

barite from abroad. The duty rate on the raw barite is \$1.25 per metric ton.

This application requests authority for Baker Hughes to conduct the activity under FTZ procedures, which would exempt the company from Customs duty payments on the imported barite used in export production. Less than one percent of production is exported. On domestic sales, the company could choose the lower duty rate (duty-free) for the imported raw barite used in manufacturing that applies to the finished product. The majority of FTZ-related savings will come from the elimination of the duty on the finished product. Baker Hughes will also realize additional savings on the elimination of duties on materials that become scrap/waste during manufacturing. The application indicates that the FTZ-related savings would improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address listed below. EFFECTIVE DATE: (March 11, 2008.)

FOR FURTHER INFORMATION CONTACT: Tyler Weinhold or Robert James, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482-1121 and (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

At the request of interested parties, on August 24, 2007, the Department published in the **Federal Register** a notice of initiation of this antidumping duty administrative review. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 72 FR 48613, August 24, 2007. The review covers the period July 1, 2006, through June 30, 2007. The preliminary results for these administrative reviews are currently due no later than April 1, 2008.

Extension of Time Limits for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to complete the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 245 day time period for the preliminary results to 365 days.

The Department has determined it is not practicable to complete this review within the statutory time limit because we require additional time to conduct a sales below-cost investigation in this administrative review and to collect and analyze other information needed for our preliminary results. Accordingly, the Department is extending the time limits for completion of the preliminary results of this administrative review until no later than July 30, 2008, which is 365 days from the last day of the anniversary month of these orders. We intend to issue the final results in this review no later than 120 days after publication of the preliminary results.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: March 4, 2008.

Stephen Claeys,

Deputy Assistant Secretary for Import Administration.
