

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative for 30 days after the date of filing. However, Rule 19b-4(f)(6)(iii) permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the 30-day operative delay so that the Exchange can list and trade the Notes immediately. The Exchange states that the proposed rule change does not significantly affect the protection of investors or the public interest and does not impose any significant burden on competition. The Exchange further believes that the proposal is non-controversial because, although the Index fails to meet the requirements set forth in NYSE Arca Equities Rule 5.2(j)(6)(B)(I)(1)(b)(ii) by a small amount, the Notes currently satisfy all of the other applicable generic listing standards under NYSE Arca Equities Rule 5.2(j)(6) and all other requirements applicable to Equity Index-Linked Securities, as set forth in prior Commission orders approving the generic listing rules, including amendments thereto, relating to the listing and trading of Index-Linked Securities, generally, and Equity Index-Linked Securities, in particular. The Exchange notes that it has developed adequate trading rules, procedures, surveillance programs, and listing standards for the listing and trading of the Notes.

The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest.¹⁵ Given that the Notes comply with all of NYSE Arca's generic listing standards for Equity Index-Linked Securities (except for narrowly missing the requirement of NYSE Arca Equities Rule 5.2(j)(6)(B)(I)(1)(b)(ii)), the listing and trading of the Notes by NYSE Arca does not appear to present any novel or significant regulatory issues or impose any significant burden on competition. For these reasons, the Commission designates the proposed rule change as operative upon filing.

At any time within 60 days of the filing of the proposed rule change, the

provide the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has fulfilled this requirement.

¹⁵ For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
