisions, required documentation, and any review of customer accounts as the customer ages to ensure customers investment objectives are being met);
- Surveillance and compliance reviews (including information such as exception reports; description of the types of reviews conducted, and procedures or guidance given to the reviewer); and
- Training for firm employees (including information such as who is required to attend the training, when was training implemented, and any written procedures).

If you wish to send us your views, please submit them by hard copy or e-mail, but not by both methods on or before April 1, 2008. We strongly encourage electronic submissions. You may submit your written views electronically at the following electronic mail address: rule-comments@sec.gov. We do not edit personal identifying information, such as names or electronic

⁴ For example, payment in a different currency than that offered when a security was initially issued might be desirable in the event of a change in tax withholding legislation subsequent to the initial issuance which might make it more attractive for investors from a particular country to hold position in a security. It would in turn be helpful for such investors to have the ability to receive payments in relation to the subject security in their home country currency.
