

III. Discussion

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange⁷ and, in particular, the requirements of Section 6(b) of the Act⁸ and the rules and regulations thereunder. Specifically, the Commission finds that the proposal is consistent with Section 6(b)(5) of the Act,⁹ in that the proposal promotes just and equitable principles of trade, prevents fraudulent and manipulative acts, removes impediments to and perfects the mechanism of a free and open market and a national market system, and, in general, protects investors and the public interest.

The Commission considers that in most circumstances trades that are executed between parties should be honored. On rare occasions, the price of the executed trade indicates an "obvious error" may exist, suggesting that it is unrealistic to expect that the parties to the trade had come to a meeting of the minds regarding the terms of the transaction. In the Commission's view, the determination of whether an "obvious error" has occurred should be based on specific and objective criteria and subject to specific and objective procedures.

The provisions of Rule 24.16 that relate to an erroneous print or quote in the underlying market would be revised to permit the Exchange to designate the underlying or related instruments that can be used as a basis for determining whether there is an erroneous print or quote in such instrument that indicates an obvious error has occurred. This revision recognizes that market participants trading in the index, ETF, or HOLDRS options may base their options pricing on trading in various markets and instruments. By requiring the underlying related instrument to be derived from or track the same underlying index, the Exchange has set forth objective criteria that must be met before it can designate such underlying or related instrument for use in the obvious error analysis. The elimination of the provision for trades below intrinsic value would align Rule 24.16 with the Exchange's obvious error rule for equity options, which does not contain a similar provision. The revisions to the "no bid series"

provision incorporate additional objective factors to be used by CBOE in determining whether an obvious error exists.

In the Commission's view, the proposed changes to Rule 24.16 are appropriate and are consistent with the Act. These revisions provide reasonable and objective measures to assist the Exchange in ascertaining whether an obvious error has occurred in the aforementioned circumstances.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁰ that the proposed rule change (SR-CBOE-2007-03), as amended, is hereby approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Florence E. Harmon,
Deputy Secretary.
