General information about the EPA SAB, as well as any updates concerning the meeting announced in this notice, may be found on the SAB Web site at: <http://www.epa.gov/sab>.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the SAB Ecological Processes and Effects Committee will hold a public meeting to provide advice on the EPA Ecological Research Program's Multi-Year Plan and discuss other Committee business. The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

*Background:* The EPA Office of Research and Development has developed a draft Ecological Research Program Multi-Year Plan that establishes long-term and annual goals for the Agency's Ecological Research Program and discusses planned research. The Multi-Year Plan describes a new direction for the Ecological Research Program intended to fill the need for a better understanding of the implications of human impacts on ecosystems and the services they provide. The redirected Ecological Research Program builds on past research efforts in ecosystem monitoring, restoration, and functioning to develop operational methods for incorporating quantitative information on ecosystem services into decision making.

EPA's Office of Research and Development has requested that the SAB provide advice on the program focus, research questions, and implementation approach articulated in the Agency's draft Ecological Research Program Multi-Year Plan. The SAB has been asked to comment on: (1) The utility of the program in offering meaningful contributions to ecological sciences and providing useful information for decision making, (2) the adequacy of the proposed goals, objectives, and research questions in meeting the overall purpose of the program, (3) the proposed implementation approach, (4) anticipated challenges to achieving the overall goal of the program, and (5) ways to measure the progress, productivity, efficiency, and effectiveness of the program.

To augment the expertise on the SAB Ecological Processes and Effects Committee, the SAB Staff Office has selected several SAB committee members with expertise in valuing ecosystem services to participate in this advisory activity. The roster and biosketches of members of the Ecological Processes and Effects Committee augmented for the advisory on EPA's Ecological Research Program are posted on the SAB Web site at: <http://www.epa.gov/sab>.

*Availability of Meeting Materials:* The draft Ecological Research Program Multi-Year Plan to be reviewed by the SAB Committee will be posted on the EPA Office of Research and Development SAB Web site at: <http://www.epa.gov/ord/htm/multi-yearplans.htm>. The EPA technical contact for the Ecological Research Program Multi-Year Plan is Dr. Rick Linthurst, EPA Office of Research and Development. Dr. Linthurst may be contacted by telephone at (919) 541-
