

Notices

Federal Register

Vol. 73, No. 61

Friday, March 28, 2008

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Cibola National Forest Invasive Plant Management Project

AGENCY: Forest Service, USDA.

ACTION: Cancellation of notice of intent to prepare an environmental impact statement.

SUMMARY: On April 29, 2002, Forest Supervisor Liz Agpaoa signed a Notice of Intent (NOT) to prepare an Environmental Impact Statement (EIS) for the Cibola National Forest Invasive Plant Management Project. On May 3, 2002, the **Federal Register** published the Notice of Intent (NOT) (Volume 67, Number 86, pages 22389–22390). The Department of Agriculture, Forest Service is issuing this notice to advise the public that we are cancelling the notice of intent to prepare an environmental impact statement for this proposed action. The initial proposal provided for the inclusion of all the administrative units on the Cibola National Forest including the Kiowa, Rita Blanca, Black Kettle, and McClellan Creek National Grasslands. The areas included in the proposal vary widely in geographical and ecological settings and conditions, from woodlands and forests to short-grass and tall-grass prairies. The wide range of biological and physical settings complicates the analysis and disclosure of effects. The Forest Service plans to reassess the proposal and determine the appropriate scope of the proposal and form of environmental documentation. The NEPA process will be re-initiated for any new proposed actions.

FOR FURTHER INFORMATION CONTACT: Keith Baker, NEPA Coordinator, Cibola National Forest, 2113 Osuna Road NE., Albuquerque, NM 87113, Phone (505) 346–3820, Fax (505) 346–3901.

Dated: March 18, 2008.

Nancy Rose,

Forest Supervisor.

Forest Service

Bridger-Teton National Forest; Revised Notice of Intent To Prepare a Supplemental Environmental Impact Statement To Analyze and Disclose New Information Relative to Oil and Gas Leasing of 44,720 Acres on the Big Piney Ranger District

AGENCY: Forest Service, USDA.

SUMMARY: This notice revises an earlier Notice of Intent (NOI) to prepare a supplemental environmental impact statement (SEIS) to analyze and disclose new information relative to oil and gas leasing of 44,720 acres on the Big Piney Ranger District. The Forest Service is providing this revised notice because the public scoping period is being extended. Scoping for a supplemental statement is not required [40 CFR 1502.9(c)(4)], but due to the length of time since scoping associated with the current leasing decision was conducted, comments specific to new issues or information that was not considered are being solicited.

DATES: Comments concerning new information or issues not previously considered in the leasing analysis must be postmarked by April 28, 2008. The Draft SEIS (DSEIS) is expected in November 2008. The estimated completion date for the Final SEIS (FSEIS) is April 2009.

ADDRESSES: Send written comments to Stephen Haydon, Forest Minerals Staff, Bridger-Teton National Forest, 340 N. Cache, PO Box 1888, Jackson, WY 83001–1888. Send electronic comments to: *comments-intermtn-bridger-teton@fs.fed.us* with the subject clearly titled “Leasing SEIS”.

FOR FURTHER INFORMATION CONTACT: Stephen Haydon, Project Leader.

SUPPLEMENTARY INFORMATION: This revised notice updates the original NOI, which appeared Monday, February 4, 2008, in the **Federal Register** (73 FR pages 6453–6454). The Bridger-Teton National Forest (BTNF) made an oil and gas leasing decision in the Forest Plan

signed in 1990 after preparing an environmental impact statement (EIS). Subsequent Environmental Assessments were completed in the early 1990s to consider the impacts of oil and gas leasing in various Management Areas throughout the Forest. Since the early 1990s, several new issues bearing on oil and gas leasing have arisen and new information has become available since that decision. The Forest reviewed those issues and the new information and documented that review in a Supplemental Information Report dated February 25, 2004. The Forest Supervisor concluded that the new issues and information did not alter the previous leasing decision in the Forest Plan. Subsequently, in 2005 the Forest Service sent lease parcels covering 44,720 acres to the Bureau of Land Management (BLM) for competitive lease sale. The BLM offered, sold and issued leases on 20,963 acres in December 2005 and April 2006, and sold but did not issue leases on the remaining 23,757 acres in June and August 2006. Following protest and BLM State Director’s Review, an appeal to the Interior Board of Land Appeals (IBLA) was filed for the December and April lease sales. This appeal included a “Request for Stay”, which was granted. Upon request by the BLM, IBLA remanded the appeals back to the BLM for resolution. This supplemental analysis will address the resource issues and effects analysis concerns identified by IBLA or as identified through this scoping effort.

