

The Child and Family Services Improvement Act of 2006 amended Title IV–B, subparts 1 and 2, adding a number of requirements that affect reporting through the APSR and the CFS–101. Of particular note, the law added a provision requiring States (excluding Tribes and Territories) to report data on caseworker visits (section 424(e) of the Act). States must provide annual data on 1) the percentage of children in foster care under the responsibility of the State who were

visited on a monthly basis by the caseworker handling the case of the child; and 2) the percentage of the visits that occurred in the residence of the child. In addition, by June 30, 2008, States must set target percentages and establish strategies to meet the goal that; by October 1, 2011; at least 90 percent of the children in foster care are visited by their caseworkers on a monthly basis and that the majority of these visits occur in the residence of the child (section 424(e)(2)(A) of the Act).

Respondents: States, Territories, and Tribes must complete the CFSP, APSR, and CFS–101, Parts I, II, and III. Tribes and Territories are not required to meet the monthly caseworker visits reporting requirement of the APSR. There are approximately 223 Tribal entities that are eligible for title IV–B funding. There are 52 States and Territories that must complete the CFSP, APSR, and CFS–101. There are a total of 275 possible respondents.
