

permits, interested persons who have not pre-registered may be permitted by the Chair of the HSRB to present oral comments at the meeting. Each individual or group wishing to make brief oral comments to the HSRB is strongly advised to submit their request (preferably via email) to the person listed under **FOR FURTHER INFORMATION CONTACT** no later than noon, Eastern time, April 1, 2008 in order to be included on the meeting agenda and to provide sufficient time for the HSRB Chair and HSRB Designated Federal Officer (DFO) to review the agenda to provide an appropriate public comment period. The request should identify the name of the individual making the presentation, the organization (if any) the individual will represent, and any requirements for audiovisual equipment (e.g., overhead projector, LCD projector, chalkboard). Oral comments before the HSRB are limited to five minutes per individual or organization. Please note that this limit applies to the cumulative time used by all individuals appearing either as part of, or on behalf of an organization. While it is our intent to hear a full range of oral comments on the science and ethics issues under discussion, it is not our intent to permit organizations to expand these time limitations by having multiple individuals sign up separately to speak on their behalf. Each speaker should bring 25 copies of his or her comments and presentation slides for distribution to the HSRB at the meeting. At the discretion of the Board Chair and DFO, public commenters, if present during the Board's discussion, may be asked to provide clarification of their comments to assist the Board in their discussion.

b. *Written comments.* Although you may submit written comments at any time, for the HSRB to have the best opportunity to review and consider your comments as it deliberates on its report, you should submit your comments at least five business days prior to the beginning of the meeting. If you submit comments after this date, those comments will be provided to the Board members, but you should recognize that the Board members may not have adequate time to consider those comments prior to making a decision. Thus, if you plan to submit written comments, the Agency strongly encourages you to submit such comments no later than noon, Eastern Time, April 1, 2008. You should submit your comments using the instructions in Unit I.C. of this notice. In addition, the Agency also requests that person(s) submitting comments directly to the docket also provide a copy of their

comments to the person listed under **FOR FURTHER INFORMATION CONTACT**. There is no limit on the length of written comments for consideration by the HSRB.

#### E. Background

##### A. Human Studies Review Board

The HSRB is a Federal advisory committee operating in accordance with the Federal Advisory Committee Act (FACA) 5 U.S.C. App.2 section 9. The HSRB provides advice, information, and recommendations to EPA on issues related to scientific and ethical aspects of human subjects research. The major objectives of the HSRB are to provide advice and recommendations on: a. Research proposals and protocols; b. reports of completed research with human subjects; and c. how to strengthen EPA's programs for protection of human subjects of research. The HSRB reports to the EPA Administrator through EPA's Science Advisor.

##### B. Topics for Discussion

The EPA will present for HSRB review scientific and ethical issues surrounding:

- An update on revisions to the EPA document, "Scientific and Ethical Approaches for Observational Exposure Studies," which the HSRB previously reviewed and commented on at the October 24–26, 2007 HSRB meeting.
- Two closely related product-specific reports from a single completed field study by Carroll-Loye Biological Research of the mosquito repellent efficacy of two registered pesticide products containing Deet.
- A research proposal from Insect Control & Research, Inc. to evaluate the laboratory efficacy in repelling stable flies of a registered pesticide product containing picaridin.
- Two research proposals from the Antimicrobial Exposure Assessment Task Force II (AEATF) to monitor exposures of subjects who apply an antimicrobial pesticide by wiping and by mopping. The AEATF proposals will consist of multiple documents including a "Governing Document" describing the larger research initiative of which these two studies are a part, a set of "Standard Operating Procedures" for the execution of the studies, a "Scenario Justification" describing the AEATF's rationale for key elements of each study design, and protocols for the mop study and for the wipe study.

In addition, the Agency will report to the Board on how it has resolved issues relating to the design of sampling strategies for handler research programs

proposed by the Agricultural Handlers Exposure Task Force and the Antimicrobials Exposure Assessment Task Force II. Finally, the HSRB may also discuss planning for future HSRB meetings.

#### C. Meeting Minutes and Reports

Minutes of the meeting, summarizing the matters discussed and recommendations, if any, made by the advisory committee regarding such matters will be released within 90 calendar days of the meeting. Such minutes will be available at <http://www.epa.gov/osa/hsrb/> and <http://www.regulations.gov> In addition, information concerning a Board meeting report, if applicable, can be found at <http://www.epa.gov/osa/hsrb/> or from the person listed under **FOR FURTHER INFORMATION CONTACT**.

A copy of the FCC submission to OMB will be displayed.

**SUPPLEMENTARY INFORMATION:** The Commission is requesting emergency OMB processing of this information collection and has requested OMB approval by March 14, 2008.

*OMB Control Number:* None.

*Title:* Information Needed in Requests for Waiver of June 26, 2008 Deadline for Rebanding Completion.

*Form No.:* Not applicable.

*Type of Review:* New collection.

*Respondents:* State, local or tribal governments; private sector.

*Number of Respondents:* 780 respondents; 1080 responses.

*Estimated Time Per Response:* 0.861 hour.

*Frequency of Response:* One to two-time reporting.

*Obligation to Respond:* Required to obtain or retain benefits.

*Total Annual Burden:* 930 hours.

*Total Annual Cost:* \$62,400.

*Nature and Extent of Confidentiality:*

The Commission will work with respondents to ensure that their concerns regarding the confidentiality of any proprietary or public safety-sensitive information are resolved in a manner consistent with the Commission's rules. See 47 CFR 0.459.

