Clean Air Interstate Rule: Notice of the Filing of Petition for Administrative Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of the filing of petition for administrative review.

SUMMARY: On November, 26 2007, Nelson Industrial Steam Company (NISCO) filed a petition requesting that the Environmental Appeals Board review the Clean Air Interstate Rule (CAIR) applicability determination made on October 22, 2007. In the applicability determination, EPA concluded that NISCO's Nelson Units 1 and 2 are CAIR SO₂, NO_x, and NO_x ozone season units because they meet the criteria for being such CAIR units under regulations of the EPA-administered CAIR trading programs.

SUPPLEMENTARY INFORMATION: In the applicability determination, EPA concluded that NISCO's Nelson Units 1 and 2 are CAIR SO₂, NO_x, and NO_x ozone season units because they meet the criteria for being such CAIR units under 40 CFR 97.104, 97.204, and 97.304 of the EPA-administered CAIR trading programs. This appeal was filed under 40 CFR part 78. Motions for leave to intervene in the proceeding under 40 CFR 78.11 must be filed by March 28, 2008 with the Environmental Appeals Board.

FEDERAL COMMUNICATIONS COMMISSION

[MB Docket No. 92-264; FCC 07-219]

The Commission's Cable Horizontal and Vertical Ownership Limits

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document proposes changes to the cable and broadcast attribution rules. The cable attribution rules seek to identify those corporate, financial, partnership, ownership, and other business relationships that confer on their holders a degree of ownership or other economic interest, or influence or control over an entity engaged in the provision of communications services such that the holders should be subject to the Commission's regulation. The broadcast attribution rules define which financial or other interests in a licensee must be counted in applying the broadcast ownership rules, and seek to identify "those interests in or relationships to licensees that confer on their holders a degree of influence or control such that the holders have a realistic potential to affect the programming decisions of licensees or other core operating functions." This document further proposes changes to the rules and regulations establishing reasonable limits on the number of channels on a cable system that can be occupied by a video programmer in which a cable operator has an attributable interest.
