Federal Register

Vol. 73, No. 43

Tuesday, March 4, 2008

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

POSTAL SERVICE

39 CFR Part 111

Address Facing Standards for Presort Bundles on Pallets

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: Effective September 14, 2008, the Postal Service is proposing to require mailers to place presort bundles on pallets with the addresses facing up.

DATES: We must receive your comments on or before April 3, 2008.

ADDRESSES: Mail or deliver written comments to the Manager, Mailing Standards, U.S. Postal Service, 475 L'Enfant Plaza, SW., Room 3436, Washington, DC 20260-3436. You may inspect and photocopy all written comments at USPS Headquarters Library, 475 L'Enfant Plaza, SW., 11th Floor N, Washington, DC, between 9 a.m. and 4 p.m., Monday through Friday. Do not submit comments via fax or e-mail.

FOR FURTHER INFORMATION CONTACT: Kevin Gunther at 202-268-7208.

SUPPLEMENTARY INFORMATION: The Postal Service is in the process of implementing technological changes through the deployment of the Flats Sequencing System (FSS) to automate delivery sequencing for flat-size mail. FSS can sort flat-size mailpieces into delivery sequence, increasing the efficiency of letter carriers by reducing time in sorting mail, and allowing delivery to begin earlier in the day. As we approach deployment of FSS, we are closely examining other technologies that will enhance our efforts to make the most of this investment and achieve the lowest combined costs for handling flat-size mail.

Placement of presort bundles on pallets with the address side up is needed for efficient processing in today's processing environment and, eventually, for the automated preparation and induction for FSS in the future.

USPS® standards in *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 705.8.5.7 and 705.8.5.9 require mailers preparing presort bundles to ensure that the delivery address information on the top mailpiece in each bundle is visible and readable by the naked eye. Standards in 705.8.5.8 require that bundles counter-stacked on pallets must have all addresses facing up. Logically, these standards should include the requirement for all presort bundles placed on pallets to be arranged with the addresses facing up. Placing bundles on pallets with the addresses facing up aids in validation of the contents and greatly enhances manual distribution of the bundles.

Although exempt from the notice and comment requirements of the Administrative Procedure Act [5 U.S.C. of 553(b), (c)] regarding proposed rulemaking by 39 U.S.C. 410(a), we invite public comment on the following proposed revisions to the DMM, incorporated by reference in the *Code of Federal Regulations*. See 39 CFR 111.1.

Approval and Promulgation of Implementation Plans; State of Iowa

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the state of Iowa to demonstrate that the state meets the requirements of Section 110(a)(1) and (2) of the Clean Air Act (CAA). Section 110(a) of the CAA requires that each state adopt and submit a SIP for the implementation, maintenance and enforcement of each NAAQS promulgated by the EPA and is commonly referred to as an infrastructure SIP. In 1997, EPA promulgated the 8-hour ozone primary and secondary NAAQS. A revision to Iowa's SIP detailing how the state plans to ensure that the revised ozone standard is implemented, enforced, and maintained in Iowa was submitted on June 15, 2007. The submittal addressed all the elements of the October 2, 2007, guidance issued by the Office of Air Quality and Planning Standards with respect to infrastructure SIPs.

DATES: Comments on this proposed action must be received in writing by April 3, 2008.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R07-OAR-2007-1180 by one of the following methods:

FOR FURTHER INFORMATION CONTACT: Heather Hamilton at (913) 551-7039, or by e-mail at hamilton.heather@epa.gov.

SUPPLEMENTARY INFORMATION: In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no relevant adverse comments on this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the rules section of this **Federal Register**.
