k. *Description of Application*: The Authority filed a request for approval of a Facility Use Agreement (the Agreement) between the Authority and the Brazos Electric Power Cooperative, Inc. The Authority seeks approval of the Agreement under the requirements of standard Article 5 of the Authority's license issued September 14, 1989 (48 FERC ¶ 62,190) and section 22 of the Federal Power Act (FPA), 16 U.S.C. 815 (2000), as a contract for the sale of project power extending beyond the term of the project license. The license expires on August 31, 2019.

Under license Article 5, the Authority is required to obtain and retain title in fee in, or the right to use in perpetuity, project property necessary to fulfill project purposes, and the disposal of project property rights once acquired is subject to Commission approval. Section 22 of the FPA provides that contracts for the sale and delivery of power for periods extending beyond the termination date of a license may be entered into upon the joint approval of the Commission and the appropriate state public service Commission or other similar authority in the state in which the sale or delivery of power is made.

The Authority would retain ownership of all project facilities throughout the 30-year term of the Agreement, which is subject to a 10-year extension at the option of the Cooperative. The Agreement would supersede and replace the current contractual arrangements between the Authority and the Cooperative, which pertain to project operation and maintenance and the sale of project power.

[Docket No. CP07-208-001]

Rockies Express Pipeline LLC; Notice of Amendment

February 5, 2008.

Take notice that on January 25, 2008, Rockies Express Pipeline LLC (Rockies Express), 370 Van Gordon Street, Lakewood, Colorado 80228, filed an application in Docket No. CP07-208-001, pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations requesting authorization to amend its application to reflect moving the location of its proposed Hamilton Compressor Station in Warren County, Ohio and realigning the pipeline route for 3.9 miles in Warren and Butler Counties, Ohio to adjust for the move. Rockies Express states that the move is for environmental reasons and will result in de minimus change in the cost of its REX-East project, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding this application should be directed to Skip George, Manager of Regulatory, Rockies Express Pipeline LLC, P.O. Box 281304, Lakewood, Colorado 80228-8304, phone (303) 914-4969.

Any person desiring to intervene or to protest this filing must file in

accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protest on persons other than the Applicant.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit the original and 14 copies of the protest or intervention to the Federal Energy Regulatory

Commission, 888 First Street, NE., Washington, DC 20426.

Comment Date: February 26, 2008.

Kimberly D. Bose,

Secretary.
