Synopsis of the Order

1. In the *Order*, the Commission amends its rules to delegate authority to

the Public Safety and Homeland Security Bureau (Bureau) to administer part 4 of the Commission’s rules, which pertain to disruptions to communications.

2. On March 17, 2006, the Commission established the Bureau in order to promote a more efficient, effective and responsive organizational structure and to better promote and address public safety, homeland security, national security, emergency management and preparedness, disaster management, and related issues. Establishment of the Public Safety and Homeland Security Bureau, *Order*, 21 FCC Rcd 13655 (2006). The delegation of authority to the Bureau to administer the part 4 rules is consistent with the purpose and functions of the Bureau.

3. The delegation of this authority to the Bureau comports with § 0.191(g) of the Commission’s rules, which provides, in pertinent part, that the Bureau “[c]onducts studies of public safety, homeland security, national security, emergency management and preparedness, disaster management, and related issues. Develops and administers recordkeeping and reporting requirements for communications companies pertaining to these issues. Administers any Commission information collection requirements pertaining to public safety, homeland security, national security, emergency management and preparedness, disaster management, and related issues.” 47 CFR 0.191(g). The delegation of this authority to the Bureau is also consistent with § 0.392 of the Commission’s rules, 47 CFR 0.392, which gives the Bureau delegated

authority to perform all functions of the Bureau described in § 0.191 of the Commission's rules. Further, the action we take in this Order is consistent with § 4.11 of the Commission's rules, which states that when outage reports cannot be submitted electronically using the Commission-approved Web-based system, written reports should be filed and all hand-delivered outage reports should be addressed to the Federal Communications Commission, The Office of Secretary, Attention: Chief, Public Safety & Homeland Security Bureau. 47 CFR 4.11.

4. Authority for the adoption of the foregoing revisions is contained in sections 1, 4(i), 4(j), 5(b), 5(c), 201(b) and 303(r) of the Communications Act of 1934, as amended. 47 U.S.C. 151, 154(i), 154(j), 155(b), 155(c), 201(b) and 303(r).

5. The adopted amendments pertain to agency organization, procedure and practice. Consequently, the notice and comment provisions of the Administrative Procedure Act contained in 5 U.S.C. 553(b) are inapplicable.

6. Accordingly, the Commission ordered that part 0 of the Commission Rules, set forth in Title 47 of the Code of Federal Regulations, be amended to delegate authority to the Public Safety and Homeland Security Bureau to administer part 4 of the Commission's rules, which pertain to disruptions to communications.

IP-Enabled Services, Telephone Number Portability, Numbering Resource Optimization

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission adopted rules extending local number portability obligations and numbering administration support obligations to interconnected VoIP services and responded to the District of Columbia Circuit Court of Appeals stay of the Commission's *Intermodal Number Portability Order*.

DATES: Effective March 24, 2008.

ADDRESSES: Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Melissa Kinkel, Wireline Competition Bureau, (202) 418-1580.

SUPPLEMENTARY INFORMATION: In this Order, the Commission undertakes several steps to help ensure that consumers and competition benefit from local number portability (LNP) as intended by the Communications Act of 1934, as amended (the Act) and Commission precedent. First, the Commission extends LNP obligations and numbering administration support obligations to encompass interconnected VoIP services. Second, the Commission issues a Final Regulatory Flexibility Analysis (FRFA) in response to the D.C. Circuit's stay of the Commission's *Intermodal Number Portability Order*. The Commission finds that wireline carriers qualifying as small entities under the Regulatory Flexibility Act (RFA) should be required to port to wireless carriers where the requesting wireless carrier's "coverage area" overlaps the geographic location in which the customer's wireline number is provisioned, provided that the porting-in carrier maintains the number's original rate center designation following the port.

The Commission will send a copy of this Report and Order and Order on Remand in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A).
