DEPARTMENT OF ENERGY

Amended Record of Decision for the Remediation of the Moab Uranium Mill Tailings, Grand and San Juan Counties, UT

AGENCY: Office of Environmental Management, U.S. Department of Energy.

ACTION: Amended Record of Decision.

SUMMARY: The U.S. Department of Energy (DOE) is amending its decision regarding the transportation method that DOE will use to relocate uranium mill tailings and other contaminated materials (residual radioactive material) at the Moab milling site and vicinity properties in Utah. In its *Record of Decision for the Remediation of the Moab Uranium Mill Tailings, Grand and San Juan Counties, Utah* (70 FR 55358; September 21, 2005), DOE had decided to relocate the residual radioactive material using predominately rail, with truck transport for some oversized materials. Under this amended Record of Decision (ROD), DOE will use either truck and/or rail for all materials.

This ROD amendment is essential to give DOE flexibility needed to expedite completion of the Moab, Utah, Uranium Mill Tailings Remedial Action (UMTRA) Project. Expediting completion is in accordance with Congressional direction (Section 3402 of the National Defense Authorization Act for 2008 (Pub. L. 110-181)). This ROD amendment meets the strong stakeholder desire to relocate the residual radioactive material as soon as practicable by accelerating the date of the first shipment because truck shipments could start sooner since the logistics of initiating the rail alternative would require time to safely implement (i.e. building the hillside loadout infrastructure). In addition long-term risks would be reduced through earlier completion, and reducing total project costs would be reduced through greater flexibility and competition between rail and truck transporters.

DOE analyzed several transportation methods in its *Remediation of the Moab Uranium Mill Tailings, Grand and San Juan Counties, Utah, Final Environmental Impact Statement* (DOE/EIS-0355)(Final EIS), issued in August 2005. An all truck option was among the
