The SEP will hold a conference call to discuss Reef Fish Amendment 30-B. Amendment 30B contains potential management measures to define overfishing and overfished thresholds and an optimum yield (OY) target for gag; end overfishing of gag; increase the total allowable catch (TAC) of the red grouper stock to its OY level; establish recreational and commercial allocations for gag and red grouper; establish accountability measures for gag to assure compliance with ending overfishing; adjust commercial grouper quotas and recreational grouper bag limits; closed seasons; and/or size limits; reduce discards and discard mortality of groupers; establish a new reef fish marine reserve and/or extend the duration of the existing Madison-Swanson and Steamboat Lumps marine reserves; and require that federally permitted reef fish vessels comply with the more restrictive of federal or state reef fish regulations when fishing in state waters.

Although other non-emergency issues not on the agenda may come before the SEP for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during the meeting. Actions will be restricted to the issue specifically identified in the agenda and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the SEP's intent to take action to address the emergency.
