## DEPARTMENT OF ENERGY

### Western Area Power Administration

#### Salt Lake City Area Integrated Projects Firm Power, Colorado River Storage Project Transmission and Ancillary Services Rates—Rate Order No. WAPA-137

**AGENCY:** Western Area Power Administration, DOE.

**ACTION:** Notice of Extension of Public Process for Rate Adjustment.

**SUMMARY:** Western initiated a public process to modify the Salt Lake City Area Integrated Projects (SLCA/IP) firm power rates and extend the Colorado River Storage Project (CRSP) transmission and ancillary services rates by publishing a notice in the **Federal Register** on January 4, 2008. Western held a Public Information Forum on February 5, 2008, and a Public Comment Forum on March 4, 2008.

Western is extending the comment and consultation period to allow sufficient time to finalize the 2010 Work Program Review (WPR), which forms the basis of the operation, maintenance and replacement (OM&R) expenses, to propose a two-step increase and to add clarification to the Spinning and Supplement Reserves (SP-SSR-3) rates. In conjunction with extending the comment and consultation period, Western will hold an additional public information forum and public comment forum on April 10, 2008. Information will be provided at this public information forum and also on the CRSP Management Center Web site under the "FY 2009 SLCA/IP Rate Adjustment" section located at: <http://www.wapa.gov/CRSP/ratescrsp/default.htm>.

Western mailed a brochure on January 11, 2008, that provided detailed information about the rates to all interested parties. The proposed rates in Rate Order No. WAPA-137 under Rate Schedules SLIP-F9, SP-PTP7, SP-NW3, SP-NFT6, SP-CF1, SP-SD3, SP-RS3, SP-EI3, SP-FR3, and SP-SSR3 are scheduled to go into effect on October 1, 2008.

**DATES:** The extended consultation and comment period begins today and will end May 5, 2008. A public information forum will be held on April 10, 2008, 1:30 p.m., at the Wallace F. Bennett Federal Building, Room 8102, 125 S. State Street, Salt Lake City, Utah. A public comment forum will follow the public information forum. Western will accept written comments any time during the consultation and comment period.

**ADDRESSES:** Send written comments to Mr. Bradley S. Warren, CRSP Manager, CRSP Management Center, Western Area Power Administration, 150 East Social Hall Avenue, Suite 300, Salt Lake City, UT 84111-1580; telephone (801) 524-5493; e-mail [CRSPMCadj@wapa.gov](mailto:CRSPMCadj@wapa.gov). Western will post information about the rate process on its Web site under the "FY 2009 SLCA/IP Rate Adjustment" section located at: <http://www.wapa.gov/CRSP/ratescrsp/default.htm>.

Western will post official comments received by letter and e-mail to its Web site after the close of the comment period. Western must receive written comments by the end of the consultation and comment period to ensure consideration in Western's decision process.

**FOR FURTHER INFORMATION CONTACT:** Ms. Carol A. Loftin, Rates Manager, CRSP Management Center, Western Area Power Administration, 150 East Social Hall Avenue, Suite 300, Salt Lake City, UT 84111-1580; telephone (801) 524-6380; e-mail [loftinc@wapa.gov](mailto:loftinc@wapa.gov).

**SUPPLEMENTARY INFORMATION:** The proposed rates for SLCA/IP firm power are designed to return an annual amount of revenue to meet the repayment of power investment, payment of interest, purchased power, OM&R expenses, and the repayment of irrigation assistance costs as required by law.

The Deputy Secretary of Energy approved Rate Schedule SLIP-F8 for firm power service on August 1, 2005. Rate Schedule SLIP-F8 became effective on October 1, 2005, for a 5-year period ending September 30, 2010. The Deputy Secretary of Energy also approved a rate extension for the CRSP Transmission and Ancillary Services Rates through September 30, 2010.

### Discussion

Western's SLCA/IP Firm Power, CRSP Transmission and Ancillary Services rates entered into a rate adjustment process with a **Federal Register** notice published on January 4, 2008, which began the initial public consultation and comment period that would have ended on April 3, 2008. Western seeks an extension of the public process to provide additional time to finalize the 2010 WPR, which forms the basis of the OM&R expenses. The 2010 WPR shows significant increases in some program areas, and Western and the firm power customers need more time to evaluate these proposed increases. The customers are requesting Western consider a rate increase that is phased in over a 2-year period, and Western will provide options for customers'