Purpose and Need for Action

The purpose and need for action is to determine whether and to what extent analysis of new issues and information might alter the oil and gas leasing decision as it relates to the 44,720 acres forwarded to the BLM for competitive lease sale. This action is needed to address the appropriateness of the previous leasing decisions, to decide the final disposition of the suspended existing leases and lease parcels, and to be responsive to the IBLA remand requiring incorporation of the new issues and information in the BLM decision to lift the suspension of lease parcels and issue oil and gas leases.

Proposed Action

The proposed federal action is to lift the current suspension on the issued

December 2005 and April 2006 leases and to issue those that were sold but not issued from the June and August 2006 sales. To do so requires the analysis of new issues and information not available to the deciding officials at the time the leasing decision was made.

Possible Alternatives

The alternatives to be considered may include continuation of the current leasing decision contained in the Forest Plan, the no action alternative, and potentially others identified in scoping. The no action alternative would involve not issuing the leases that have been sold but not issued, and cancelling the leases that were sold. Additional alternatives may be identified once scoping is completed.

Lead and Cooperating Agencies

The Forest Service is the lead agency. The BLM and the State of Wyoming are cooperating agencies.

Responsible Official

The Forest Service responsible official for determining if and to what extent the analysis of new issues and information would alter the oil and gas leasing decision contained in the BTNF Forest Plan [36 CFR 228.102(d)] is Carol "Kniffy" Hamilton, Forest Supervisor, Bridger-Teton National Forest, 340 N. Cache (P.O. Box 1888), Jackson, Wyoming 83001. The BLM responsible official for final decision (43 CFR 3101.7) relative to the issuance or disposition of the leases and lease parcels is Robert A. Bennett, State Director, BLM, Wyoming State Office, 5353 Yellowstone (P.O. Box 1828), Cheyenne, Wyoming 82009.

Nature of Decision To Be Made

The Forest Service will determine if and how the current Forest Plan oil and gas leasing decision, as it relates to the 44,720 acres, should be changed based on new information. If a new decision is determined not to be needed following preparation of the supplemental environmental impact statement, that determination is not subject to appeal in accordance with 36 CFR 215.12. The BLM will then decide whether or not the revised Forest Service National Environmental Policy Act (NEPA) analysis is adequate, and subsequently whether to lift the suspension on the existing leases and whether to issue leases on the other lease parcels.

Scoping Process

Scoping for a supplemental statement is not required [40 CFR 1502.9(c)(4)], but due to the length of time since

scoping associated with the current leasing decision was conducted, the agencies are soliciting comments specific to new issues or information that was not considered. Letters will be sent to the Forest mailing list of known interested parties. Public meetings held in 2006 in association with Forest Plan revision efforts generated issues relative to oil and gas leasing. Comments received during those meetings will be considered in this supplemental analysis. The scoping process will assist the agencies in identifying specific issues to be addressed related to the purpose and need and the scope of the decision. Ongoing information related to the proposed action and related analysis will be posted on the BTNF Web site at <http://www.fs.fed.us/r4/btnf>.

Preliminary Issues

Preliminary issues associated with the proposed action include:

(1) The drilling and production of wells subsequent to leasing could impact air quality and air quality related values, with emphasis on cumulative effects due to extensive development in the Pinedale area.

(2) The T&E listed Canada lynx, or its habitat, could be impacted by subsequent exploration and development activities.

(3) Impacts to water quality due to subsequent surface disturbing activities could adversely affect the Colorado River cutthroat trout.

(4) The development of a transportation system to support field development could adversely affect mule deer migration routes in the area and fragment habitat.

Comment Requested

This revised notice extends the scoping process which guides the development of the supplemental environmental impact statement. Send written comments to the addresses given above for further information. No meetings are planned at this time.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A DSEIS will be prepared for comment. The comment period on the DSEIS will be for a period of 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of a draft environmental impact statement (DEIS) or a DSEIS must structure their participation in the

environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the DEIS stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when the agency can meaningfully consider them and respond to them in the final environmental impact statement. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the DEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the DEIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Authority: 40 CFR 1501.7 and 1508.22; Forest Service Handbook 1909.15, Section 21.

Dated: March 19, 2008.

Carole "Kniffy" Hamilton,

Forest Supervisor, Bridger-Teton National Forest.