*Privacy Act Impact Assessment:* This information collection does not affect individuals or households, and therefore a privacy impact assessment is not required.

*Needs and Uses:* The information collection sought will enable the Commission to implement its rebanding program. Under that program, certain licensees are being relocated to new frequencies in the 800 MHz band, with all rebanding costs to be paid by Sprint Nextel Corporation (Sprint). The Commission's overarching objective in this proceeding is to eliminate interference to public safety communications. The Commission's orders provided for the 800 MHz licensees in non-border areas to complete rebanding by June 26, 2008. Those Orders also adopted various information collection requirements necessary to implement 800 MHz incumbent relocation, which have been approved by OMB (See OMB Control Number 3060-1080). Incumbent licensees may request a waiver of the relocation schedule. The Public Notice at issue here provides licensees guidance on what information they should submit as part of those waiver requests.

On January 17, 2008, the Commission released a Public Notice that established that any 800 MHz non-border licensee that will require additional time past June 26, 2008 to complete rebanding must request a waiver. The Commission stated that the "guidance contained in this Public Notice is intended to expedite both the preparation and submission of waiver requests by licensees as well as the review of such requests by the Bureau, consistent with the Commission's overarching goal of ensuring that rebanding is accomplished in a reasonable, prudent, and timely manner." The deadlines for filing waiver requests are March 17, 2008, for licensees in Waves 1 and 2 and April 15, 2008, for licensees in Wave 3. Licensees may also file interim waiver requests until they file a waiver request that will include a proposed rebanding timetable.

The Commission will make use of electronic collection techniques. It is expected that all respondents will employ electronic correspondence to

submit their responses. To further ease the burden imposed by this information collection, respondents are encouraged to make use of template forms created for the purpose of this collection. Those forms are publicly available.

Information will be sought concerning public safety systems that are being relocated to new frequencies under the Commission's 800 MHz rebanding program. We encourage licensees that are part of a regional coordination plan or that are otherwise coordinating their rebanding efforts to file coordinated requests as well as individual requests for each member of the regional coordination plan. We recommend that licensees address the following factors in their request: (1) System size and complexity; (2) interoperability with other systems, and how such interoperability will affect the ultimate rebanding schedule; and (3) steps already taken to complete physical reconfiguration, including participation in the Subscriber Equipment Deployment (SED) program and participation in a TA-sponsored regional planning session in its Public Safety Region (or commitment to participate in such a session). Licensees should provide a proposed timetable that includes the following elements: (1) What steps in the rebanding process have been or will be taken prior to the June 26, 2008 deadline; (2) anticipated dates of commencement and completion of (a) replacement or retuning of mobiles/portables, and (b) infrastructure retuning; (3) the anticipated date(s) that the licensee will commence operations on its post-rebanding channels and stop operations on its pre-rebanding channels; (4) additional rebanding steps that the licensee must take after commencement of operations on rebanded channels (e.g., removing old channels from radios) and the anticipated date for completion of these steps. The 800 MHz Transition Administrator has developed a template form for licensee use to provide the above information in their waiver requests. To expedite licensee preparation of requests and Bureau review, we recommend that licensees use this template in preparing their requests. Licensees that are unable to propose a specific timetable because they have not executed a Frequency Reconfiguration Agreement (FRA) with Sprint by the applicable deadline for filing a waiver request should file an interim extension request. The interim extension request should (1) state when the licensee anticipates having an FRA and (2) when the licensee anticipates filing a final waiver request that will

include a proposed timetable as described above.

## FEDERAL RESERVE SYSTEM

[Docket No. OP-1309]

### Policy on Payments System Risk

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Policy statement; request for comment.

**SUMMARY:** The Board of Governors of the Federal Reserve System (Board) requests comment on proposed changes to its Payments System Risk (PSR) policy that would adopt a new strategy for providing intraday balances and credit to depository institutions and encourage such institutions to collateralize their daylight overdrafts. The Board believes changes to the Federal Reserve's current strategy for providing intraday balances and credit to the banking industry

would help loosen liquidity constraints and reduce operational risk.

Specifically, the Board proposes to adopt a policy of supplying intraday balances to healthy depository institutions predominantly through *explicitly* collateralized daylight overdrafts provided at a zero fee. The Board would allow depository institutions to pledge collateral *voluntarily* to secure daylight overdrafts but would encourage the voluntary pledging of collateral to cover daylight overdrafts by raising the fee for uncollateralized daylight overdrafts to 50 basis points (annual rate) from the current 36 basis points. The Board also proposes to increase the biweekly daylight overdraft fee waiver to \$150 from \$25 to minimize the effect of the proposed policy changes on institutions that use small amounts of daylight overdrafts (small users). In addition, the proposed policy would involve changes to other elements of the PSR policy dealing with daylight overdrafts, including adjusting net debit caps, streamlining maximum daylight overdraft capacity (max cap) procedures for certain foreign banking organizations (FBOs), eliminating the current deductible for daylight overdraft fees, and increasing the penalty daylight overdraft fee for ineligible institutions to 150 basis points (annual rate) from the current 136 basis points.

**DATES:** Comments must be received on or before June 4, 2008.

**ADDRESSES:** You may submit comments, identified by Docket No. OP-1309, by any of the following methods:
